A Collection of Natural Wonders, Marine Marvels and Undersea Antics from Across the Globe The Great Undersea Search
 From giant octopuses and great white sharks, to deep sea divers and treasure troves, there are around 100 things to spot on every double page of this book. The Great Undersea Search provides countless hours of puzzle-solving fun, and is full of fascinating

facts about life under the oceans.

The Great Wildlife Search Wide Eyed Editions

Set your spirit of adventure free with this journey to the world's great oceans, discovering the diversity of life that exists in the deep blue sea. Whether you're travelling long haul with leatherback turtles across the Pacific, snoozing with sea otters or ice bathing with a walrus, this book celebrates the very prescient topic of the world's oceans with Lucy Letherland's animal characters. A natural history lesson in an adventure book, each spread features 10 captions and and facts about every destination. The 5th title in the best-selling Atlas of Adventures series that has now been translated into 31 languages.

Usborne Pub Limited

Now in a new format, and better value than ever before, these classic searches are sure to keep children entertained for hours on end. Each beautifully illustrated double-page features a brain-teasing picture puzzle. As well as providing hours of puzzle-solving fun, each book is packed with fascinating facts presented in short, easy-to-read captions.

Usborne, the Great Wildlife Search Penguin

"Did you know the natural world is a construction zone? Amazing animals all over the world are building all kinds of structures

every single day. This fascinating, fact-filled book will captivate young scientists and naturalists and have them looking out for animal construction projects happening in their own backyards!"--

Station Eleven Simon and Schuster

In our "wireless" world it is easy to take the importance of the undersea cable systems for granted, but the stakes of their successful operation are huge, as they are responsible for carrying almost all transoceanic Internet traffic. In *The Undersea Network* Nicole Starosielski follows these cables from the ocean depths to their landing zones on the sandy beaches of the South Pacific, bringing them to the surface of media scholarship and making visible the materiality of the wired network. In doing so, she charts the cable network's cultural, historical, geographic and environmental dimensions. Starosielski argues that the environments the cables occupy are historical and political realms, where the network and the connections it enables are made possible by the deliberate negotiation and manipulation of technology, culture, politics and geography. Accompanying the book is an interactive digital mapping project, where readers can trace cable routes, view photographs and archival materials, and read stories about the island cable hubs.

The Fantastic Undersea Life of Jacques Cousteau Usborne Pub Limited

Daisy and Basil take Ladybird on holiday... but while learning to scuba dive, Ladybird sneaks off in a submarine into Ocean City! Can you help Daisy and Basil find him?

Search for the Sparkle (Mermicorn Island #1) Scholastic Inc.

From debut author London Shah, comes a thrilling futuristic Sci-Fi mystery perfect for fans of *Illuminae* and *These Broken Stars*. In the last days of the twenty-first century, sea creatures swim through the ruins of London. Trapped in the abyss, humankind wavers between hope and fear of what lurks in the depths around them, and hope that they might one day find a way back to the surface. When sixteen-year-old submersible racer Leyla McQueen is chosen to participate in the city's prestigious annual marathon, she sees an opportunity to save her father, who has been arrested on false charges. The Prime Minister promises the champion whatever their heart desires. But the race takes an unexpected turn, forcing Leyla to make an impossible choice. Now she must brave unfathomable waters and defy a corrupt government determined to keep its secrets, all the while dealing with a guarded, hotheaded companion she never asked for in the first place. If Leyla fails to discover the truths at the heart of her world, or falls prey to her own fears, she risks capture-or worse. And her father will be lost to her forever.

The Light at the Bottom of the World HarperCollins

Half unicorn, half mermaid, and totally adorable! In the colorful undersea world of Mermicorn Island, magic is all around, if you just know where to look. And no one is looking harder than Lucky the Mermicorn! He is eager to find his 'sparkle,' that special thing, or bit of magic that will make him stand out. So when Lucky finds a glittering treasure chest filled with seashells, and a mysterious note that instructs the finder to "share the magic" he's convinced his life must be in for a whale of a change!

A novel from the NUMA Files Simon and Schuster

Relates the story of the oceans that are home to so many creatures, that are part of the water cycle which produces rain, and that can become very messy if we do not take care of them.

Atlas of Ocean Adventures Usborne Books

Pearl is a magical dolphin of the Salty Sea, and today is her first day of school. Her classmates Echo and Splash make great new friends! Together they start learning dolphin skills like magic, music, and jumping. But another student, Flip, just won't stop bragging. And when he accepts a dare from an older student, he ends up in terrible danger from a shark! Can Pearl and her friends

save him? It's an exciting first day at Dolphin School!

The Great Dinosaur Search Usborne Books

Clive Cussler's New York Times bestselling *Blue Gold*, now available in ebook, is a heart-pounding thriller in the NUMA adventure series. Kurt Austin navigates the Amazon jungle in search of a legend that could change the path of science—but secretive powers will do anything to stop him. From deep within the Venezuelan rain forest emanates the legend of a white goddess and a mysterious tribe with startling technical accomplishments. Few believe the tribe exists—and even fewer suspect its deity may hold knowledge that can change the course of history. For National Underwater & Marine Agency crew leader Kurt Austin, an investigation into the sudden deaths of rare whales leads him to the Mexican coast, where someone tries to put him and his mini-sub permanently out of commission. Meanwhile, in South America's lush hills, a specially assigned NUMA crew turns up the white-goddess legend—and a murderous cadre of bio-pirates intent on stealing medicinal secrets worth millions. Soon Austin and his crew realize they're working the opposite ends of the same grand scheme. A billionaire California tycoon is poised to rise to power by monopolizing the earth's vastly depleted freshwater reserves and ultimately dominate the world. Austin has a hunch Venezuela's mythical tribal goddess has some real roots in science, and may be the key to locating a secret formula that could turn vast amounts of seawater into fresh. But with each step into the bush, he and his NUMA team feel like fish out of water—and must fight a deadly, twisting trail of enemies through a dense jungle of treachery, blackmail, and murder.

Great Planet Earth Search Penguin

An adaptation of the nineteenth-century science fiction tale of an electric submarine, its eccentric captain, and the undersea world, which anticipated many of the scientific achievements of the twentieth century.

Marie Tharp Maps the Mountains Under the Sea Houghton Mifflin Harcourt

Packed with fascinating facts and up to 100 things to spot on every spread, helps children to develop reading, counting and identification skills. Ages 4+.

Plastic Soup Usborne Books

The Big Bug Search Henry Holt and Company (BYR)

This book is more than just a challenging puzzle book it's also a fascinating look at life on Earth millions of years ago. Each beautifully illustrated double-page spread covers a different period of prehistoric time and is crammed full of creatures and plants for you to find.

Flotsam Simon and Schuster

NATIONAL BESTSELLER • An audacious, darkly glittering novel set in the eerie days of civilization's collapse—the spellbinding story of a Hollywood star, his would-be savior, and a nomadic group of actors roaming the scattered outposts of the Great Lakes region, risking everything for art and humanity. Now an original series on HBO Max. Over one million copies sold! Kirsten Raymonde will

never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of King Lear. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of art

and humanity alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band's existence. And as the story takes off, moving back and forth in time, and vividly depicting life before and after the pandemic, the strange twist of fate that connects them all will be revealed. Look for Emily St. John Mandel's new novel, Sea of Tranquility, coming soon!
