*Stone Wall*

Secrets 5m

Books Ltd

Dry stone

walling is one

of the oldest  
of countryside

crafts, and  
these

attractive  
structures

form one of  
the most

striking  
features of the

rural

landscape,  
whether on

upland

pastures, fell  
or moorland.

The author

looks into the  
history and

development

of dry stone walling before demonstrating how to build a wall with step-by-step explanations accompanied by photographs and diagrams. Bloomsbury Publishing Captures real material, plant and labour costs from the UK's major live rail, civils and highways projects. SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2021 from AECOM gives a full breakdown of labour, plant and material elements, with

labour rates updated. Cost guidance is given at a number of levels, varying from the more general functional costs to detailed resource costing; and in conformity with CESMM4 and the Highways Method of Measurement, and updated to the CIJC wage agreement. This 35th edition gives more items on shafts, tunnelling, drainage and water proofing - covering some brand

new materials and methods. Notes have been added to tunnelling, viaducts, D-walls and piling under the output section. The book partially reflects costs and new ways of working resulting from the Covid-19 pandemic. Use the access code inside the front cover of the book to get set up with an ebook of this 2021 edition on the VitalSource® Bookshelf platform, available for access and use until the

end of

CRC Press  
Rod Ismay has  
a passion  
(some would  
say obsession)  
for the Tour  
de France. If  
you think you  
know  
someone who  
is obsessed,  
think again,  
but  
fortunately  
Rod's issues  
found their  
natural home  
when his  
native  
Yorkshire  
became the

host for the 2014 Grand Départ. Rod also has another passion - as well as cycling he is quite keen on bell-ringing, so why not combine the two? Why not get all the bells ringing along the Tour route, why not organise countless events, countless meetings, why not drag in churches far and wide, why not involve your employer, your friends, your family, why not photo-bomb

five-time Tour winner Bernard Hinault? Rod threw himself, his King of the Mountains jersey and his endless enthusiasm head first into making this Grand Départ about as good and memorable as it could be. Rod has written with passion about Yorkshire, its people, those two stages of the world's greatest cycle race and the churches, ringing their bells all along the race route. If you like cycling

then you will love this book. If you know Yorkshire then you will read this book with pride. If you are thinking of marrying a Tour de France obsessive then you need to read this book first.

**Spon's Civil Engineering and Highway Works Price**  
CRC Press  
A history of stone wall construction traces significant eras and structures from the Ice Age to the present, assessing how stone wall

building has been shaped by influences ranging from slavery and territorial disputes to immigration and suburbanization, in a chronicle complemented by evocative ink drawings. Original.

**Discovering  
The  
Cotswold  
Way** CRC  
Press

A master craftsman introduces the techniques and beauty of hand-built, drystone construction in a richly illustrated volume that

celebrates this ancient architectural style used to create an imaginative variety of walls, follies, and other structures that honor the unique characteristics of stone.

Spon's  
Architects'  
and Builders'  
Price Book  
2014

Wakefield Press  
This lively memoir tells the story of a boy growing up in Plymouth, Devon, getting excited about archaeology after visits to mainland

Greece and Crete, trying to get into Greek archaeology and relocating northwards into the Balkans, where he spent a career in prehistoric research. The chapters alternate between museum/university experiences and the author's major research projects. The experiences of working in that part of the world as the Third Balkan War was starting were dramatic. The

memoir presents stories with implications for East-West relationships which will soon disappear from living memory. The ways that research projects originated and developed are also strongly featured. There is also a fund of anecdotes about prehistorians living and dead. The publication of this memoir records those fragments of the discipline's history which

are in danger of being lost forever. But Chapman's life story is not erased from this account, which is not an anthropological work but, rather, a participant account with a modicum of relevant personal details. This memoir provides the insider story to the research results. *Spon's Architects' and Builders' Price* CRC Press. In this comprehensive and

practical guide to the countryside, passionate and hugely knowledgeable countryman Alan Titchmarsh explores the heritage of rural Britain, its landscapes and wildlife, its traditions, customs and crafts. He'll look at the beauty of chalk downland, offer a checklist of British butterflies and where to find them and show how to make moth traps and wildlife ponds. He'll identify

the best breeds of cattle for meat and milk, explain how best to look after a pig and the secrets of a successful small holding. From keeping chickens to dressing a stick, from dry-stone walling to creating a wild flower meadow, the essence of country life and the best places to encounter it will be identified in this celebration of the British countryside and its delights, skills

and treasures. Lavishly illustrated, beautifully produced and information packed, *The Complete Countryman* will be an inspirational showcase for all that is best about rural Britain and will reconnect us with its wonderful wise ways. *High-impact, Low-carbon Gardening* CRC Press Strong output demand over the last year has stretched the industry. The issues are being felt by all firms across the

delivery chain – from clients to subcontractors. Capacity constraints almost always manifest themselves in prices. Increased tender prices have become the primary symptom of these supply-side issues. The main driver of new work output growth over the last 18 months is slowing. Both the public and private housing sectors are quickly reversing all of their recent upward trends

when looked at on a yearly growth basis. The counterpoint to this is that the yearly growth figures are still positive, meaning that new work continues to flow. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2016, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender

