Lists citations to the National Health Planning Information Center's collection of health planning literature, government reports, and studies from May 1975 to January 1980.

Introduction to the Policy Process Bloomsbury Publishing

Available as an E-Inspection Copy! Go here to order Taking the fear out of writing your business project, this book helps you understand and carry out each step of the research process. With detailed, friendly and engaging support it takes you from the very beginning to the very end. Key features: Chapters are structured around FAQs such as 'How to choose a research question?', 'How do I go about a literature review?' guiding you towards a full understanding of the research process Workbook tasks help you shape your thoughts on each topic, enabling you to decide your own research question and how you will research it The importance of various ideas is clearly signposted, helping you prioritise your time according to your needs and goals. Templates and checklists from the book are also available for download at the Doing Your Business Research Project companion website at study.sagepub.com/beece This interactive guide is ideal for all Business and Management students about to complete a research project or dissertation.

Public Administration: A Very Short Introduction Oxford University Press

This book examines claims involving unjust enrichment and public bodies in France, England and the EU. Part 1 explores the law as it now stands in England and Wales as a result of cases such as Woolwich EBS v IRC, those resulting from the decision of the European Court of Justice (ECJ) in Metallgesellschaft and Hoechst v IRC and those involving Local Authority swaps transactions. So far these cases have been viewed from either a public or a private law perspective, whereas in fact both branches of the law are relevant, and the author argues that the courts ought not to lose sight of the public law issues when a claim is brought under the private law of unjust enrichment, or vice versa. In order to achieve this a hybrid approach is outlined which would allow the law access to both the public and private law aspects of such cases. Since there has been much discussion, particularly in the context of public body cases, of the relationship between the common law and civilian approaches to unjust enrichment, or enrichment without cause, Part 2 considers the French approach in order to ascertain what lessons it holds for England and Wales. And finally, as the Metallgesellschaft case itself makes clear, no understanding of such cases can be complete without an examination of the relevant EU law. Thus Part 3 investigates the principle of unjust enrichment in the European Union and the division of labour between the European and the domestic courts in the ECJ's so-called 'remedies jurisprudence'. In particular it examines the extent to which the two relevant issues, public law and unjust enrichment, are defined in EU law, and to what extent this remains a task for the domestic courts. Cited with approval in the Court of Appeal by Beatson, LJ in Hemming and others v The Lord Mayor and Citizens of Westminster, [2013] EWCA Civ 5912 Cited with approval in the Supreme Court by Lord Walker, in Test Claimants in the Franked Investment

Income Group Litigation (Appellants) v Commissioners of Inland Revenue and another [2012] UKSC 19

Electronic Inspection Copy available for instructors here This comprehensive text brings together in one volume both consideration of the core methods available for undertaking qualitative data collection and analysis, and discussion of common challenges faced by all researchers in conducting qualitative research. Qualitative Organizational Research: Core Methods and Common Challenges contains 27 chapters, each written by an expert in the area. The first part of the volume considers common challenges in the design and execution of qualitative research, examining key contemporary debates in each area as well as providing practical advice for those undertaking organizational research. The second part of the volume looks at contemporary uses of core qualitative methods in organizational research, outlining each method and illustrating practical application through empirical examples. Written by internationally renowned experts in qualitative research methods, this text is an accessible and essential resource for students and researchers in the areas of organization studies, business and management research, and organizational psychology. Key features: • Coverage of all the key topics in qualitative research • Chapters written by experts drawing on their personal experiences of using methods • Introductory chapters outlining the context for qualitative research and the philosophies which underpin it Gillian Symon is Reader in Organizational Psychology at Birkbeck, University of London. Catherine Cassell is Professor of Organizational Psychology at Manchester Business School.

Journal of Human Services Abstracts M.E. Sharpe

The Special Tribunal of the Lebanon is the first international Tribunal established to try the perpetrators of a terrorist act: the murder of the Lebanese Prime Minister in 2005. This book, written by practitioners with experience of the court and experts in international criminal law, provides a detailed assessment of its unique law and practice.

Indian National Bibliography SAGE

`This book is a must for scholars and practitioners interested in managing work teams in organizations.... Yeatts and Hyten have written an excellent reference work. The book synthesizes a wealth of prior research into a testable model of Self-Managed Work Team performance' -

Management Learning`The work is wide-ranging in its scope but retains a clear focus and coherence throughout.' International Journal of Public-Private Partnerships Since the mid-1970s, pressure from international competition has forced business in the United States to look for better ways to achieve and maintain a competitive position. One popular tool is the self-managed work-team (SMWT). This book provides a thorough examination of SMWT both at the level of theory and at the practical level of when to use work teams to find solutions and how to develop successful teams. By examining the most widely accepted theories of work-team performance, illustrated by 10 case studies from the areas of manufacturing, public service and health care, the authors define: how high-performing self-managed work teams differ from work groups and short-term teams; the problems which compel an organization to create such teams; the factors which explain successful self-managed work teams; and how to develop high performing cost-effective teams.

Parliamentary Debates SAGE

Beginning with 1953, entries for Motion pictures and filmstrips, Music and phonorecords form separate parts of the Library of Congress catalogue. Entries for Maps and atlases were issued separately 1953-1955.

Public administration ensures the development and delivery of the essential public services required for sustaining modern civilization. Covering areas from public safety and social welfare to transportation and education, the services provided through the public sector are inextricably part of our daily lives. However, mandatory budgetary cuts in recent years have caused public administrators to radically re-think how they govern in the modern age. In this Very Short Introduction Stella Theodoulou and Ravi Roy offer practical insight into the major challenges confronting the public sector in the globalized era. Tackling some of the most hotly debated issues

of our time, including the privatization of public services and government surveillance, they take the reader on a global journey through history to examine the origins, development, and continued evolution of public administration. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A Cumulative Author List Representing Library of Congress Printed Cards and Titles Reported by Other American Libraries K G Saur Verlag Gmbh & Company

Thoroughly revised, reorganized, updated, and expanded, this widely-used text sets the balance and fills the gap between theory and practice in public policy studies. In a clear, conversational style, the author conveys the best current thinking on the policy process with an emphasis on accessibility and synthesis rather than novelty or abstraction. A newly added chapter surveys the social, economic, and demographic trends that are transforming the policy environment.
