## AUGUST ELSA

---

**The Big Book of Dashboards** Palgrave Macmillan  
 "A visual guide to making extraordinary presentations by the acclaimed author of *The Back of the Napkin*. We are all natural born presenters. We have ideas to share, voices to share them, and people to share them with. So why do most of us find public speaking so hard? In this pithy but powerful guide, communication expert Dan Roam provides a simple five-step path to take us from jitters and complexity to confidence and clarity. He explains his tried-and-true visual techniques and the wisdom he has gained from giving award-winning presentations. Roam shows us how to: - Clearly present any idea with simple visuals - Know our audience before we step in front of them - Channel fear into fun"--

**Wireless Mobility in Organizations** Oxford University Press, USA

A primer for design professionals across all disciplines that helps them create compelling and original concept designs by hand--as

opposed to on the computer--in order to foster collaboration and win clients. In today's design world, technology for expressing ideas is pervasive; CAD models and renderings created with computer software provide an easy option for creating highly rendered pieces. However, the accessibility of this technology means that fewer designers know how to draw by hand, express their ideas spontaneously, and brainstorm effectively. In a unique board binding that mimics a sketchbook, *Drawing Ideas* provides a complete foundation in the techniques and methods for effectively communicating to an audience through clear and persuasive drawings.

*Drawing Ideas* Van Schaik Publishers

Harness your mind's innate tendency to wander, stall, rest, and unfocus and become more productive—in the boardroom, living room, or classroom. Named one of Coastal Living's Best Books for the Beach This Summer To finish tasks and achieve goals, most people believe that more focus is the solution. We rely on to-do lists, calendar reminders, noise-blocking headphones, and sometimes medication to help us concentrate—even though these tactics often fail to substantially improve productivity. Drawing on the latest brain research, compelling stories from his

psychological practice, and colorful examples of counterintuitive success from sports, business, education, and the arts, neuroscientist Srinii Pillay, M.D., challenges traditional ideas about productivity, revealing the lasting, positive benefits of adding deliberate and regular unfocus to your repertoire. A fascinating tour through brain wavelengths and rhythm, mindsets, and mental relaxation, *Tinker Dabble Doodle Try* demonstrates how specific kinds of planned unfocus stimulate cognitive calmness, jumpstart productivity, enhance innovation, inspire creativity, improve long-term memory, and, of course, help you stay on target. Tinkering with ideas and with things releases your mind to wander from a state of stuckness into a possibility frame of mind, triggering neural connections and new insights. Dabbling in a new endeavor—whether a hobby or fantasy—disrupts your habitual and reactive thinking, helping you find new solutions to old problems. Doodling can help you tap into another brain frequency to remove obstacles and create opportunities and inspiration. With techniques for training the brain to unfocus, concepts for scheduling busy lives, and ideas for controlling this new cognitive-toggling capability, *Tinker Dabble Doodle Try* will change how you think about daydreaming, relaxing, leaving work unfinished, and even multitasking. What you'll discover is a greater freedom, a deeper intelligence, and a more profound joy in your life. Praise for *Tinker Dabble Doodle Try* "Pillay's effortless writing style, combined with an excellent balance of popular psychology and self-help, makes this a helpful read for those who enjoy a light dive into psychology with practical applications."—Library Journal "Pillay cites an intriguing range of brain studies to support his argument, and his case studies of individuals with whom he has worked provide useful insights."—Kirkus Reviews "Dr. Srinii Pillay offers a brilliant, deeply researched, and even more deeply imagined blueprint for using one's full mental armamentarium, conscious, unconscious, and all the undiscovered rest! A fantastic book!"—Edward M. Hallowell, M.D., co-author of *Delivered from Distraction* "Dr. Pillay's new book will help you create a new, fun, more playful destiny and unlock your brain's inner potential."—Daniel G. Amen, M.D., co-author of *The Brain Warrior's Way* "This book not only gives you license to step off the hamster wheel of focus, focus, focus, but it will show you how to strategically and productively do so."—JJ Virgin, author of *JJ Virgin's Sugar Impact Diet* "This brilliant book shows how to manipulate your brain to alternate between intense concentration and deliberate mind-wandering."—Mark Robert Waldman, co-author of *How God Changes Your Brain*

*On Scribing* Gower Publishing, Ltd.

