When the chance to  
run arrives, Beldon  
doesn't think twice  
about escaping into the

shadows of an  
enchanted castle  
locked in an eternal  
winter. He just wants  
to bury a secret. But  
the castle is a cold,  
cruel place and his  
host is less than  
welcoming. The sparks  
that fly between them  
are icy and aggressive;  
the tension building

until one night it almost costs Beldon his life. Then things change. Beldon's attention turns to the shadowy Beast and the mystery that surrounds him. There is a curse to be broken after all and Beldon promised to help find a mysterious figure known as Beauty. However, Beldon did not expect his secret to resurface within this frozen castle and as such he is forced to confront himself and answer one question. As he and The Beast grow closer, does he want this Beauty found?~~~~ The original draft for the community who wanted a physical copy~

 It is not a peaceful time in the Algardis Empire. War is raging between the mages and seventeen-year-old Sara Fairchild will be right in the middle of it. She just doesn't know it yet. Sara is the daughter of a disgraced imperial commander, executed for desertion. Sara is also the best duelist and hand-to-hand combatant in Sandrin. She lives quietly with her family's shame but when challenged about her family's honor, her opponent inevitably loses. On the night she finds out her father's true last actions, she takes the Mercenary Guilds' vows to serve in the emperor's army. Using her quick wits and fierce fighting skills, she earns a spot

in the first division. There she discovers secrets the mages on both sides would prefer stay hidden. Dark enemies hunt her and soon it's not just Sara questioning the motivation behind this war. While fighting mages, blackmailing merchants and discovering new friends, Sara comes across something she's never had before - passion. The question is - can she fight for her empress against a mage who might unwittingly claim her heart? This is year one of the Initiate Wars. Sara is hoping it doesn't become the year she dies.

This book is about the 'how' of desertification control as opposed to an analysis of the 'why' and fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands. There are numerous illustrations to show the successful techniques. This compilation demonstrates that desertification and land degradation can be controlled and reversed with existing techniques in such widely varying environments as the Sahel of Africa to Sri Lanka and the Philippines in SE Asia, from mountains in

Lesotho to low lands on desert margins in Mongolia. Proven approaches include technical interventions, changes in governance and to the legislative framework and policy reform. The book fills a gap in the desertification-related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands.

 Both academia and the real world are showing a vastly increased interest in international logistics. Although this book covers the entire topic, it may not contain sufficient detail to answer all questions. The topic—and the challenge is much larger than any single book can cover! A number of people helped us, and their assistance should be recognized. They

include Robert L. Argentieri, Eunice Coleman, Patricia J. Daugherty, Robert Derbin, Robert Hannus, Ken Knox, Douglas Long, Eugene L. Magad, Dale S. Rogers, Robert Rouse, John Silvey, and Clyde Kenneth Walter. This book is designed for both the business world and the classroom. A separate Instructor's Manual has been prepared and may be requested on school letterhead from Chapman & Hall.

**International Logistics**

**1 Introduction** This book is about international logistics and the international logistics system. International means that it will deal with transactions involving individuals or firms in more than one nation. Logistics means the

organized movement of goods, services, and, sometimes, people. Logistics was originally a military term. For example, in author Tom Clancy's novel, *Red Storm Rising*, Russian General Alekseyev thought to himself about a battlefield situation: "The tactics ... no, amateurs discuss tactics. Professional soldiers study logistics."

„1 When one speaks of the international logistics system, he means that huge array of carriers, forwarders, bankers, traders, and so on that facilitate international transactions, trades, and movements of goods and services. Communications are important, and a logistics system includes whatever communication

capability it needs.

Growing Cooler Wiley At the beginning of the 1990s, Korean firms embarked on an impressive wave of direct investment abroad. This dramatic multinationalization was considered as yet another sign of Korea's remarkable economic performance, especially as a high proportion of the foreign ventures were located in advanced countries. But this unbalanced quest for globalization actually tested the 'Korean model' to its limits; after the 1997 crisis a new policy prepared the way for a surge of inward investment. Using empirical tests and case-studies, this collection shows that

Korean groups have invested in developed countries to jump over trade barriers, but also to source advanced technology and marketing capabilities. Moreover, their ambitious strategies have been stimulated by oligopolistic rivalry among the chaebols. From a policy perspective, the book provides an original discussion of national ownership by questioning the substitutability between inward and outward foreign investment and its relationship with the evolution of the national innovation system. By shedding light on the pattern of Korea's internationalization, these essays make a valuable contribution to the theory of

international production and provide important insights for the current policy debates on globalization and innovation-led growth.

Since the 1970s, Cairo has experienced tremendous growth and change. Nearly three million people now live in new urban communities characterized by unregulated housing, informal economic activity, and the presence of Islamist groups. Salwa Ismail examines the effects of these changes in Political Life in Cairo's New Quarters. Working in Cairo, Ismail interviewed new quarter residents, observed daily life in markets and alleyways, met with local leaders, and talked with young men about their encounters with the government. Rich in ethnographic detail, this work reveals the city's new urban

quarters as sites not only of opposition and relative autonomy, but also under governmental surveillance and discipline. In doing so, it situates the everyday within the context of wider developments in Cairo: the decline of welfarism, the shift to neoliberal government, and the rise of the security state. Original and timely, *Political Life in Cairo's New Quarters* highlights the interplay of structural changes, state power, and daily governance, and presents a fascinating analysis of urban transformation and power struggles—as international forces meet local communities in a major city of the global south. Salwa Ismail is a senior

lecturer in politics at the University of Exeter.

"This timely book charts the rise and rise of the outsourcing phenomenon in business and the public sector. The authors examine both the "why" and the "how" and describe the experience of numerous organizations which have taken the outsourcing route. They examine the advantages, the possibilities and the

pitfalls. Which activities lend themselves to contracting out? Which never should be? What are the criteria for deciding? How do you select suitable subcontractors - and control them? These and many other questions are addressed with the aid of real-life case studies. The tone is practical throughout, and the book contains detailed guidance on legal and personnel aspects of the subject, including a model contract and a methodology for evaluating an outsourcing proposal."-
