The sixties were possibly the greatest decade of last century - an exciting time for music and youth. No other youth culture has

personified this more than the Mods, who emerged in the early years of the decade as followers of fashion and soul music and who became the style leaders for this new youth culture. This lavish pictorial history contains over 150 photographs of the original Mods,

celebrating their thrilling and unique way of life.

How Great Leaders Create Connection in the Age of Isolation

Penguin

This must-read for lovers of Stephen King's *The Shining* will leave readers breathless as Seda and her family find themselves at the mercy of a murderer in an isolated and snowbound hotel. Get ready for what Kirkus calls "A bloody, wonderfully creepy scare ride." When her mom inherits an old, crumbling mansion, Seda's almost excited to spend the summer there. The grounds are beautiful and it's fun to explore the sprawling house with its creepy rooms and secret passages. Except now her mom wants to

renovate, rather than sell the estate—which means they're not going back to the city...or Seda's friends and school. As the days grow shorter, Seda is filled with dread.

They're about to be cut off from the outside world, and she's not sure she can handle the solitude or the darkness it brings out in her. Then a group of teens get stranded near the mansion during a blizzard. Seda has no choice but to offer them shelter, even though she knows danger lurks in the dilapidated mansion—and in herself. And as the snow continues to fall, what Seda fears most is about to become her reality...

Cursed Tales Oxford University Press
Scholarly readings of John Chrysostom's Christology seldom examine the intimate relationship that exists between his doctrinal, sacramental, and praxeological views. The vital correlation between exegesis and praxis in patristic thought must be taken into consideration in any evaluation of christological positions. Chrysostom's doctrine of Christ is intricately

bound to life in the church. Within this conceptual framework, Chrysostom's commentaries on John's Gospel and Hebrews are examined. The christological portrait that emerges from this oeuvre is a depiction of the personal continuity of the divine Son in Christ; his sacramental presence in the church, the body of Christ; and his transforming work in the Christian, to the likeness of Christ. This persuasive study demonstrates that Chrysostom's view of the Christian life is the outworking of his exegetically informed and pastorally rich christological doctrine.

In Emancipation's

Daughters, Riché Richardson examines iconic black women leaders who have contested racial stereotypes and constructed new national narratives of black womanhood in the United States. Drawing on literary texts and cultural representations, Richardson shows how five emblematic black women—Mary McLeod Bethune, Rosa Parks, Condoleezza Rice, Michelle Obama, and Beyoncé—have challenged white-centered definitions of American identity. By using the rhetoric of motherhood and focusing on families and children, these leaders have defied racist images of black women, such as the mammy or the welfare queen, and rewritten

scripts of femininity designed to exclude black women from civic participation.

Richardson shows that these women's status as national icons was central to reconstructing black womanhood in ways that moved beyond dominant stereotypes. However, these formulations are often premised on heteronormativity and exclude black queer and trans women. Throughout *Emancipation's Daughters*, Richardson reveals new possibilities for inclusive models of blackness, national femininity, and democracy.

What if almost everything you know about creating a culture of innovation is wrong? What if the way you are measuring innovation is choking

it? What if your market research is asking all of the wrong questions? It's time to innovate the way you innovate. Stephen Shapiro is one of America's foremost innovation advisors, whose methods have helped organizations like Staples, GE, Telefónica, NASA, the U.S. Air Force, and USAA. He teaches his clients that innovation isn't just about generating occasional new ideas; it's about staying consistently one step ahead of the competition. Hire people you don't like. Bring in the right mix of people to unleash your team's full potential. Asking for ideas is a bad idea. Define challenges more clearly. If you ask better questions, you will get better answers. Don't think outside the

box; find a better box. Instead of giving your employees a blank slate, provide them with well-defined parameters that will increase their creative output. Failure is always an option. Looking at innovation as a series of experiments allows you to redefine failure and learn from your results. Shapiro shows that nonstop innovation is attainable and vital to building a high-performing team, improving the bottom line, and staying ahead of the pack.

