Mayo Clinic Critical and Neurocritical Care Board Review

DOYLE THOMAS

Lippincott Williams & Wilkins

Mayo Clinic Critical and Neurocritical Care Board Review is an all-inclusive review of the pathophysiology and care of the neurocritically ill and critically ill patient. The book reviews the core major critical care and neurocritical care disorders, underlying pathophysiology, treatment decisions with questions and answers for self-directed study and board review purposes. The text is succinct, to the point, relevant, informative, and up-to-date with information from recent clinical trials and facts based on evidence-based medicine. The references are up-to-date and include the most recent critical care guidelines for further study. The book is written and closely supervised by experienced Mayo Clinic faculty and reviewed in detail by the editors. The book is suitable for self-study towards neurocritical care boards and a number of critical care board examinations and certification exams. Tables, explanatory drawings, and bullet points are used throughout the text for high-yield learning.

ACLS Review Made Incredibly Easy National Academies Press

Thoroughly revised and updated, the most complete family medicine board review guide continues to be the resource of choice for anyone preparing to take the American Board of Family Medicine (ABFM) examination. This edition includes dozens of new cases.

Instructor Manual John Wiley & Sons

This review book is designed to provide a comprehensive overview of high-impact topics for an essentials of ACLS Course. The content covers the nine essential ACLS Case Scenarios and their respective algorithms. Practice exams help students prepare for the examination. Emergency Medical Technicians and paramedics taking ACLS course.

ACLS (Advanced Cardiac Life Support) Review: Pearls of Wisdom, Third Edition Elsevier Health Sciences

Awarded second place in the 2017 AJN Book of the Year Awards in the Critical Care-Emergency Nursing category. Provide the best possible emergency cardiovascular care — using the newest ECC guidelines! ACLS Study Guide, 5th Edition offers a complete, full-color overview of advanced cardiovascular life support. An easy-to-read approach covers everything from airway management to cardiac arrest rhythms and their management, electrical therapy, acute coronary syndromes, and acute stroke. In addition to the latest ACLS treatment algorithms, this edition includes case studies and hundreds of full-color photos and illustrations. Case studies present common, realistic clinical situations, helping you learn and apply skills in cardiac rhythm interpretation, medication administration, and other essential interventions. ACLS Pearls boxes offer brief explanations of complex topics and useful tips for clinical practice. End-of-chapter quizzes include answers and rationales, helping you learn and remember the most important information. Easy-to-understand approach simplifies your study of advanced cardiac life support, thanks to Barbara Aehlert's unique, conversational writing style. NEW! UPDATED content centers on evidence-based practice recommendations, including the 2015 American Heart Association Guidelines for Cardiopulmonary

Resuscitation and Emergency Cardiovascular Care and the 2015 International Consensus on Cardiopulmonary Resuscitation and Emergency Cardiovascular Care Science With Treatment Recommendations. NEW! Improved format integrates all case studies into the appropriate chapters, so that you can apply concepts immediately to real-world situations.

The only question-based CAPA and CPAN exam review available, Certification Review for PeriAnesthesia Nursing, 3rd Edition is written by the American Society of PeriAnesthesia Nurses (ASPAN) -- the leading organization for perianesthesia nursing education, practice, standards and research. A total of 600 multiple-choice review questions includes case study and clinical application questions, answers, comprehensive rationales, and references to current research. Questions are updated to reflect the latest standards of practice and ABPANC's examination blueprints. From Barbara Putrycus and Jacqueline Ross, this ASPAN practice tool helps you review the core knowledge and essential skills you need for in-hospital or ambulatory certification. It has come to our attention that there are errors in the 3rd edition of ASPAN/Putrycus/Ross: Certification Review for Perianesthesia Nursing. Those errors have now been corrected. Please contact Customer Service at 1-800-545-2522 and mention part number 9996090566 to receive the corrections. We sincerely apologize for any problems this may have caused. UNIQUE! Review is based on the latest CPAN and CAPA examination blueprints, preparing you for the four core areas of knowledge tested:

physiological, behavioral and cognitive, safety, and patient advocacy. Essential core concepts and cross references to ASPAN's PeriAnesthesia Nursing Core Curriculum, 2nd Edition, are listed in the beginning of each chapter. Case study and clinical application questions include answers, correct answer rationales, and individual rationale references for each question. Chapters are broken into sets, with at least 20 multiple-choice questions included in each set. Convenient index is organized by question number rather than page number. Questions are revised or completely new to reflect the latest standards of practice and ABPANC's examination blueprints. Updated rationales and references are provided. New format features answers and rationales after each set of questions and also provides an answer key for all chapters at the end of the book. A chapter outline is included at the beginning of every chapter, and thumb tabs help you navigate more easily through the book.
