## CRANE ROGERS

---

Firekeeper's Daughter Simon and Schuster  
 "Should be required reading for anyone interested in preserving our 246-year experiment in self-government." —The New York Times Book Review \* "Well researched and eloquently presented." —The Atlantic \* "Delivers Cormac McCarthy-worthy drama; while the nonfictional asides imbue that drama with the authority of documentary." —The New York Times Book Review A celebrated journalist takes a fiercely divided America and imagines five chilling scenarios that

lead to its collapse, based on in-depth interviews with experts of all kinds. The United States is coming to an end. The only question is how. On a small two-lane bridge in a rural county that loathes the federal government, the US Army uses lethal force to end a standoff with hard-right anti-government patriots. Inside an ordinary diner, a disaffected young man with a handgun takes aim at the American president stepping in for an impromptu photo-op, and a bullet splits the hyper-partisan country into violently opposed mourners and revelers. In New York City, a Category 2 hurricane plunges entire neighborhoods underwater and creates millions of refugees overnight—a blow that comes on the heels of a financial crash

and years of catastrophic droughts—and tips America over the edge into ruin. These nightmarish scenarios are just three of the five possibilities most likely to spark devastating chaos in the United States that are brought to life in The Next Civil War, a chilling and deeply researched work of speculative nonfiction. Drawing upon sophisticated predictive models and nearly two hundred interviews with experts—civil war scholars, military leaders, law enforcement officials, secret service agents, agricultural specialists, environmentalists, war historians, and political scientists—journalist Stephen Marche predicts the terrifying future collapse that so many of us do not want to see unfolding in front of our eyes. Marche

has spoken with soldiers and counterinsurgency experts about what it would take to control the population of the United States, and the battle plans for the next civil war have already been drawn up. Not by novelists, but by colonels. No matter your political leaning, most of us can sense that America is barreling toward catastrophe—of one kind or another. Relevant and revelatory, *The Next Civil War* plainly breaks down the looming threats to America and is a must-read for anyone concerned about the future of its people, its land, and its government.

**Dark Nebula: Discovery** Simon and Schuster

Glenn Beck, the New York Times bestselling author of *The Great Reset*—issues a startling challenge to people on both sides of the aisle: America is addicted to outrage, we're at the height of a twenty-year bender, and we need an intervention. In the instant New York Times bestseller, Glenn Beck addresses how America has become more and more divided—both politically and socially. Americans are now less accepting, less forgiving, and have lost faith in many of the country's signature ideals. They are quick to point a judgmental finger at the opposing party, are unwilling to doubt their own ideologies, and refuse to have any self-awareness whatsoever. Beck states that this current downward spiral will ultimately lead to the destruction of everything America has fought so hard to preserve. This is not simply a Republican problem. This is not simply a Democratic problem. This is everyone's burden, and we need to think like recovering addicts and change. Mirroring traditional twelve-step programs, Beck outlines the actions that Americans must follow in order to prevent a farther decline down this current path of hostile bitterness. Drawing from his own life experiences and including relevant examples for each step, he is able to lead us to a more hopeful, happy future. From learning how to believe in something greater than ourselves to understanding the importance of humility, each chapter encourages self-reflection and growth. *Addicted to Outrage* is a timely and necessary guide for how Americans—right and left—must change to survive.

**Before We Were Strangers** Harvest House Publishers

The survival of indigenous communities and the first European settlers alike depended on a deeply cooperative style of living and working, based around common lands, shared food and labor. Cooperative movements proved integral to the grassroots organizations and struggles

challenging the domination of unbridled capitalism in America's formative years. Holding aloft the vision for an alternative economic system based on cooperative industry, they have played a vital, and dynamic role in the struggle to create a better world. Seeking to reclaim a history that has remained largely ignored by most historians, this dramatic and stirring account examines each of the definitive American cooperative movements for social change - farmer, union, consumer, and communalist - that have been all but erased from collective memory. Focusing far beyond one particular era, organization, leader, or form of cooperation, *For All the People* documents the multigenerational struggle of the American working people for social justice. With an expansive sweep and breathtaking detail, the chronicle follows the American worker from the colonial workshop to the modern mass-assembly line, ultimately painting a vivid panorama of those who built the United States and those who will shape its future. John Curl, with over forty years of experience as both an active member and scholar of cooperatives, masterfully melds theory, practice, knowledge and analysis, to present the definitive history from below of cooperative America.

