This supplement provides computerized cases for all major cost accounting topics. Students are asked to define the unique business problem described in the case, use the applied templates to analyze data related to alternative courses of action, and then make a decision or discuss the implications of the results. An initial exercise illustrates the basics of using a microcomputer and Excel. Optional tutorials are also available

for those who want to add to, improve on, or make more effective use of the templates. A Solutions Manual provides the case objective, an overview of the case, a description of the accompanying template, a list of potential student analysis, and a discussion guide *Cost Accounting* Pearson Horngren's Cost Accounting leads the market because of its strong emphasis on decision making, extensive real-world examples provided in a modular, flexible format

Cost Accounting

Prentice Hall
Studying cost accounting is one of the best business decisions a student can make. Why? Because success in any business—from the smallest corner store to the largest multinational corporation—requires the use of cost accounting principles and practices. Cost accounting provides key data to managers for

planning and controlling, as well as for costing products, services, and customers.

The Arab World Edition of this popular text from world famous author Charles T. Horngren has been especially created to motivate and engage students of cost accounting from across the Arab World. While there are many cost accounting textbooks available on the market, none have been

developed with such a strong focus on preparing students for an accounting career in both the Arab World and globally. This new text sets out to provide cost accounting students with the practical skills and theoretical knowledge students need to thrive in both their academic study and future careers. Drawing on many locally sourced examples and case studies, this text gives students an essential global perspective on cost accounting, all the while

making core concepts relevant to students' own experiences.
