Notes:

Edexcel A2 Geography

Hodder

Education

A student-friendly and engaging resource for the 2016 Edexcel GCSE Geography B specification, this brand new course is written to match the demands of the specification.

As well as providing thorough and rigorous coverage of the spec, this book is designed to engage

students in their learning and to motivate them to progress.

Geography

Hodder

Education

Two new titles that provide comprehensive coverage of the syllabus.

Units 1 and 2 of Biology for CAPE®

Examinations provide a comprehensive coverage of the CAPE® Biology syllabus.

Written by highly experienced, internationally bestselling authors Mary and Geoff Jones and CAPE®

Biology teacher and examiner

Myda

Ramesar, both books are in full colour and written in an accessible style.

Learning objectives are presented at the beginning of each

chapter, and to assist students preparing for the

examination, each chapter is followed by questions in the style they will encounter on their examination papers.

Revision Guide:
Hodder Education
These revision guides are the ideal complement to Heinemann 16-19 Geography. Separate books for AS and A2 provide the right level of support and exactly cover the information and skills students need to succeed.
[Edexcel A level Geography Book 1 Third Edition](#) Hodder Education
Studying PGCE

Geography at M Level is for all students undertaking their PGCE, those working to gain Masters credits, and experienced teachers who wish to broaden their understanding of geography education. Bridging the gap between theory and practice, it is designed to support and challenge teachers as they explore geography education research, consider how theory and research enhance

practice, and develop critical reflection on practice. Divided into three key sections, it: investigates professional practice - what we understand about professionalism and quality in geography education, and how teachers can improve their practice introduces perspectives and debates on key themes and ideas in geography education, including subject expertise,

sustainable development, learning outside the classroom, and assessment provides practical guidance on the skills involved in undertaking M level work - extended reading, engaging with theory, undertaking research, and writing your dissertation. Chapters include key readings and questions to encourage further research and reflection, and every chapter is illustrated

with summaries of real students' dissertations, demonstrating the kind of research undertaken at M Level. Written by experts in geography education, Studying PGCE Geography at M Level offers invaluable support and inspiration for all those engaged in teaching, research and writing in geography education. **Progress in Geography: Key Stage 3** Nelson Thornes

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. A Content Guidance section combines an overview of the specific unit or module and the key terms and concepts, with an examiner's interpretation so that students	understand precisely what they need to understand and learn, the skills required and the potential pitfalls. A Question and Answer section provides graded answers, typically A and C, to questions which have been set to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses,	giving students an insight into the mind of the examiner. <u>Geographical Skills for Edexcel GCSE in Geography</u> A Hachette UK Written by senior examiners, Cameron Dunn and Sue Warn, this Edexcel A2 Geography Student Unit Guide is the essential study companion for Unit 3: Contested Planet. This full-colour book includes all you need to know to prepare for your unit