As a follow-up to the bestseller *Visual Thinking* and the second book *Visual Doing*, the author is releasing the two workbooks. These books are great tools to help you kick start your visual journey and gain the confidence to produce amazing, compelling drawings. The books are crammed with tons of visual exercises, ranging from tracing illustrations to drawing hacks. It will inspire you to design and share your own icons! *The Visual Doing Workbook*: Create clear and compelling layouts; focusses on flipcharts and larger, more complex drawings and how to tie together their different elements. It will show you how to grab people's attention and make your ideas stand out by framing your canvas or making sure it has an eye-catching title.

**101 Experiments in the Philosophy of Everyday Life** Oxford University Press, USA

Your guide to becoming an explanation specialist. You've done the hard work. Your product or service works beautifully - but something is missing. People just don't see the big idea - and it's keeping you from being successful. Your idea has an explanation problem. *The Art of Explanation* is for business people, educators

and influencers who want to improve their explanation skills and start solving explanation problems. Author Lee LeFever is the founder of Common Craft, a company known around the world for making complex ideas easy to understand through short animated videos. He is your guide to helping audiences fall in love with your ideas, products or services through better explanations in any medium. You will learn to: Plan: Learn explanation basics, what causes them to fail and how to diagnose explanation problems. Package: Using simple elements, create an explanation strategy that builds confidence and motivates your audience. Present: Produce remarkable explanations with visuals and media. *The Art of Explanation* is your invitation to become an explanation specialist and see why explanation is now a fundamental skill for professionals.

**The Art of Visual Notetaking** Berrett-Koehler Publishers

An original workbook companion to the acclaimed business bestseller *The Back of the Napkin* Dan Roam's *The Back of the Napkin*, a *BusinessWeek* bestseller, taught readers the power of brainstorming and communicating with pictures. It presented a new and exciting way to solve all kinds of problems—from the boardroom to the sales floor to the cubicle jungle. The companion workbook, *Unfolding the Napkin*, helps readers put Roam's principles into practice with step-by-step guidelines. It's filled with detailed case studies, guided do-it-yourself exercises, and plenty of blank space for drawing. Roam structured the book as a complete four-day visual-thinking seminar, taking readers step-by-step from "I can't draw" to "Here is the picture I drew that I think will save the world." The workbook teaches readers how to:

- Improve their three "built-in" visual problem solving tools.
- Apply the four-step visual thinking process (look-see-imagine-show) in any business situation.
- Instantly improve their visual imaginations.
- Learn how to recognize the type of problem to choose the best visual solution.

If *The Back of the Napkin* was a guide to fine dining, *Unfolding the Napkin* is the cookbook that will soon be heavily marked up and dogeared.

*The Idea Shapers* Bis Publishers

English summary: Teaching religion hands-on means a year's worth of religion class with customized lessons, teachings units and ready-to-use materials for the grade-school level. Each unit is preceded by an outline of the theological and didactic materials that follow, providing an exact orientation to the content and goals of the lesson. German text. German description: Der neue Band enthält u.a. folgende Bausteine: Miteinander leben (Schwerpunkt: Mensch und Welt); Mose (Schwerpunkt: Gott); Gleichnisse: Den Himmel auf die Erde bringen, Weihnachten: Grosse Freude, die allen widerfahrt (Schwerpunkt: Jesus Christus); Ein Haus für viele (Schwerpunkt: Kirche); Beten im Judentum, Islam und Christentum (Schwerpunkt: Religionen); Die gute Nachricht weitersagen (Projekt: Bibel).

**Presto Sketching** Pearson Education

Through a unique range of theoretical and practical case studies, this collection considers the relationship between the arts (understood as the visual arts, crafts, theatre, dance, and literature) and development, creating both a bridge between them that is rarely explored and filling in concrete ways the content of the "culture" part of the equation "culture and development". It includes manifestations of culture and the ways in which they relate to development, and in turn contribute to such pressing issues as poverty alleviation, concern for the environment, health, empowerment, and identity formation. It shows how the arts are an essential part of the concrete understanding of culture, and as such a significant part of development thinking - including the development of culture, and not only of culture as an instrumental means to promote other development goals.

