### Writers Celebrate Books and Reading McGraw-Hill

"This book offers a fundamental overview of how financial management works in healthcare organizations. Designed for healthcare management students, clinical students, and managers new to healthcare, the book reinforces basic concepts through mini-case studies, practice problems, and self-quizzes. A comprehensive case at the end of the book draws on information presented throughout the chapters to help readers apply their newfound financial skills to real-world healthcare scenarios"--

### *The Untold Story of Adversity and Resilience* Wiley

A timely one-stop pioneering book presenting all four major power management integrated circuits Existing analog IC books usually focus on amplifier and comparator designs, with some extend to switched capacitor filter designs and analog-to-digital and digital-to-analog converters design. There is no book yet on power management integrated circuits. Ki's book fills the void. This self-contained book discusses all fundamental concepts in switching converters, low dropout regulators, charge pumps and voltage references systematically, and in the context of analog integrated circuit design. Furthermore, concepts are discussed in both qualitative and quantitative aspects. Qualitative understanding is important in getting the essential operation of a circuit, but quantitative analysis supplies the solid foundation on which qualitative discussion is based. First book covering all four

major power management circuits All concepts discussed in both qualitative and quantitative aspects Written as a self-contained text - well-organized and systematic Authored by a pioneering scientist in the field Supplementary instructional materials available for lecturers MATLAB simulation code for readers to download and practice on their own

### *Principles of Sustainable Energy* The Economist

If you could choose a world without loneliness, without shame, grief, misery, or feeling of any kind, would you, if it also meant that you lost the simple pleasure of a picnic on a sunny day or the joy of falling in love? Would the allure of a comfortable numbness prove too tempting to resist? Could you choose between feeling pain and not feeling anything, ever again? A girl is caught in a world where this choice is fiercely contested. In the cross-fire between the Red and White empires, the feeling and the unfeeling, each bent on the other's destruction, the girl must choose between emotion and oblivion, joining the ranks with the Reds as they fight to resist the Whites, but all the while struggling with her own desperate ambivalence. All That Is Red is a story of survival and a journey through the human condition, revealing how the intimate euphoria of pain can sometimes be all we have to remind us that we are alive. Anna Caltabiano is fifteen years old. She was born in British colonial Hong Kong to a Japanese mother and an Italian-American father, before moving to Palo Alto, California; the mecca of futurism. Her writing explores and exposes an adolescent dystopia in which accepted traditions, religions, cultures and communities have been eroded, resulting in a lost generation consumed by social apathy and self-loathing

which has found solace through electronic connections. Unsettling, engaging and surprisingly erudite, *All That Is Red* is a remarkably assured debut from an ascending literary star.

*Payroll Accounting 2015* Crossway

... examines the practical issues surrounding energy efficiency, and renewable energy concepts and systems. And a more appropriate author for such a work could not be found ... combines the expertise earned from decades of practical and scholarly research with the most up-to-date analysis of the energy scene.—From the Foreword by Dan E. Arvizu, President, Alliance for Sustainable Energy, and Manager and Operator of the National Renewable Energy Laboratory.

**Expository Apologetics** Pearson Education India

Apologetics is for everyone. The Bible is clear that all believers are called to defend their faith. However, if apologetics is the formal process that we have come to expect, this sounds like an impossible task. But what if apologetics could be part of natural, normal conversation—both from the pulpit and in everyday life? Aimed at preparing you to clearly and confidently defend your faith, *Expository Apologetics* sets forth an approach to apologetics that is rooted in Scripture and eminently accessible. Filled with real-world examples and practical advice, this book will equip you with the tools you need to think biblically and converse persuasively—offering unbelievers “a reason for the hope that is in you.”

Clinical psychologist and author of *The Defining Decade*, Meg Jay takes us into the world of the supernormal: those who soar to unexpected heights after childhood adversity. Whether it is the loss of a parent to death or divorce; bullying; alcoholism or drug abuse in the home; mental illness in a parent or a sibling; neglect; emotional, physical or sexual abuse; having a parent in jail; or growing up alongside domestic violence, nearly 75% of us experience adversity by the age of 20. But these experiences are often kept secret, as are our courageous battles to overcome them. Drawing on nearly two decades of work with clients and students, Jay tells the tale of ordinary people made extraordinary by these all-too-common experiences, everyday superheroes who have made a life out of dodging bullets and leaping over obstacles, even as they hide in plain sight as doctors, artists, entrepreneurs, lawyers, parents, activists, teachers, students and readers. She gives a voice to the supernormals among us as they reveal not only "How do they do it?" but also "How does it feel?" These powerful stories, and those of public figures from Andre Agassi to Jay Z, will show supernormals they are not alone but are, in fact, in good company. Marvelously researched and compassionately written, this exceptional book narrates the continuing saga that is resilience as it challenges us to consider whether -- and how -- the good wins out in the end.

