Publications  
Hurt:  
Chronicles of  
the Drug War  
Generation  
weaves  
engaging first-  
person  
accounts of

the lives of baby boomer drug users, including the author Miriam Boeri's own knowledge as the sister of a heroin addict. The compelling stories are set in historical context, from the cultural influence of sex, drugs, and rock n' roll to contemporary discourse that pegs drug addiction as a disease punished by incarceration. Boeri writes with penetrating insight and conscientious attention to

the intersectionality of race, gender, and class as she analyzes the impact of an increasingly punitive War on Drugs on a hurting generation. **Under the Dragon** HookedFive Addicts Challenge Our Misguided Drug Rehab System America Anonymous is the unforgettable story of eight men and women from around the country -- including a grandmother, a college

student, a bodybuilder, and a housewife -- struggling with addictions. For nearly three years, acclaimed journalist Benoit Denizet-Lewis immersed himself in their lives as they battled drug and alcohol abuse, overeating, and compulsive gambling and sexuality. Alternating with their stories is Denizet-Lewis's candid account of his own recovery from sexual

addiction and his compelling examination of our culture of addiction, where we obsessively search for new and innovative ways to escape the reality of the present moment and make ourselves feel "better." Addiction is arguably this country's biggest public-health crisis, triggering and exacerbating many of our most pressing social problems (crime, poverty, skyrocketing health-care

costs, and childhood abuse and neglect). But while cancer and AIDS survivors have taken to the streets -- and to the halls of Congress -- demanding to be counted, millions of addicts with successful long-term recovery talk only to each other in the confines of anonymous Twelve Step meetings. (A notable exception is the addicted celebrity, who often enters and exits rehab with great fanfare.)

Through the riveting stories of Americans in various stages of recovery and relapse, Denizet-Lewis shines a spotlight on our most misunderstood health problem (is addiction a brain disease? A spiritual malady? A moral failing?) and breaks through the shame and denial that still shape our cultural understanding of it -- and hamper our ability to treat it. Are Americans more addicted

than people in other countries, or does it just seem that way? Can food or sex be as addictive as alcohol and drugs? And will we ever be able to treat addiction with a pill? These are just a few of the questions Denizet-Lewis explores during his remarkable journey inside the lives of men and women struggling to become, or stay, sober. As the addicts in this book stumble, fall, and try again

to make a different and better life, Denizet-Lewis records their struggles -- and his own -- with honesty and empathy. Over the Influence, Second Edition Cengage Learning Homelessness is one of the most compelling social problems in the United States. Dating from the early years in Colonial America to the current problems relating to homeless women and

children, homelessness has been the topic of discussion of scholars, social activists, and policy makers. Many types of social problems are linked to homelessness, including poverty, substance abuse, foster care, and crime. As a result, unpacking the issues has proven to be a challenge for anyone interested in this topic. Homelessness in America offers an assessment of

what is known about each segment of the homeless population, which contrary to conventional belief, is comprised of a wide variety of faces from many backgrounds. It explains linkages to other social issues and provides a balanced overview of homelessness in light of the varying perspectives on the topic. While much of what has been written about homelessness has come from the

academic perspective, agendas often interfere with an accurate understanding of the problem.

Clearly, there is a place for other types of perspectives, including those that view homelessness through political and legal lenses.

These groups have provided us with a robust body of information within which we may better understand the questions relating to homelessness. McNamara has brought

together the voices of these groups in order to reveal the numerous political, economic, and social constraints that beset current attempts to solve homelessness. In addition, the commonly held belief that homelessness is a result of laziness or a poor work ethic is turned on its head to reveal that homelessness is truly a multifaceted and complex issue.

**A New View**

**Using the General Semantics Approach**  
Guilford Publications  
This comprehensive interdisciplinary synthesis focuses on the clinical and occupational intervention processes enabling workers to return to their jobs and sustain employment after injury or serious illness as well as ideas for improving the wide range of outcomes of entry and re-entry into the workplace.