The Art of Explanation Createspace Independent Publishing Platform

Drawn Together through Visual Practice demonstrates the power of images as a primary sensemaking device in an age of unprecedented complexity. Twenty-seven advanced practitioners contribute to this volume, sharing experience-based methods and insights. Professionals in visual practice, alongside cross-disciplinary practitioners in other fields, delve into deep and resonant questions at the core of connection and communication. Leaders in facilitation, conflict mediation, education - and all other areas using visual processes to establish common ground - will find an unparalleled wisdom of experience in these pages.

**Show & Tell** Union Square & Company

As the summer ends, six-year-old Garmann's three ancient aunts visit and they all talk about the things that scare them.

Live What You Love Walter Foster Publishing

When it comes to hand lettering, practice makes perfect! With 100 daily exercises divided into ten sections, this workbook offers a fun way to improve your lettering techniques. Each section focuses on building a skill or exploring a design application, from forming letters to designing motivational quotes. As you work on these beautiful full-color pages, you'll find plenty of inspiration for developing your own unique style.

*Introduction to C Programming* Watson-Guptill

"Told in ingenious pictographs that are witty, provocative, and to the point, Life in 5 Seconds takes on 200 important events, inventions, great lives, wonders of the natural world, and cultural icons and boils away the useless details to give you the pure essence of knowledge in a bold and irreverent set of illustrations that speak to today's caffeine-charged, jet-fueled, information-overloaded society. You'll laugh out loud as you finally understand the differences between Satan and Santa Claus; explore the vibrancy of artists from Beethoven to Banksy; compare the masonry in the Great Wall of China to that of the Berlin Wall; weigh the importance of Elvis; deconstruct the genius of Ikea; play with the history of video games; and plumb other vitally important holes in your knowledge.

My Icon Library Eerdmans Young Readers

The INTERACT Conferences are an important platform for researchers and practitioners in the field of human-computer interaction (HCI) to showcase their work. They are organised biennially by the International Federation for Information Processing (IFIP) Technical Committee on Human-Computer Interaction (IFIP TC13), an international committee of 30 member national societies and nine Working Groups. INTERACT is truly international in its spirit and has attracted researchers from several countries and cultures. With an emphasis on inclusiveness, it works to lower the barriers that prevent people in developing countries from participating in conferences. As a multidisciplinary field, HCI requires interaction and discussion among diverse people with different interests and backgrounds. The 17th IFIP TC13 International Conference on Human-Computer Interaction (INTERACT 2019) took place during 2-6 September 2019 in Paphos, Cyprus. The conference was held at the Coral Beach Hotel Resort, and was co-sponsored by the Cyprus University of Technology and Tallinn University, in cooperation with ACM and ACM SIGCHI. This volume contains the Adjunct Proceedings to the 17th INTERACT Conference, comprising a series of selected papers from workshops, the Student Design Consortium and the Doctoral Consortium. The volume follows the INTERACT conference tradition of submitting adjunct papers after the main publication deadline, to be published by a University Press with a connection to the conference itself. In this case, both the Adjunct Proceedings Chair of the conference, Dr Usashi Chatterjee, and the lead Editor of this volume, Dr Fernando

Loizides, work at Cardiff University which is the home of Cardiff University Press. This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use. All rights not granted by the work's license are retained by the author or authors.

Drawn Together Through Visual Practice John Wiley & Sons

Do you feel like your thoughts, ideas, and plans are being suffocated by a constant onslaught of information? Do you want to get those great ideas out of your head, onto the whiteboard and into everyone else's heads, but find it hard to start? No matter what level of sketching you think you have, Presto Sketching will help you lift your game in visual thinking and visual communication. In this practical workbook, Ben Crothers provides loads of tips, templates, and exercises that help you develop your visual vocabulary and sketching skills to clearly express and communicate your ideas. Learn techniques like product sketching, storyboarding, journey mapping, and conceptual illustration. Dive into how to use a visual metaphor (with a library of 101 visual metaphors), as well as tips for capturing and sharing your sketches digitally, and developing your own style. Designers, product managers, trainers, and entrepreneurs will learn better ways to explore problems, explain concepts, and come up with well-defined ideas - and have fun doing it.

Scrum Mastery John Wiley & Sons

The best 'how-to' for encouraging consensus in firms and organizations. Communication within many organizations has been reduced to email, electronic file transfer, and hasty sound bytes at hurried meetings. More and more, people appear to have forgotten the value of wisdom gained by ordinary conversations. The Art of Focused Conversation convincingly restores this most human of attributes to prime place within businesses and organizations, and demonstrates what can be accomplished through the medium of focused conversation. Developed, tested, and extensively used by professionals in the field of organizational development, The Art of Focused Conversation is an invaluable resource for all those working to improve communications in firms and organizations.