**The Next Civil War** Simon and Schuster  
A NEW YORK TIMES BESTSELLER  
The New York Times bestselling author of *The Great Reset* arms you to the teeth with information necessary to debunk the socialist arguments that have once again become popular, and proves that the free market is the only way to go. With his trademark humor, Beck lampoons the resurgence of this bankrupt leftist philosophy with thousands of stories, facts, arguments and easy-to-understand graphics for anyone who is willing to ask the hard questions. He shows that this new shiny socialism is just the same as the old one: a costly and dangerous failure that leaves desperation, poverty, and bodies in its wake.

**A Good Girl's Guide to Murder**

Delacorte Press

*River of Dark Dreams* places the Cotton Kingdom at the center of worldwide webs of exchange and exploitation that extended across oceans and drove an insatiable hunger for new lands. This bold reaccounting dramatically alters our understanding of American slavery and its role in U.S. expansionism, global capitalism, and the upcoming Civil War.

**40 Days Through Revelation** Harper Collins

For years, government bureaucrats have been looking for ways to destroy small

businesses. With coronavirus, they finally had their chance. In 2020, the American economy suffered the biggest financial collapse in history. But while Main Street suffered like never before, the stock market continued to reach new highs. How could this be? The answer is that government had slapped oppressive restrictions on small businesses while propping up Wall Street and engineering a historic consolidation of power and wealth. This isn't a new problem. During the last financial crisis, Washington bailed out large banks, saying they were "too big to fail." When the federal government finally pushed out the CARES Act in 2020, it clearly favored the wealthy and well-connected, showing that small businesses were too small to matter. People across the political spectrum constantly complain about the tyranny of big business, and they're not wrong. However, too many think government is the solution. In reality, government is the problem. In *The War on Small Business*, entrepreneur Carol Roth unveils the many abuses of power inflicted on small businesses during the COVID-19 pandemic. Small business owners were thrown in jail for trying to make a living. Individual rights were discarded. Big government did what it does best—intentionally protect the rich and powerful. This is the most underreported story coming out of the pandemic. The government chose winners and losers, who would thrive and who would fight to survive, based on not data or science, but based on clout and connections. This enabled the government, with the aid of the Federal Reserve, to oversee the largest wealth transfer in history from Main Street to Wall Street. The issues started long ago and continue today with a highly tilted playing field that favors those "in the club" to the detriment of the average Americans. This book is about the Davids vs. the Goliaths and the decentralization that can help the small, independent businesses and individuals participate in wealth creation. If Americans don't wake up and stop it, politicians will continue to produce policies that intensify their war on small business and individuals and all that stands in the way of centralized power and control.

**Long Grows the Dark** Simon and Schuster  
People would have known about Australia before they saw it. Smoke billowing above the sea spoke of a land that lay beyond the horizon. A dense cloud of migrating birds may have pointed the way. But the first Australians were voyaging into the unknown. Soon after Billy Griffiths joins his first archaeological dig as camp manager and cook, he is hooked. Equipped with a

historian's inquiring mind, he embarks on a journey through time, seeking to understand the extraordinary deep history of the Australian continent. *Deep Time Dreaming* is the passionate product of that journey. It investigates a twin revolution: the reassertion of Aboriginal identity in the second half of the twentieth century, and the uncovering of the traces of ancient Australia. It explores what it means to live in a place of great antiquity, with its complex questions of ownership and belonging. It is about a slow shift in national consciousness: the deep time dreaming that has changed the way many of us relate to this continent and its enduring, dynamic human history. John Mulvaney Book Award: Winner Ernest Scott Prize: Winner NSW Premier's Literary Awards: Winner - Book of the Year NSW Premier's Literary Awards: Winner - Douglas Stewart Prize for Non-fiction Victorian Premier's Literary Awards: Highly Commended Queensland Literary Awards: Shortlisted Prime Minister's Literary Awards: Shortlisted Educational Publishing Awards: Shortlisted Australian Book Industry Awards: Longlisted CHASS Book Prize: Longlisted 'What a revelatory work! If you wish to hear the voice of our continent's history before the written word, *Deep Time Dreaming* is a must read. The freshest, most important book about our past in years.' —Tim Flannery 'Once every generation a book comes along that marks the emergence of a powerful new literary voice and shifts our understanding of the nation's past. Billy Griffiths' *Deep Time Dreaming* is one such book. Deeply researched, creatively conceived and beautifully written, it charts the expansion of archaeological knowledge in Australia for the first time. No other book has managed to convey the mystery and intricacy of Indigenous antiquity in quite the same way. Read it: it will change the way you see Australian history.' —Mark McKenna, historian 'Billy Griffiths' *Deep Time Dreaming: Uncovering Ancient Australia* is a remarkable book, and one destined, I believe, to become a modern classic of Australian history writing. Written in vivid, evocative prose, this book will grip both the expert and the general reader alike.' —Iain McCalman, author of *The Reef: A Passionate History: The Great Barrier Reef from Captain Cook to Climate Change*