Alaska Index Duke University Press Enter the "fascinating" and frightening world of modern forensic psychology as experienced by one of

the most respected practitioners in the field today (Robert K. Tanenbaum, New York Times–bestselling author). At the heart of countless crimes lie the mysteries of the human mind. In this eye-opening book, Dr. Cheryl Paradis draws back the curtain on the fascinating world of forensic psychology, and revisits the most notorious and puzzling cases she has handled in her multifaceted career. Her riveting, sometimes shocking stories reveal the crucial and often surprising role forensic psychology plays in the pursuit of justice—in which the accused may truly believe their own bizarre lies, creating a world that pushes them into committing horrific, violent crimes. Join Dr. Paradis in a

stark concrete cell with the indicted as she takes on the daunting task of mapping the suspect's madness or exposing it as fakery. Take a front-row seat in a tense, packed courtroom, where her testimony can determine an individual's fate—or if justice will be truly served. The criminal thought process has never been so intimately revealed—or so darkly compelling—as in this “excellent and entertaining” journey into the darkest corners of the human mind (Booklist).

A new novel from the Booker Prize winning Pat Barker, author of the Regeneration Trilogy, that unforgettably portrays London during the Blitz (her first portrayal of World War II) and reconfirms her place in the very top rank of British novelists.

London, the Blitz, Autumn 1940. As the bombs fall on the blacked-out city, ambulance driver Elinor Brooke races from bomb sites to hospitals trying to save the lives of injured survivors, working alongside former friend Kit Neville, while her husband Paul Tarrant

works as an air-raid warden. Once fellow students at the Slade School of Fine Art before the First World War destroyed the hopes of their generation, they now find themselves caught in another war, this time at home. As the bombing intensifies, the constant risk of death makes all three reach out for quick consolation. And into their midst comes the spirit medium Bertha Mason, grotesque and unforgettable, whose ability to make contact with the deceased finds vastly increased demands as death rains down from the skies. Old loves and obsessions resurface until Elinor is brought face to face with an almost impossible choice. Completing the story of Elinor Brooke,

Paul Tarrant and Kit Neville begun with *Life Class* and continued with *Toby's Room*, *Noonday* is both a stand-alone novel and the climax of a trilogy. Writing about the Second World War for the first time, Pat Barker brings the besieged and haunted city of London into electrifying life in her most powerful novel since the *Regeneration* trilogy.

From the co-author of the *New York Times* bestseller *Team of Teams*, a practical guide for leaders looking to make their organizations more interconnected and unified in the midst of sudden change. Too often, companies end up with teams stuck in their own silos, pursuing goals and

metrics in isolation. Their traditional autocratic structures create stability, scalability, and predictability -- but in a world that demands rapid adaptation to a new reality, this traditional model simply doesn't work. In *Team of Teams*, retired four-star General Stanley McChrystal and former Navy SEAL Chris Fussell made the case for a new organizational model combining the agility, adaptability, and cohesion of a small team with the power and resources of a giant organization. Now, in *One Mission*, Fussell channels all his experiences, both military and corporate, into powerful strategies for unifying isolated and distrustful teams. This practical

guide will help leaders in any field implement the *Team of Teams* approach to tear down their silos improve collaboration, and avoid turf wars. By committing to one higher mission, organizations develop an overall capability that far exceeds the sum of their parts. From Silicon Valley software giant Intuit to a government agency on the plains of Oklahoma, organizations have used Fussell's methods to unite their people around a single compelling vision, resulting in superior performance. *One Mission* will help you follow their example to a more agile and resilient future.

Feeling stuck? Veteran journalist and cancer survivor Lu Ann Cahn was feeling angry and frustrated. The economy was tanking. Her job was changing. In a word, she felt “stuck.” Something had to change. Her daughter helped convince her to start a

“Year of Firsts.” For the next 365 days, Cahn made a point of doing something she had never done before, every day. Before she knew it, her whole perspective on life had changed. In this inspiring book, Lu Ann recounts how a new “first” everyday brought excitement and wonder back into her world. And more than that, she helps readers see how they can do it too. •

Harley-Davidson: American Freedom Machines explores

Harley-Davidson's fascinating history. 70 Harleys profiled, illustrated with photography and informative text.

Hardcover 320 pages
Scholars have estimated that roughly 300 motorcycle manufactures set out their shingles across the U.S. in the early in the early part of this century. By 1954, the exact figure was much easier to pin down: There was just one. Why Harley-Davidson survived when others failed is a story these pages can only begin to reveal.

