Earth Awakens Macmillan

Four novellas set in the world of the acclaimed and hugely successful Ender series, by bestselling author Orson Scott Card.

The Hive Macmillan

An SF classic from the author of Ender's Game. Kidnapped at an early age, the young singer Anset has been raised in isolation at the mystical retreat called

the Songhouse. His life has been filled with music, and having only songs for companions, he develops a voice that is unlike any heard before. Anset's voice is both a blessing and a curse, for the young Songbird can reflect all the hopes and fears his audience feels and, by magnifying their emotions, use his voice to heal--or to destroy. When it is discovered that his is the voice that the Emperor has waited decades for, Anset is summoned to the Imperial Palace on Old Earth. Many fates rest in Anset's hands, and his songs will soon be put to

the test: either to salve the troubled conscience of a conqueror, or drive him, and the universe, into mad chaos. Songmaster is a haunting story of power and love--the tale of the man who would destroy everything he loves to preserve humanity's peace, and the boy who might just sing the world away. Xenocide Restless Books

The bestselling Orson Scott Card's The Tales of Alvin Maker series continues with Heartfire Peggy is a Torch, able to see the fire burning in each person's heart. She can follow the paths of each person's future, and know each person's most intimate secrets. From the moment of Alvin Maker's birth, when the

Unmaker first strove to kill him, she has protected him. Now they are married, and Peggy is a part of Alvin's heart as well as his life. But Alvin's destiny has taken them on separate journeys. Alvin has gone north into New England, where knacks are considered witchcraft, and their use is punished with death. Peggy has been drawn south, to the British Crown Colonies and the court of King Arthur Stuart in exile. For she has seen a terrible future bloom in the heartfires of every person in America, a future of war and destruction. One slender path exists that leads through the bloodshed, and it is Peggy's quest to set the world on the path to peace. Reading by Starlight Tor Science Fiction
Reading by Starlight explores the characteristics in the writing, marketing and reception of science fiction which distinguish it as a genre. Damien Broderick explores the postmodern self-referentiality of the sci-fi narrative, its intricate coded language and discursive 'encyclopaedia'. He shows how, for perfect understanding, sci-fi readers must learn the codes of these imaginary worlds and vocabularies, all the time picking up references to texts by other writers. Reading by Starlight includes close readings of paradigmatic cyberpunk texts and writings by SF novelists and theorists including Isaac

Asimov, Arthur C. Clarke, Brian Aldiss, Patrick Parrinder, Kim Stanley Robinson, John Varley, Roger Zelazny, William Gibson, Fredric Jameson and Samuel R. Delaney.

Book 2 of The Second Formic War Macmillan

Orson Scott Card and Aaron Johnston return to their Ender's Game prequel series with this first volume of an all-new trilogy about the Second Formic War in The Swarm. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese army. China has been devastated by the Formic's initial efforts to eradicate Earth life forms and prepare the ground for their own settlement. The Scouring of China struck fear into the other nations of the planet;

that fear blossomed into drastic action when scientists determined that the single ship that wreaked such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading into the system, unstoppable by any weapons that Earth can muster. Earth has been reorganized for defense. There is now a Hegemon, a planetary official responsible for keeping all the formerly warring nations in line. There's a Polemarch, responsible for organizing all the military forces of the planet into the new International Fleet. But there is an enemy within, an enemy as old as human warfare: ambition and politics. Greed and self-interest. Will Bingwen, Mazer Rackam, Victor Delgado and Lem Juke be able to divert those very human

enemies in time to create a weapon that can effectively defend humanity in the inexorable Second Formic War? Empire Orb Books

The American Empire has grown too fast,

and the fault lines at home are stressed to the breaking point. The war of words between Right and Left has collapsed into a shooting war, though most people just want to be left alone. The battle rages between the high-technology weapons on one side, and militia foot-soldiers on the other, devastating the cities, and overrunning the countryside. But the vast majority, who only want the killing to stop and the nation to return to more peaceful days, have technology, weapons and strategic geniuses of their own. When the American dream shatters into violence, who can hold the people and the government together? And which side will you be on? Orson Scott Card is a master storyteller, who has earned millions of fans and reams of praise for his previous science fiction

and fantasy novels. Now he steps a little closer to the present day with this chilling look at a near future scenario of a new American Civil War. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Logic Gate is Down Tor Books After twenty-three years, Orson Scott Card returns to his acclaimed best-selling series with the first true, direct sequel to the classic Ender's Game. In Ender's Game, the world's most gifted children were taken from their families and sent to an elite training school. At Battle School, they learned combat, strategy, and secret intelligence to fight a dangerous war on behalf of those left on Earth. But they also learned some important and less definable lessons

about life. After the life-changing events of those years, these children—now teenagers—must leave the school and readapt to life in the outside world. Having not seen their families or interacted with other people for years—where do they go now? What can they do? Ender fought for humanity, but he is now reviled as a ruthless assassin. No longer allowed to live on Earth, he enters into exile. With his sister Valentine, he chooses to leave the only home he's ever known to begin a relativistic—and revelatory—journey beyond the stars. What happened during the years between Ender's Game and Speaker for the Dead? What did Ender go through from the ages of 12 through 35? The story of those years has never been told. Taking place 3000 years

before Ender finally receives his chance at redemption in Speaker for the Dead, this is the long-lost story of Ender. For twenty-three years, millions of readers have wondered and now they will receive the answers. Ender in Exile is Orson Scott Card's moving return to all the action and the adventure, the profound exploration of war and society, and the characters one never forgot. On one of these ships, there is a baby that just may share the same special gifts as Ender's old friend Bean... The Second Formic War (Volume 1)

BenBella Books, Inc.