**Deep Time Dreaming** Threshold Editions He found peace far from Sol, but danger never left his orbit. Can he help free humankind from death's clutches? Bradley Olivaw grew tired of the lies. Breaking from his family by leaving for a colony lightyears away, he's proud of his work

contributing to the new planet and he even soothed his anger issues. But when his brother Zachary reappears and reveals his old home in Sol is under intergalactic trial, he lets his rage drive him into action. With past resentments resurfacing between Bradley and his sibling, the pair take to the stars in search of a way to save humanity. But even after they split up to cover more ground and keep from killing each other, the crimes of their species follow them... and attract lethal alien threats. Will the brothers rise up to prevent humankind's extinction? *Dark Nebula: Discovery* is the absorbing second book in the *Dark Nebula* space opera series. If you like expanse-spanning stakes, futuristic tech, and traversing the depths of emotion, then you'll love Sean Willson's engulfing adventure. Buy *Dark Nebula: Discovery* to learn the harsh truth today! \*\*\* KEYWORDS: science fiction, scifi book, scifi books, space opera, space opera book, space opera scifi, space opera adventure battles, space opera exploration, epic space opera, science fiction female lead, strong female characters in books, robots, robots scifi, artificial life, ai, artificial intelligence, galactic empires, space colonization, planetary colonization, faster than light travel, alien invasion, first contact, interstellar travel, nanotechnology FOR FANS OF: Isaac Asimov, Greg Bear, David Brin, Martha Wells, Ann Leckie, Iain M. Scott, Nathan Nystad, James Rosone **DISCERNING THE FUTURE** Simon and Schuster THE MUST-READ MULTIMILLION BESTSELLING MYSTERY SERIES—COMING SOON TO NETFLIX! • This is the story about an investigation turned obsession, full of twists and turns and with an ending you'll never expect. Everyone in Fairview knows the story. Pretty and popular high school senior Andie Bell was murdered by her boyfriend, Sal Singh, who then killed himself. It was all anyone could talk about. And five years later, Pip sees how the tragedy still haunts her town. But she can't shake the feeling that there was more to what happened that day. She knew Sal when she was a child, and he was always so kind to her. How could he possibly have been a killer? Now a senior herself, Pip decides to reexamine the closed case for her final project, at first just to cast doubt on the original investigation. But soon she discovers a trail of dark secrets that might actually prove Sal innocent . . . and the line between past and present begins to blur. Someone in Fairview doesn't want Pip