Radio Frequency and Microwave Electronics Illustrated Citadel Press
Now with a new chapter that focuses on what great bosses really do. Dr. Sutton reveals new insights that he's learned since

the writing of *Good Boss, Bad Boss*. Sutton adds revelatory thoughts about such legendary bosses as Ed Catmull, Steve Jobs, A.G. Lafley, and many more, and how you can implement their techniques. If you are a boss who wants to do great work, what can you do about it? *Good Boss, Bad Boss* is devoted to answering that question. Stanford Professor Robert Sutton weaves together the best psychological and management research with compelling stories and cases to reveal the mindset and moves of the best (and worst) bosses. This book was inspired by the deluge of emails, research, phone calls, and conversations that Dr. Sutton experienced after publishing his

blockbuster bestseller *The No Asshole Rule*. He realized that most of these stories and studies swirled around a central figure in every workplace: THE BOSS. These heart-breaking, inspiring, and sometimes funny stories taught Sutton that most bosses - and their followers - wanted a lot more than just a jerk-free workplace. They aspired to become (or work for) an all-around great boss, somebody with the skill and grit to inspire superior work, commitment, and dignity among their charges. As Dr. Sutton digs into the nitty-gritty of what the best (and worst) bosses do, a theme runs throughout *Good Boss, Bad Boss* - which brings together the diverse lessons and is

a hallmark of great bosses: They work doggedly to "stay in tune" with how their followers (and superiors, peers, and customers too) react to what they say and do. The best bosses are acutely aware that their success depends on having the self-awareness to control their moods and moves, to accurately interpret their impact on others, and to make adjustments on the fly that continuously spark effort, dignity, and pride among their people.

In the 1950s, New York City's Birdland was the center of the world of modern jazz--and a revelation to Bill Crow, a wet-behind-the-ears twenty-two-year-old from Washington

State. Located on Broadway between 52nd and 53rd streets, the club named for the incomparable Charlie "Bird" Parker boasted lifesize photo murals of modern jazzmen like Dizzy Gillespie, Lennie Tristano, and, of course, Bird himself, looming large against jet black walls. Exotic live birds perched in cages behind the bar. The midget master of ceremonies, 3'9" Pee Wee Marquette, dressed in a zoot suit and loud tie, smoked huge cigars and screeched mispronounced introductions into the microphone. And the jazz-struck young Crow would park in the bleachers till 4 am, blissfully enveloped by the heady music of Bird, Bud Powell, Max Roach, and a host of

other jazz giants. From Birdland to Broadway is an enthralling insider's account of four decades of a life in jazz. Bill Crow, journeyman bass player, superb storyteller, and author of the successful *Jazz Anecdotes*, here narrates many moving and delightful tales of the pioneers of modern jazz he played with and was befriended by. We find Dizzy Gillespie, with whom Crow, because of prior commitments, regretfully declined steady work, dancing at the Royal Roost, Stan Getz sadly teetering on the brink of losing himself to drugs, and Harry Belafonte (known then as "the Cinderella Gentleman") running a lunch counter in New York's Sheridan Square

between music dates. And we also witness many of the highlights of Crow's career, such as in 1955 when the Marian McPartland Trio (with Crow on bass) was named "Small Group of the Year" by Metronome; Crow playing with the Gerry Mulligan Quartet at venues like Storyville in Boston and Harlem's Apollo Theater (where they appeared with Dinah Washington); and the tour of the Soviet Union with Benny Goodman, a journey that might have been a high point of Crow's travels abroad but was marred by Goodman's legendary mistreatment of his band. Moving beyond jazz clubs to the Broadway concert pit and a variety of studio gigs in the '60s, Crow

encounters actors such as Yul Brynner and pop-rock acts like Simon and Garfunkel. From the great to the near-great, from Billie Holiday to Judy Holliday, Bill Crow's wealth of personal anecdotes takes the reader from Birdland, to the Half Note, to the Playboy Club, to the footlights of Broadway. This revealing book is a marvelous portrait of the jazz world, told by someone who's been there.

How to Create a Movement that Drives Transformational Change Penguin

Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place

where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him.

Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.
