Appletons' Annual Cyclopædia and Register of Important Events of the Year ... Bloomsbury Publishing USA

Macleard Banda is a third born son of Mr Simeon Banda of Chimdidi Village Traditional Authority Wimbe, in Kasungu. He attended his Primary school at Kasakula Primary school in Ntchisi. In 1978 he went to Lunjika Secondary School and concluded his secondary school education at Robert Laws. In 1988 went to Karonga TTC for Primary Teacher Training. He taught at Malamulo Primary school from 1990 to 2000. In August 2000, went to Solusi University for BEd majoring in Religion. In July 2002 he was posted to Matandani Secondary School to teach Bible Knowledge. In 2006 he received his MA from the University of Malawi and in 2014 his PhD from Mzuzu University. He is the Director of Research and Publication at Malawi Adventist University. The missionary work of the Seventh-day Adventist Church started in Southern Malawi in 1902, and histories of churches are usually told from that starting point. This book uses a different approach, it tells the story of Lunjika Mission (earlier called Mombera Mission) which begins in 1932, showing how the SDA Church met a new culture, that of the strongly patrilineal Ngoni and their neighbours to the North, and how it dealt with other churches that had started missionary work in that broad area up to two generations before.

Daniel Heimbach examines the biblical teachings on sexual morality as well as four counterfeit views that have crept into our "sexually revolutionized" society. He gives us an in-depth look at the moral relativism that has spread through our culture and opens our eyes to the effects that nonbiblical sexual choices have on individuals, the family, the church, and the culture.

After the 1917 Revolution in Russia, the Bosheviks launched a massive assault on religion. Although we know a great deal about how the Bolsheviks went about doing this&—propaganda, persecution of clergy and laity, seizing church property&—scholars have not devoted much attention to the other side of the story: the people who were being persecuted and how they responded to their persecutors. Glennys Young shows how ordinary Russian peasants devised ways of asserting their religious faith during the difficult period of New Economic Policy, 1921&–28, when the Party-state was ideologically

obsessed with eradicating religion. Faced with persecution, torture, and the creation of antireligious organizations such as the League of the Godless, Orthodox clergy and laity organized themselves against the Bolsheviks. They revived factional politics, even using the village soviets, the intended cornerstone of Soviet power in the countryside, to defend their religious interests. When they achieved some degree of success in their resistance, the Bosheviks were forced to respond and adapt their strategies&—a conclusion that scholars have not put forward previously. Based on extensive research in archives and published sources, Young's book will force historians of Soviet Russia to confront religious issues as central to rural politics. Her work also draws upon cultural anthropology and theories of peasant politics, making it of great interest to any scholars studying the processes of secularization and desacralization in other cultures.

Mixing religion and public diplomacy can produce volatile results, but in a world in which the dissemination and influence of religious beliefs are enhanced by new communications technologies, religion is a factor in many foreign policy issues and must be addressed. Faith is such a powerful part of so many people's lives that it should be incorporated in public diplomacy efforts if they are to have meaningful resonance among the publics they are trying to reach. This book addresses key issues of faith in an increasingly connected and religious world and provides a better understanding of the role religion plays in public

diplomacy.

Today we find ourselves at a crossroads of two powerful, unrelenting currents that are completely at odds with one another. The movement for legal recognition of same-sex unions has gone beyond the separate but equal status of civil unions to demand equality in marriage for all couples. Progress is being made on many fronts: mayoral action, clergy officiating at same-sex marriage and union ceremonies, state legislative responses, and street protests, to name a few. Meanwhile, opposition to

same-sex marriage has also been gathering strength. The struggle is sure to continue unabated for some time to come, pitting those who believe in the traditional definition of marriage as a union between a man and a woman—and who seek to codify this belief in the U.S. Constitution—against those who find the basis for marriage between two loving, committed individuals not only in the history of our civil rights legislation and court decisions, but also in scripture and sacred religious traditions. Those who believe in extending to same-sex couples the 1,049 rights conferred by marriage as well as the supportive embrace of religious communities seek to strengthen the institution of marriage by making it inclusive and by passing laws and broadening doctrines to uphold marriage rights for all couples. This three-volume set clarifies the legal, political, religious, cultural, and social ramifications of same-sex marriage for gay and lesbian couples and their families and friends, and for the general public interested in the future of civil rights in the United States.