Information is accessible along key theoretical, research, and interventive lines, emphasizing a palette of evidence-informed approaches to return to work and stay at work planning and implementation, in the context of disability prevention. Condition-specific chapters detail best return to work and stay at work practices across diverse medical and psychological diagnoses,

from musculoskeletal disorders to cancer, from TBI to PTSD. The resulting collection bridges the gap between research evidence and practice and gives readers necessary information from a range of critical perspectives. Among the featured topics: Understanding motivation to return to work: economy of gains and losses. Overcoming barriers to return to work:

<p>behavioral and cultural change. Program evaluation in return to work: an integrative framework. Working with stakeholders in return to work processes. Return to work after major limb loss. Improving work outcomes among cancer survivors. Return to work among women with fibromyalgia and chronic fatigue syndrome. The Handbook of Return to Work is an</p>	<p>invaluable, unique and comprehensive resource for health, rehabilitation, clinical, counselling and industrial psychologists, rehabilitation specialists, occupational and physical therapists, family and primary care physicians, psychiatrists and physical medicine and rehabilitation as well as occupational medicine specialists, case and disability managers and human resource professionals.</p>	<p>Academics and researchers across these fields will also find expert guidance and direction in these pages. It is an essential reading for all return to work and stay at work stakeholders. <i>Dirty IOS Press</i> One day a teenage boy gets on his bike and rides forty miles up California's Pacific Coast Highway to avoid causing an earthquake he fears will endanger his mother and sister. But the quake he is</p>
---	--	---

experiencing is not coming from beneath the earth; it's the onset of bipolar illness. Blinded by Hope describes what it's like to have an unusually bright, creative child—and then to have that child suddenly be hit with an illness that defies description and cure. Over the years, McGuire attributes her son's lost jobs, broken relationships, legal troubles, and periodic

hospitalizations to the manic phase of his illness, denying the severity of his growing drug use—but ultimately, she has to face her own addiction to rescuing him, and to forge a path for herself toward acceptance, resilience, and love. A wakeup call about the epidemic of mental illness, substance abuse, and mass incarceration in our society, Blinded by Hope shines a light on the shadow of

family dynamics that shame, ignorance, and stigma rarely let the public see, and asks the question: How does a mother cope when love is not enough? *The Drug Problem* Annick Press In this interdisciplinary work, Kent Dunnington brings the neglected resources of philosophical and theological analysis to bear on the problem of addiction. Drawing on the insights of

Aristotle and Thomas Aquinas, he formulates a compelling alternative to the two dominant models of addiction-- addiction as disease and addiction as choice.

The Harm Reduction Guide for Managing Drugs and Alcohol Univ of California Press

Twelve-step programs that insist on abstinence are beneficial to many--but what about the millions of Americans who try to quit

and fail, just want to cut down, or wish to work toward sobriety gradually?

This groundbreaking book presents the Harm Reduction approach, a powerful alternative to traditional treatment that helps users set and meet their own goals for gaining control over drinking and drugs. The expert, empathic authors guide readers to figure out which aspects

of their own habits may be harmful, what they would like to change, and how to put their intentions into action while also dealing with problems that stand in the way, such as depression, stress, and relationship conflicts.

Based on solid science and 40+ years of combined clinical experience, the book is packed with self-discovery tools, fact sheets, and personal accounts. It puts the reader in the

driver's seat  
with a new  
and  
empowering  
roadmap for  
change.

**From  
Research to  
Practice**  
Springer  
After three  
decades of  
living in the  
sandy beach  
suburbs of  
Huntington  
Beach, Jon  
Vreeland's  
heroin  
addiction has  
finally  
destroyed his  
once  
promising  
music career,  
and estranged

himself from  
his wife and  
his two  
daughters.  
Now Vreeland  
broods his  
daughter's  
absence while  
living in his  
old tour van  
that is broken  
down and  
parked on  
Atlanta  
Avenue, on  
the brink of  
downtown  
Huntington  
Beach. He and  
his brand new  
lover and  
longtime  
junkie, Zoey  
Leigh, live in  
the van and  
sell and shoot  
heroin, move  
from place to  
place, shift  
from crime to  
crime, rob the  
undeserving in

