"Genevieve Buchanan inherited a castle -- and a ghost to go along with it. But Kendrick de Piaget was no typical ghost. He was a handsome and infuriatingly arrogant thirteenth-century knight. At first he wanted to frighten Genevieve, though she was more charmed than scared by his ghostly tricks. But when his thoughts turned to wooing her instead, Genevieve had to face her greatest fear: falling in love." -- from publisher's web site.

Hailed by The New York Times for writing "with wonderful clarity about science . . . that effortlessly teaches as it zips along," nationally bestselling author Robert M. Hazen offers a radical new approach to Earth history in this intertwined tale of the planet's living and nonliving spheres. With an astrobiologist's imagination, a historian's perspective, and a naturalist's eye, Hazen calls upon twenty-first-century discoveries that have revolutionized geology and enabled scientists to envision Earth's many iterations in vivid detail—from the mile-high lava tides of its infancy to the early organisms responsible for more than two-thirds of the mineral varieties beneath our feet. Lucid, controversial, and on the cutting edge of its field, *The Story of Earth* is popular science of the highest order. "A sweeping rip-roaring yarn of immense scope, from the birth of the elements in the stars to meditations on the future habitability of

our world." -Science "A fascinating story." - Bill McKibben

'Writing with Stardust' will launch your

writing skills into a different orbit. It not only shows you how to write, it teaches you how to look at the world with an 'artist's eye'. Spring is described as nature's defibrillator in the book. In the same way, the techniques used here will be the high voltage pacemaker you have been looking for in your writing. Ready to greet you are females with constellation-blue eyes and megawatt smiles. Males with Hercules-gold hair move like panthers in slow-mo. Thumb plump bumblebees, wings a-thrum, loot from honeypots of mustard-yellow flowers. Willowy waterfalls swoop into infinity pools while the stars above sparkle like angel fire. Pine and peat, mint and meringue; all the smells and tastes you could wish for are inside. Join us on a multisensory voyage of discovery that will change the way you think forever. Nature can be a cruel mistress, however. Blood-red moons leer over boiling seas while mariners try to defy ancient curses. Grim faced men fight for their lives under starless skies and sun blasted deserts burn hotter than Greek fire. Even the lightning flashes like the cold, gold prongs of the Apocalypse. The book provides a platform for students,

parents, teachers and lovers of English to launch their descriptive powers into a new orbit. The word banks contain words for five different levels of ability. Whether you are a young English student or a seasoned scribe, you will find that this book will transform the way you think about descriptive writing.

The title says it all. If you are in the process of writing a book, or if you're considering it, there are dozens of things

you won't know - and that you should. What I want to do here is share about my experience over about fifteen years of writing my first novels, and the years of publishing and marketing them, so you might get a jump on what's in store. Here are some chapter headings to give you an idea of what's in the book. * Self-Editing * Why Would Your Book Get Noticed? * Publishing * Marketing and Selling * About Your Website * Read It Like An Agent/Publisher Maybe you've been doing this for a while now and know a lot about these items. I didn't - and got caught trying to find answers and find my way through the maze after I started. I'm not the expert, but maybe what I have to share with you will save you a lot of the grief I had. If you've written a book, or are thinking about it, you owe it to yourself to get lots of information before you really get started. "So You've Written A Book, Now What?" could prove to be just the help you need.