digging around for answers, and now her own life might be in danger. And don't miss the sequel, *Good Girl, Bad Blood!* "The perfect nail-biting mystery." —Natasha Preston, #1 New York Times bestselling author *Biased World Scientific* "Discerning the Future: Christian Perspective on Contemporary Challenges" by Kerby Anderson provides an essential guide for Christians navigating the complexities of the modern world. As technological, political, economic, and social landscapes rapidly evolve, this book offers a biblical lens to understand and respond to these changes. Anderson, a respected author and speaker, draws on his deep knowledge and faith to address issues such as transhumanism, artificial intelligence, globalism, and privacy challenges. He also explores economic systems like capitalism and socialism, religious challenges posed by Islam and Sharia law, and the profound impact of new media and social media censorship. Through thoughtful analysis and scriptural insights, Anderson equips readers to discern the signs of the times and apply a biblical worldview to contemporary issues. This book encourages believers to stay informed, be proactive, and seek God's wisdom in addressing the moral and ethical dilemmas of today. "Discerning the Future" is a valuable resource for anyone seeking to understand the future through the lens of faith, offering hope and guidance in uncertain times. [Dreamers and Deceivers](#) Christian Publishing House NEW YORK TIMES BESTSELLER! "Savagery appeased can only grow. Once you give in to it, it must escalate, like a fire searching for air." The man who won the Pulitzer Prize for GLENGARRY GLEN ROSS, who wrote the classic films THE VERDICT and WAG THE DOG sounds his alarm about the Visigoths at our gates. In RECESSIONAL he calls out, skewers, mocks, and, most importantly, dissects the virus of conformity which is now an existential threat to the West. A broad-ranging journey through history, the Bible, and literature, RECESSIONAL examines how politics and cultural attitudes about rebellion have shifted in the United States in the last generation. By screaming down freedom of thought and expression, Mamet explains, we kill invention and democracy – the foundations of security and growth. A wickedly funny, wistful and wry appeal to the free-thinking citizen, RECESSIONAL is a vital warning that if we don't confront the cultural thuggery now, the commissars and their dupes will transform the Land of the Free into the

dictatorship at which they aim.

*Die Wolgadeutschen Unsere Leute*  
HarperCollins

Adapted from the original bestselling novel, *The Christmas Sweater*: The story of a young boy who finds the true meaning of Christmas.

Agenda 21 Penguin

This book presents archaeological research from places of war, violence, protest and oppression of the 20th and the 21st century; sites where the material relics give a deep insight to fateful events - a shadow of war. Alongside renewed interest in National Socialism and the Holocaust, archaeological interest started in former concentration camps of the Nazi dictatorship. The focus was on the central places of the camps, such as the gas chambers, the crematoria, or execution sites, as well as prisoners' barracks and the parade ground. In many cases, these sites revealed forgotten and vanished structures, where archaeological excavations can offer the possibility for commemorating the victims. The research has since widened and includes other sites of Nazi dictatorship and the Second World War, as well as the First World War, the Cold War and locations of civil wars and civilian protest against state authorities and against companies and corporations in many parts of the world. In order to come to a comprehensive understanding contemporary archaeology must take a global perspective. Archaeological finds often shed light on daily life, revealing survival conditions in the internment camps; the lives of people and their fighting and dying on battlefields and in trenches. Likewise, the relics of politically active people in protest camps give an impression of their commitment in civilian protest. Sometimes material remains can help to tell an alternative or balancing narrative to the state's official recorded history. The enormous volume and diverse range of material culture presents challenges and opportunities. Through careful archaeological investigation, we can present different and new perspectives that are not recorded clearly in existing written, pictorial or oral archives. The merging and examination of all sources together is what enables us to understand the complexity of the history. This book will also present future directions in contemporary archaeology that will help bring the study focus beyond sites and assemblages of war and protest.

*The Arctic Code* Greenleaf Book Group  
"In *Dark Future: Uncovering the Great Reset's Terrifying Next Phase*, New York Times bestselling authors Glenn Beck and Justin Haskins reveal the most important

technologies and social and cultural changes that will soon cause an unprecedented level of disruption in the United States, as well as in countless other nations. They also outline the dangers and opportunities associated with these disruptions and provide a plan to protect individuals and families from losing their liberty." --Amazon.

*The Energy Transition And The Struggle For Global Governance* Simon and Schuster

"Poignant....important and illuminating."—The New York Times Book Review "Groundbreaking."—Bryan Stevenson, New York Times bestselling author of *Just Mercy* From one of the world's leading experts on unconscious racial bias come stories, science, and strategies to address one of the central controversies of our time How do we talk about bias? How do we address racial disparities and inequities? What role do our institutions play in creating, maintaining, and magnifying those inequities? What role do we play? With a perspective that is at once scientific, investigative, and informed by personal experience, Dr. Jennifer Eberhardt offers us the language and courage we need to face one of the biggest and most troubling issues of our time. She exposes racial bias at all levels of society—in our neighborhoods, schools, workplaces, and criminal justice system. Yet she also offers us tools to address it. Eberhardt shows us how we can be vulnerable to bias but not doomed to live under its grip. Racial bias is a problem that we all have a role to play in solving.