People come into our lives. Some stay, and many go. Some build us up, while most tear us down. They become our friends, our enemies, our lovers, our tormentors. Christian Davison came into mine, and I knew I'd never be the same. To Elizabeth Ayers, New

York City had always been a dream. She's worked her entire young life to make it here. Groomed to one day take over his father's law firm, attending Columbia University was Christian Davison's only option. Neither wanted anything more until they sat across from each other at a caf table after being paired as study partners. Christian wants her, but Elizabeth knows better than to give into their intense attraction. Yet there is little she can do to stay away . . .

As seen in the hit documentary *Three Identical Strangers* • “[A] poignant memoir of twin sisters who were split up as infants, became part of a secret scientific study, then found each other as adults.”—Reader’s Digest (Editors’ Choice) WINNER OF A BOOKS FOR A BETTER LIFE AWARD Elyse Schein had always known she was adopted, but it wasn’t until her mid-thirties while living in Paris that she searched for her biological mother. What she found instead was shocking: She had an identical twin sister. What’s more, after being separated as infants, she and her sister had been, for a time, part of a secret study on separated twins. Paula Bernstein, a married writer and mother living in New York, also knew she was adopted, but had no inclination to find her birth mother. When she answered a call from her adoption agency one spring afternoon, Paula’s life suddenly divided into two starkly different periods: the time before and the time after she learned the truth. As they reunite, taking their tentative first steps from strangers to sisters, Paula and Elyse are left with haunting questions surrounding their origins and their separation. And when they investigate their birth mother’s past, the sisters move closer toward solving the puzzle of their lives. Praise for *Identical Strangers* “Remarkable . . . powerful . . . [an] extraordinary experience . . . The reader is left to marvel at the reworking of individual identities required by one discovery and then another.”—Boston Sunday Globe “Absorbing.”—Wired “[A] fascinating memoir . . . Weaving studies about twin science into their personal reflections . . . Schein and Bernstein provide an intelligent exploration of how identity intersects with bloodlines. A must-read for anyone interested in what it means to be a family.”—Bust “*Identical Strangers* has all the heart-stopping drama you’d expect. But it has so much more—the authors’ emotional honesty and clear-eyed insights turn this unique story into a universal one. As you accompany the twins on their search for the truth of their birth, you witness another kind of birth—the germination and flowering of sisterly love.”—Deborah Tannen, #1 New York Times bestselling author of *You Just Don’t Understand* “A transfixing memoir.”—Publishers Weekly

*Lost to You* Berghahn Books

A new play from an award-winning playwright, published as part of the innovative Abbey Theatre playscript series On the day of her father's funeral, Eva - a young woman - is still haunted by the betrayal she witnessed from her childhood haven - the treehouse in the garden. On the same day another woman, Magda, relives the ghosts of another hiding place and a different betrayal - ghosts from which she still seeks forgiveness. Interweaving lives and secrets *Treehouses* is a magical tale of refuge, treachery and of love lost and found.

*Ancient Greek Beliefs* Random House

*Ancient Greek Beliefs* explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides, Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

Poetry. Latino/Latina Studies. LGBT Studies. "Like Whitman, Quesada is a poet of motion—journeying to the center of the US, where the traditions and innovations of first-generation Americans traverse the meditative starbursts of hills; ford rivers; cross prairies; and seek out 'the alpenglow of tomorrow and tomorrow.' From Costa Rica to Los Angeles and across the continent, Quesada's poems chronicle one family's history: from the courtship of his parents to their separation, from his childhood struggles to awakening desire from his mother's lottery winnings to his own personal losses, Ruben Quesada carries us toward 'that seam in space' where dream and experience intersect. This isn't the story of what it means to come to this country. It's the story of what it means to belong here"—D. A. Powell.

"You damn bitch of an anarchist, I wish I could get at you. I would tear your heart out and feed it to my dog." This was one of the less obscene messages received by Emma Goldman (1869-1940), while in jail on suspicion of complicity in the assassination of McKinley. The most notorious woman of her day, she was bitterly hated by millions and equally revered by millions. The strong feelings she aroused are understandable. She was an alien, a practicing anarchist, a labor agitator, a pacifist in World War 1, an advocate of political violence, a feminist, a proponent of free love and birth control, a communist, a street-fighter for justice - all of which she did with strong intellect and boundless passion. Today, of course, many of the issues that she fought over are just as vital as they were then. Her autobiography, written with vigor, ranks among the finest in the English language.
