Biology for the IB Diploma Study and Revision Guide OUP

Oxford

Provide clear guidance to the 2014 changes and ensure in-depth study with accessible content, directly mapped to the new syllabus and approach to learning. This second edition of the highly regarded textbook contains all SL and HL content, which is clearly identified throughout. Options are available free online, along with appendices and data and statistics. - Improve exam performance, with exam-style questions, including from past papers - Integrate Theory of Knowledge into your lessons and provide opportunities for cross-curriculum study - Stretch more able students with extension activities - The shift to concept-based approach to learning , Nature of Science, is covered by providing a framework for the course with points for discussion - Key skills and experiments included

Decoding Theory of Knowledge for the IB Diploma

Cambridge University Press

This course book follows an approach that supports the new 2007 syllabus (to be first examined in 2009) while including the wider aims of the IB through connections to TOK, international-mindedness and the IB learner profile. It has been written by a former chief examiner for IB Diploma Programme Biology and has been extensively reviewed by teachers, consultants and the IB. With features and activities that encourage active learning and critical thinking, students will find this book stimulating and engaging.

Essentials Biology Prentice Hall

Biology for the IB Diploma Coursebook with Free Online Material Cambridge University Press

Oxford IB Diploma Programme: IB Prepared: Biology Cambridge University Press

Completely revised new editions of the market-leading Biology textbooks for HL and SL, written for the new 2014 Science IB Diploma curriculum. Now with an accompanying four-year student access to an enhanced eText, containing simulations, animations, worked solutions, videos and much more. The enhanced eText is also available to buy separately and works on desktops and tablets. Follows the organizational structure of the new Biology guide, with a focus on the Essential Ideas, Understanding, Applications & Skills for complete syllabus-matching. Written by the highly experienced IB author team of Alan Damon, Randy McGonegal, Patricia Tosto and William Ward, you can be confident that you and your students have all the resources you will need for the new Biology curriculum. Features:

Nature of Science and ToK boxes throughout the text ensure an embedding of these core considerations and promote concept-based learning. Applications of the subject through everyday examples are described in utilization boxes, as well as brief descriptions of related industries, to help highlight the relevance and context of what is being learned. Differentiation is offered in the Challenge Yourself exercises and activities, along with guidance and support for laboratory work on the page and online. Exam-style assessment opportunities are provided from real past papers, along with hints for success in the exams, and guidance on how to avoid common pitfalls. Clear links are made to the Learner profile and the IB core values. Table of Contents: Cell Biology Molecular Biology Genetics Ecology Evolution and Biodiversity Human Physiology Nucleic Acids Metabolism, Cell Respiration and Photosynthesis Plant Biology Genetics and Evolution Animal Physiology Option A: Neurobiology and Behaviour Option B: Biotechnology and Bioinformatics Option C: Ecology and Conservation Option D: Human Physiology ToK Chapter Maths and IT Skills Chapter

IB Biology (SL and HL) Examination Secrets Study Guide

Hodder Education

The International Baccalaureate® (IB) was founded in Geneva, Switzerland in 1968 as a non-profit educational foundation that endeavored to develop inquiring, knowledgeable and caring young people who would go on to create a better and more peaceful world through intercultural understanding and respect. What began as a single program for internationally mobile students preparing for college, has grown into a series of programs for students up to age 19. Barron's is pleased to offer a brand new review guide for the IB Biology exam. The content of the exam is compiled from the newly revised IB Biology course syllabus. This review book focuses specifically on the syllabus material to ensure that students are fully prepared and includes: An overview of the tests/papers, including an explanation of scoring, command terms, and optional topics based on the brand new 2014 syllabus Connections to the Nature of Science (NOS)

theme that runs throughout the syllabus Study tips and strategies for maximizing scores A section on mathematical calculation and statistical analysis review 2 full-length paper 1, 2, and 3 practice exams with fully explained answers The book is formatted to prepare students for either the one-year SL (standard level) or the two-year HL (higher level) biology exam.

Biology Cambridge University Press

Written specially for students following the International Baccalaureate (IB) Diploma, *Biology for the IB Diploma* is a major new textbook covering the latest syllabus requirements for this experimental science. Chapters are presented in syllabus order and their content reflects the necessary coverage of all core Topics and Options for students at both Standard and Higher levels. Throughout, the processes of science and something of its history are introduced selectively to illustrate the possibilities and limitations of science. Chapters open with a list of 'Starting points' that summarise essential concepts. Topics and Options coverage accurately reflects the Objectives and Command terms in which syllabus assessment statements are phrased. Material for Standard level and Higher level is clearly identified. Text is written in straightforward language with key terms simply defined, and examples are drawn from a wide range of international sources. Main sections specify the syllabus sub-topic being addressed, making links between the text and syllabus content self-evident. Photographs, electron micrographs and full-colour illustrations complement the text, and illustrate principles and processes in context. Self-assessment questions and typical exam questions aid comprehension and familiarise students with the syllabus

requirements, improving exam performance. Links to Theory of Knowledge provide opportunities for cross-curriculum study. Extension boxes broaden information beyond the core requirements. Includes a chapter on the integration of theory with practicals and projects and their presentation for Internal Assessment, written by a guest author, Gary Seston, an experienced IB teacher and examiner. The glossary provides an invaluable reference for students. The CD contains all the teaching material needed for the Options."

Pearson Baccalaureate Oxford University Press - Children

The only DP Biology resource developed with the IB to accurately match the new 2014 syllabus for both SL and HL, this completely revised edition gives you unparalleled support for the new concept-based approach to learning, the Nature of science. Understanding, applications and skills are integrated in every topic, alongside TOK links and real-world connections to drive inquiry and independent learning. Assessment support directly from the IB includes practice questions and worked examples in each topic, along with focused support for the Internal Assessment. Truly aligned with the IB philosophy, this Course Book gives unrivalled insight and support at every stage.

- Accurately cover the new syllabus - the most comprehensive match, with support directly from the IB on the core, AHL and all the options
- Fully integrate the new concept-based approach, holistically addressing understanding, applications, skills and the Nature of science
- Tangibly build assessment potential with assessment support str