their brazen  
attempt to  
escape their  
hypodermic  
reality and  
themselves.  
But no matter  
where they go  
or who they  
stay with, they  
always circle  
back to the  
shores of  
Huntington  
Beach, where  
the dark  
nights are  
their lonely  
playground.  
But Jon isn't  
meant for this  
life--he wants  
nothing more  
than to rid  
himself of this  
very real  
nightmare,  
and return to  
his estranged  
family and  
career. This is  
the story of

how he began to get out.

**Five Addicts Challenge Our Misguided Drug Rehab System**

Guilford Press

This collection of ten true stories is based on interviews with people who, in their youth, lived with an addicted parent or sibling. The subjects speak honestly about what it was like to grow up with a family member addicted to alcohol, drugs, food, pills, or gambling.

While describing how they managed to cope, interviewees explore the full range of situations and emotions they experienced—from denial, anger, and confusion to acceptance and forgiveness. Their maturity, sensitivity, and even their sense of humor will give teens going through similar situations the important realization that there are many ways to break free

from the chains of others' addictions.

**When Addiction Hits Home**

Routledge

The United Nations has called violence against women "the most pervasive, yet least recognized human rights abuse in the world" and there is a long-established history of the systematic victimization of women by the state during times of peace and conflict. This

book contributes to the established literature on women, gender and crime and the growing research on state crime and extends the discussion of violence against women to include the role and extent of crime and violence perpetrated by the state. *State Crime, Women and Gender* examines state-perpetrated violence against women in all

its various forms. Drawing on case studies from around the world, patterns of state-perpetrated violence are examined as it relates to women's victimization, their role as perpetrators, resisters of state violence, as well as their engagement as professionals in the international criminal justice system. From the direct involvement of Condaleeza Rice in the

United States-led war on terror, to the women of Egypt's Arab Spring Uprising, to Afghani poetry as a means to resist state-sanctioned patriarchal control, case examples are used to highlight the pervasive and enduring problem of state-perpetrated violence against women. The exploration of topics that have not previously been addressed in the criminological

literature, such as women as perpetrators of state violence and their role as willing consumers who reinforce and replicate the existing state-sanctioned patriarchal status quo, makes *State Crime, Women and Gender* a must-read for students and scholars engaged in the study of state crime, victimology and feminist criminology. [Under the Influence](#) Springer Science &

Business Media Essays discuss varying opinions surrounding drug abuse, including the factors leading to drug abuse, treatment programs, and the legalization of drugs. *A Search for Answers Inside America's Teenage Drug Epidemic* ABC-CLIO This encyclopedia presents the many sides of America's ongoing relationship with alcohol, examining the

political history, pivotal events, popular culture, and advances in technology that have affected its consumption. • More than 100 A-Z entries describe the culture and history of alcohol, including the drinks themselves, concepts, business aspects, entertainment, regulations, social aspects, organizations, events, rituals, use in religions, and effects on health •

Compiles all-original information from 32 distinguished international and American scholars and journalists • Offers a number of historical and contemporary photographs • Extensive bibliography provides additional suggested reading  
*Irresistible*  
Prentice Hall  
This myth-busting anthology cuts through the propaganda to tell the true story of drug use, abuse, and the costly war on

friends, families and communities. Author and regular High Times contributor Preston Peet assembles an all-star cast of writers to shine a harsh light on the misinformation peddled by prohibitionists who profit from the War on Some Drugs and Users. Despite the anti-drug hysteria, drugs have been an integral aspect of human life for thousands of years. They cure diseases, ease pain,

enhance intelligence, calm nerves, open the doors of perception and alter consciousness . Yet, even with the easing of marijuana restrictions, the War on Some Drugs and Users continues to persecute huge swaths of the population. The reasons why can be found in *Under the Influence*. The decades and trillions of dollars spent waging war on neighbors, friends and families have

done nothing to eradicate drug use and abuse, but they have succeeded in overthrowing governments, tearing apart families and communities, and ensured the rise of international criminal cartels. Under the Influence explains how we came to this state of affairs and how we can bring about real reform. Contributors include Tom Robbins, Paul Krassner, Rick Doblin, Mike Gray, Lonny Shavelson, Daniel Forbes,

Steve Wishnia, Cynthia Cotts, Russ Kick, Dr. Stanislav Grof, Daniel Pinchbeck, Paul Armentano, Jacob Sullum, Peter Dale Scott and Robert Anton Wilson.