*Visual Doing Workbook* Springer

This gorgeous, fully illustrated handbook tells the story of sketchnotes--why and how you can use them to capture your thinking visually, remember key information more clearly, and share what you've captured with others. Author Mike Rohde shows you how to incorporate sketchnoting techniques into your note-taking process--regardless of your artistic abilities--to help you better process the information that you are hearing and seeing through drawing, and to actually have fun taking notes. This special video edition includes access to 70 minutes of video tutorials where viewers can see the author in action, demonstrating drawing techniques discussed in the book. The Sketchnote Handbook explains and illustrates practical sketchnote techniques for taking visual notes at your own pace as well as in real time during meetings and events. Rohde also addresses most people's fear of drawing by showing, step-by-step, how to quickly draw people, faces, type, and simple objects for effective and fast sketchnoting. The book looks like a peek into the author's private sketchnote journal, but it functions like a beginner's guide to sketchnoting with easy-to-follow instructions for drawing out your notes that will leave you itching to attend a meeting just so you can draw about it.

*The Art of Focused Conversation* Pearson Education India

Rapid changes in technology, the nature of organisations, non-traditional career progression, globalisation and 'virtual worlds' mean that we need to become ever more effective learners in order to keep pace with the demands placed upon us. Our patterns of understanding, the ways in which we make sense of

our work and our world, hardly become fixed before we are asked to change them and form new ones. The ability to build patterns is fundamental to our ability to learn. Ann Alder's *Pattern Making, Pattern Breaking* explores the ways in which educators and facilitators can work to help students build those patterns that will be most useful to them. These may be 'technical' patterns of language, number, sequence or process. They may be thinking patterns that support problem-solving, creativity, logical analysis or empathy. They may be patterns of behaviour that demonstrate trust, influence or integrity in relationships. Ann also illustrates how you can teach students to break patterns: to help them move on in the learning process by recognising and rejecting long-held patterns of behaviour or assumptions that are unhelpful or redundant. Formal education and training do not necessarily produce learners who are well-resourced to take advantage of opportunities that arise and to avoid some of the stresses that uncertainty, ambiguity or imposed change place upon them. So, perhaps one of the most important patterns that we can explore and understand as we move forward, in a changing world, is our own pattern of learning. Whether you are a parent, teacher, tutor, trainer, coach or manager, you need to be an effective facilitator of learning and this book is the perfect starting place.

*Garmann's Summer* "O'Reilly Media, Inc."

Inspired by a cross country trip and the letters found along the way, this is a practical lettering book for visual practitioners. Each chapter includes a short story of how the lettering style was inspired, a list of suggested markers, best use of the style, attributes and exemplars. Online resources including PDF downloads of templates available.

*The Sketchnote Handbook* BIS Publishers

There is NO SUCH THING as a mindless doodle What did Einstein,

JFK, Edison, Marie Curie, and Henry Ford have in common? They were all inveterate doodlers. These powerhouse minds knew instinctively that doodling is deep thinking in disguise—a simple, accessible, and dynamite tool for innovating and solving even the stickiest problems. Sunni Brown's mission is to bring the power of the Doodle to the rest of us. She leads the Revolution defying all those parents, teachers, and bosses who say Stop doodling! Get serious! Grow up! She overturns misinformation about doodling, demystifies visual thinking, and shows us the power of applying our innate visual literacy. She'll teach you how to doodle any object, concept, or system imaginable, shift habitual thinking patterns, and transform boring text into displays that can engage any audience. Sunni Brown was named one of the "100 Most Creative People in Business" and one of the "10 Most Creative People on Twitter" by Fast Company. She is founder of a creative consultancy, an international speaker, the co-author of *Gamestorming*, and the leader of a global campaign for visual literacy called The Doodle Revolution. Her TED Talk on doodling has drawn more than a million views on TED.com. Her work on visual literacy and gaming has been featured in over 35 nationally-syndicated news programs and reported on in The Wall Street Journal, CNN.com, the BBC, Fast Company, Inc. Magazine, etc. She lives in Keep Austin Weird, Texas.