The war for survival of the planet Lusitania will be fought in the heart of a child named Gloriously Bright. On Lusitania, Ender found a world where humans and pequininos and the Hive Queen could all live together; where three very different intelligent species could find common ground at last. Or so he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the pequininos require in order to become adults. The Startways Congress so fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all

who live there. The Fleet is on its way, a second xenocide seems inevitable.

Xenocide is the third novel in Orson Scott Card's Ender Quintet.

Speaker for the Dead Macmillan
Included in this Orson Scott Card ebook bundle: Ender's Game and Ender's Shadow Ender's Game Andrew "Ender" Wiggin thinks he is playing computer simulated war games, at Earth's elite military academy, the Battle School; he is, in fact, engaged in something far more desperate. Ender may be the military genius Earth desperately needs in a war against an inscrutable alien that seeks to destroy all human life. The only way to find out is to throw Ender into ever harsher training, to chip away and find the diamond inside, or destroy him utterly. Ender Wiggin is six years old when it begins. He will grow up fast.

Ender's Game is an international bestseller, read and loved by generations. It has been named one of the top ten science fiction novels of all time. Ender's Shadow Andrew "Ender" Wiggin was not the only child in the Battle School; he was just the best of the best. In Ender's Shadow, Card tells the story of another of those precocious generals, the one they called Bean--the one who became Ender's right hand, part of his team, in the final battle against the Buggers. Bean's past was a battle just to survive. His success brought him to the attention of the Battle School's recruiters, those people scouring the planet for leaders, tacticians, and generals to save Earth from the threat of alien invasion. Bean was sent into orbit, to the Battle School.

And there he met Ender.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Ender's Shadow Tor Books

Bestselling author Orson Scott Card brings to life a new chapter in the saga of Ender's Earth and The Shadow Series. Earth and its society have been changed irrevocably in the aftermath of Ender Wiggin's victory over the Formics. The unity forced upon the warring nations by an alien enemy has shattered. Nations are rising again, seeking territory and influence, and most of all, seeking to control the skills and loyalty of the children from the Battle School. But one person has a better idea. Peter Wiggin, Ender's older, more ruthless, brother, sees that any hope for the future of

Earth lies in restoring a sense of unity and purpose. And he has an irresistible call on the loyalty of Earth's young warriors. With Bean at his side, the two will reshape our future. Shadow Puppets is the continuing story of Bean and Petra, and the rest of Ender's Dragon Army, as they take their places in the new government of Earth. Ender's Shadow explores the stars in this
all-new novel... At the end of Shadow of
the Giant, Bean flees to the stars with
three of his children--the three who
share the engineered genes that gave
him both hyper-intelligence and a short,
cruel physical life. The time dilation
granted by the speed of their travel
gives Earth's scientists generations to
seek a cure, to no avail. In time, they are
forgotten--a fading ansible signal
speaking of events lost to Earth's
history. But the Delphikis are about to
make a discovery that will let them save
themselves, and perhaps all of humanity

in days to come. For there in space
before them lies a derelict Formic colony
ship. Aboard it, they will find both death
and wonders--the life support that is
failing on their own ship, room to grow,
and labs in which to explore their own
genetic anomaly and the mysterious
disease that killed the ship's colony.

unique reimagining of the biblical tale. Tracing their lives from childhood to maturity, Card shows how the women of Genesis change each other—and are changed again by the holy books that Jacob brings with him. Leah, the oldest daughter of Laban, whose "tender eyes" prevent her from fully participating in the daily work of her nomadic family, and Rachel, the spoiled younger daughter, the petted and privileged beauty of the family—or so it seems to Leah. There is also Bilhah, an orphan who is not quite a slave but not really a family member, a young woman desperately searching to fit in, and Zilpah, who knows only how to use her beauty to manipulate men as she strives to secure for herself something better than the life of drudgery and servitude

into which she has been born. Into the desert camp comes Jacob, a handsome and charismatic kinsman who is clearly destined to be Rachel's husband. But that doesn't prevent the other women from vying for his attention. Ambition, jealousy, fear, and love motivate them as they vie for the attention of Jacob, heir to the spiritual birthright of Abraham and Isaac. Orson Scott Card offers a Christmas gift to his millions of fans with *A War of Gifts*, a short novel set during Ender Wiggin's first years at the Battle School where it is forbidden to celebrate religious holidays.

The children come from many nations, many religions; while they are being trained for war, religious conflict between them is not on the curriculum. But Dink Meeker, one of the older students, doesn't see it that way. He thinks that giving gifts isn't exactly a religious observation, and on Sinterklaas Day he tucks a present into another student's shoe. This small act of rebellion sets off a battle royal between the students and the staff, but some surprising alliances form when Ender comes up against a new student, Zeck Morgan. The War over Santa Claus will force everyone to make a choice. THE ENDER UNIVERSE Ender series Ender's Game / Speaker for the Dead / Xenocide / Children of the Mind / Ender in Exile /