Index, updated through the year, gives an ongoing reality check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £3,500,000 in value. Use the access code inside the front cover of the book to get set up with internet access to this 2016 edition

until the end of December 2016. We now provide SPON'S Online, a versatile and powerful online data viewing package -- online or offline on your PC/Mac, smartphone or tablet. You can browse and search the content across all the price books you own, make notes and highlights and share these notes with other users. Major changes have been made to this 141st edition: For

the first time, plant prices have been separated out in the measured works section. As well as an overhaul of prices, several new items have been added, including: Two new cost models for a stand-alone private patient ward within a larger hospital complex, and an extra care home An expanded range of ACO drainage channels Precast concrete 'Perfect Manholes' by CPM Shower-

wall laminated panelling walling An expanded range of architectural pre-finished blockwork ... along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups. Hundreds of alternative materials prices for the more unusual

items. Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updated, free of charge, two or three times a year - see inside for registration details. Updates are available online at [www.pricebooks.co.uk](http://www.pricebooks.co.uk) Other titles in the Spon's Price Book Series:

<p>SPON'S MECHANICAL AND ELECTRICAL SERVICES PRICE BOOK 2016 SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2016 SPON'S EXTERNAL WORKS AND LANDSCAPE PRICE BOOK 2016 <u>On the Tour de France big ring for Yorkshire and its churches</u> Artisan Books This book is written for the first generation farmer but at the same time will appeal to a much wider</p>	<p>audience, including established farmers. It provides readers with the information they need to commit themselves to a farming life even if they lack experience and finance. It encourages would-be farmers to have a go at farming on their own, whether it be a hobby farm, part-time farm or a full-time enterprise. The book covers a wide range of topics, from renting land</p>	<p>and buying a field, as well as all the livestock enterprises, arable farming, haymaking, silage making and much more. A chapter is also included on how to obtain planning permission for a mobile home and permanent dwelling in a greenbelt area, along with how to go about building - invaluable for those that need to live on the premises. What makes this book unique is the</p>

Conflicting signals! Public sector cutbacks, soaring input costs, and a mixed picture all round. You need SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2013 to get the detail right. SPON'S A&B PRICE BOOK, compiled by Davis Langdon, provides the most accurate, detailed and professionally relevant construction price information currently available for

the UK. Its unique Tender Index, updated through the year, provides an ongoing reality check and adjustment for changing market conditions. This is the only price book which sets out a detailed cost base for contracts exceeding £3,500,000 in value. Use the access code inside the back cover of the book to get set up with internet access to this 2013 edition until the end

of December 2013. We now provide Spon's Online, a versatile and powerful online data viewing package, which replaces the estimating software and ebook of recent years and which is no longer supplied with the hard copy book. Major changes have been made to this 138th edition: As well as an overhaul of prices, SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2013 includes:

A new cost model for an office fit out. New measured works have been introduced: Concrete canvas, Dreadnought Handformed roof tiles, UPVC external doors, Thermalite paint grade concrete blocks, EPS/PIR hybrid roof insulation, Omnidec composite flooring systems, sheep wool insulation, Kingspan TEK cladding panels, 750 & 900 dia CFA

piling, Lignacite architectural blocks. More has been given for cork flooring and much else has been changed throughout. ...along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups Hundreds of alternative materials

prices for the more unusual items Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses Updated, free of charge, two or three times a year - see inside for registration details. incorporates a comprehensive review throughout: Updated to come into line with the CESSM4 structure as well as MMHW And with an expanded range of rail elements *Those Dry-Stone Walls* CRC Press It is difficult to think of a more quintessential symbol of the British countryside than the British Hedgerow, bursting with blackberries, hazelnuts and sloes, and home to oak

and ash, field mice and butterflies. But as much as we might dream about foraging for mushrooms or collecting wayside nettles for soup, most of us are unaware of quite how profoundly hedgerows have shaped the history of our landscape and our fellow species. One of Britain's best known naturalists, John Wright introduces us to the natural and cultural history of hedges (as well as

ditches, dykes and dry stone walls) - from the arrival of the first settlers in the British Isles to the modern day, when we have finally begun to recognise the importance of these unique ecosystems. His intimate knowledge of the countryside and its inhabitants brings this guide to life, whether discussing the skills and craft of hedge maintenance or the rich variety of animals, plants, algae

and fungi who call them home. Informative, practical, entertaining and richly illustrated in colour throughout, *A Natural History of the Hedgerow* is a book to stuff into your pocket for country walks in every season, or to savour in winter before a roaring fire. *Dry Stone Walling* CRC Press