**The War on Small Business** WideAsleep Publishing

The book of Revelation begins and ends with guarantees that its inspiring message leads to blessing. Popular Bible teacher and author Ron Rhodes guides readers on an encouraging journey through this prophetic book, interpreting its picturesque language and revealing its reassuring promises. Each short chapter is perfect for a group Bible study or a personal quiet time and includes... Scripture Reading and Insights—a short passage of Revelation and easy-to-understand notes on each verse Major Themes—brief summaries of the most important ideas Digging Deeper with Cross-References—several other passages readers can look up on relevant topics Life Lessons—practical and helpful applications to everyday life Questions for Reflection and Discussion—thought-provoking starters for group discussions or personal journaling Readers who may have been confused or intimidated by Revelation will

appreciate this easy-to-understand and practical presentation of its empowering truths.

*The Christmas Sweater* Simon and Schuster

The "New York Times"-bestselling author of "Beautiful Lies" delivers a thriller about broken trust that explores our faith in those we rely on--and how that faith can sustain or shatter us.

*Recessional* HarperCollins

Perfect for fans of the Percy Jackson and Seven Wonders series, *The Arctic Code* is the first book in an epic, fast-paced middle grade adventure trilogy by acclaimed author Matthew J. Kirby. It is the near future, and the earth has entered a new ice age. Eleanor Perry lives in Tucson, one of the most popular destinations for refugees of the Freeze. She is the daughter of a climatologist who is trying to find new ways to preserve human life on the planet. Dr. Perry believes that a series of oil deposits she has found in the Arctic may hold the key to our survival. That's when she disappears—but not before sending Eleanor a series of cryptic messages that point to a significant and mysterious discovery. Now it's up to Eleanor to go find her. This search will launch Eleanor on a breathless race to unlock the mysteries of what has happened to our planet, solving the riddle of the cold that could be humanity's end—and uncovering a threat to the earth that may not be of this world.

The War on the West Crown

This book is the second of a two-volume set, which together, tell the story of die Wolgadeutschen, the Volga Germans, from both a big picture and small picture perspective. The first volume, *Unsere Leute* (Our People), uses a wide-angle lens to tell the broad, overall story of the Volga German people and their place in history. This volume, *Unsere Familien* (Our Families), zooms in and narrows the focus to tell the personal family stories of the author's paternal Leikam and Karlin ancestors, and the family stories of two Russian cousins from another branch of the Leikam family, and the closely related Weilert family. These four interwoven families lived closely together in Katharinenstadt on the banks of the Volga, for over a century, until the 1870s, when changing economic and political conditions led many to seek a fresh start in the New World. Their histories took widely divergent paths from this point. The author's ancestors were among the waves of Volga German immigrants who left Russia in the late 1870s, to establish new settlements on the virgin prairies in northwest Kansas; survived the severe

economic hardships of the Great Depression/Dust Bowl era; fought against their primordial fatherland in two world wars; and eventually assimilated into the fabric of modern American culture. His Russian cousins' ancestors remained in Russia. Their family stories are both poignant tales, filled with drama and tragedy, that play out during the terrible decades of the Communist Revolution, the Russian Civil War, the Great Famine, collectivization, Stalin's reign of terror, and the deportation after the Nazi invasion of Russia in 1941. But both are also positive

stories of the survival of human decency and goodness in the midst of profound evil. This book is a must for anyone related to or interested in these families. The comparison and contrast of the parallel histories of these four closely related families also makes it a great addition to the library of anyone interested in the history of the Volga Germans in general. **Creative Destruction** Simon and Schuster  
The Negro Motorist Green Book was a groundbreaking guide that provided African American travelers with crucial information on safe places to stay, eat,

and visit during the era of segregation in the United States. This essential resource, originally published from 1936 to 1966, offered a lifeline to black motorists navigating a deeply divided nation, helping them avoid the dangers and indignities of racism on the road. More than just a travel guide, The Negro Motorist Green Book stands as a powerful symbol of resilience and resistance in the face of oppression, offering a poignant glimpse into the challenges and triumphs of the African American experience in the 20th century.