**A Guide for Professionals**  
 Wadsworth Publishing Company  
 A study of the modern drug rehabilitation system follows the struggles of five addicts as they make their way through the complex maze of drug treatment and calls for an integrated

approach that treats the root causes of drug abuse.

**Methodology**  
**Psychosocial Treatment**  
**Selected Treatment Topics**  
**Research Priorities**

Simon and Schuster  
 "What we wish to offer you, then, is an updated professional resource that combines both clinical and scientific perspectives. We hope this book will be helpful to professionals who are already treating addictive

disorders and also to those who are just learning how to treat addictions. We also encourage health professionals more generally to think of addictions as falling within their own normal scope of work, and we have kept this in mind in our writing. In addiction treatment, it makes a difference what you do and how you do it, and it is far easier to develop evidence-based practice

from the outset than to change already established habits."--Page x.

**The Disinformation Guide to Drugs**

Penguin  
"This is the remarkable story of America's personal and institutional responses to alcoholism and other addictions. It is the story of mutual aid societies: the Washingtonians, the Blue Ribbon Reform Clubs, the Ollapod Club, the United Order

of Ex-Boozers, the Jacoby Club, Alcoholics Anonymous and Women for Sobriety. It is a story of addiction treatment institutions from the inebriate asylums and Keeley Institutes to Hazelden and Parkside. It is the story of evolving treatment interventions that range from water cures and mandatory sterilization to aversion therapies and methadone maintenance. William White

has provided a sweeping and engaging history of one of America's most enduring problems and the profession that was birthed to respond to it" -- BACK COVER. *Changing Substance Abuse Through Health and Social Systems* Red Wheel Weiser Database Aesthetics examines the database as cultural and aesthetic form, explaining how artists have participated in

network culture by creating data art. The essays in this collection look at how an aesthetic emerges when artists use the vast amounts of available information as their medium. Here, the ways information is ordered and organized become artistic choices, and artists have an essential role in influencing and critiquing the digitization of daily life. Contributors: Sharon Daniel,

An</p>	<p><i>Introduction to Behavior and Health</i> InterVarsity Press The old notion of the melting pot and phrases like ethnic diversity can no longer describe the freedom with which more and more Americans are modifying and assimilating cultural elements across ethnic lines. Compelling photography narrated by fascinating stories about individuals at the crossroads of ethnicity <u>A Memoir of a</u></p>	<p><u>Heroin Addict</u> Book Venture Publishing LLC Drawing from the author's vast experience as teacher, researcher, and practitioner, Lawrence Shulman's DYNAMICS AND SKILLS OF GROUP COUNSELING equips students in the helping professions with a solid introduction to methods for effective group counseling. Guided by theory, empirical research, years of</p>
--	---	---

teaching experience, his own group practice, and the wisdom of colleagues, Shulman's text brings concepts to life with vivid cases that include Record of Service reports and dialogue from actual groups. These illustrative examples connect theory to current practice and address the day-to-day realities of leading counseling groups.

Extremely practical, the book presents students with a clear format on how to run a group built around four phases of work: the preliminary (preparatory) phase; the beginning (contracting) phase; the middle (work) phase; and the ending and transition phase. Recognizing the broad applications of these methods, the latter part of the text shows how these lessons can be

applied to a wide range of settings. Reflecting the latest research and practices, **DYNAMICS AND SKILLS OF GROUP COUNSELING** delivers an insightful, authoritative, and comprehensive introduction to the field. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
