International Organizations Management - Coursera

This makes eminent sense: the law of international organizations has always been conceived (if conceived in theoretical terms to begin with) as having something to do with the links between the organization and its member states: those members set up their organizations for certain purposes, and create the legal environment to help the organization realize its functions: they provide them with powers, grant privileges and immunities, and often pay a membership contribution.

An Introduction To International Organizations

The third edition of this market-leading textbook (previously called An Introduction to International Institutional Law) is written in a clear, three-part structure. It is centred on the dynamics of the relationships between international organisations and their organs, staff, and the outside world.

International Organizations - Research Guide International ...

An international organization can be defined, following the International Law Commission, as an 'organization established by a treaty or other instrument governed by international law and possessing its own international legal personality'. International organizations generally have States as members, but often other entities can also apply for membership.
