This book takes stock of the past two decades of public sector modernisation in OECD countries. It assesses failures and successes and identifies challenges ahead. It includes comparable data and tables comparing systems across countries.

An Introduction to International Standards on Auditing World Bank Publications

In recent years, debate on the state's economic role has too often devolved into diatribes against intervention. Peter Evans questions such simplistic views, offering a new vision of why state involvement works in some cases and produces disasters in others. To illustrate, he looks at how state agencies, local entrepreneurs, and transnational corporations shaped the emergence of

computer industries in Brazil, India, and Korea during the seventies and eighties. Evans starts with the idea that states vary in the way they are organized and tied to society. In some nations, like Zaire, the state is predatory, ruthlessly extracting and providing nothing of value in return. In others, like Korea, it is developmental, promoting industrial transformation. In still others, like Brazil and India, it is in between, sometimes helping, sometimes hindering. Evans's years of comparative research on the successes and failures of state involvement in the process of industrialization have here been crafted into a persuasive and entertaining work, which demonstrates that successful state action requires an understanding of its own limits, a realistic relationship to the global economy, and the combination of coherent internal organization and close links to society that Evans called "embedded autonomy."

"Professional analysis of essential elements of judicial reform, as provided in any country-specific review by the World Bank. As political and economic development continue, greater attention needs to be given to judicial reform. Basic elements of judicial reform include: guaranteeing judicial independence through changes in judicial budgeting, judicial appointment, and disciplinary systems; adopting procedural reforms; enhancing public access to justice; incorporating gender issues in the reform process; and redefining/expanding legal education and training"--Handbook of Latin American Studies, v. 57.

"Both the challenges and opportunities facing organizations of all sizes today are greater than ever. Illegal immigration across the U.S.-Mexico border has reached emergency levels. There is less room than ever for

error today in the formulation and implementation of a strategic plan. This textbook provides a systematic effective approach for developing a clear strategic plan. Changes made in this twelfth edition are aimed squarely at illustrating the effect of this new world order on strategic-management theory and practice. ... This twelfth edition provides updated coverage of strategic-management concepts, theory, research, and techniques in the chapters."--Preface.

This volume examines the record of Latin American adjustment efforts and assesses the challenges that lie ahead. It examines the Washington consensus on how ten major policy instruments - including fiscal deficits, tax reform, exchange rates, and deregulation - should be used to address Latin America's current problems. Ten country studies and accompanying commentaries assess public attitudes in each country toward these reforms, the progress made since 1982 in implementing them, and

the impact of policy changes on economic performance.

Margin Protection Program for Dairy and Dairy Product Donation Program (US Commodity Credit Corporation Regulation) (CCC) (2018 Edition) The Law Library presents the complete text of the Margin Protection Program for Dairy and Dairy Product Donation Program (US Commodity Credit Corporation Regulation) (CCC) (2018 Edition). Updated as of May 29, 2018 This rule implements regulations for the Margin Protection Program for Dairy (MPP-Dairy) and the Dairy Product Donation Program (DPDP) as authorized in subtitle D of the Agricultural Act of 2014 (the 2014 Farm Bill). MPP-Dairy provides dairy producers with risk management coverage that will pay producers when the difference between the price of milk and the cost of feed (the margin) falls below a certain level. MPP-Dairy provides basic catastrophic level coverage for an administrative fee, and

greater coverage for a premium in addition to the administrative fee. Amounts of coverage and premiums vary based on producer selections. This rule specifies the eligibility requirements and payment formulas for MPP-Dairy. Under the related DPDP, which is a complimentary program designed to support producer margins by increasing the price of milk, the U.S. Department of Agriculture (USDA) will buy dairy products when the margin falls below a certain level, and will distribute those products to individuals in low-income groups through public and private non-profit organizations. The Farm Service Agency (FSA) will operate both programs using funds of the Commodity Credit Corporation (CCC). The USDA Food and Nutrition Service (FNS) will assist in the distribution of the dairy products under DPDP. This book contains:

 This book presents pioneering research that

is designed to show, from a qualitative and ethnographic perspective, how new information and communication technologies, as applied to the school system and to local governance initiatives, merely reproduce traditional pedagogical approaches and the dominant forms by which power is exercised at the local level. The studies thus constitute points of departure for further thinking about the need to promote an Internet culture based on the social application of a OC right to communication and culture OCO and an OC Internet right, OCO that will permit the establishment of true citizen participation and free access to knowledge, with due regard to personal and individual rights such as those of privacy and intimacy."

 El objetivo de la presente obra consiste en presentar una descripción comparada de los diseños institucionales de las entidades de fiscalización superior (contralorías y tribunales de cuentas) del

área latinoamericana que permita establecer si ellos son plataformas apropiadas para el desarrollo efectivo de sus competencias en materia de auditoría gubernamental externa, en función de los parámetros de independencia y profesionalidad establecidos en las Declaraciones de Lima y de México de la INTOSAI. El aporte de este trabajo académico es haber determinado el grado de adecuación de los diseños institucionales de las EFS latinoamericanas a esos parámetros, de manera que los resultados de la investigación adelantada permitieron formular un conjunto de consideraciones sobre los retos inmediatos que debe superar la institucionalidad del control fiscal regional para lograr que los resultados de las funciones ejercidas por las entidades de fiscalización superior incidan sobre la gestión de las entidades vigiladas, para que su actividad misional sea eficaz y eficiente, y de esta manera aquellas hagan que la gestión de los recursos públicos logre el mejoramiento efectivo de la calidad de vida de las

personas mediante el acceso a más y mejores bienes y servicios públicos. Esta obra está dirigida principalmente a servidores públicos, gestores fiscales, administradores públicos, funcionarios de las contralorías y las oficinas de control interno, miembros de corporaciones públicas de elección popular, magistrados de tribunales y cortes y profesores e investigadores en temas de administración pública y control fiscal.

This joint initiative by the Inter-American Development Bank (IDB) and the OECD seeks to encourage the expansion of broadband networks and services in the region, supporting a coherent and cross-sectorial approach, to maximise their benefits for economic and social development. Drawing on a wealth of experience from LAC and OECD countries, the Toolkit outlines the main policy

objectives in this area and provides guidance for their measurement, an overview of developments in the region, and a compilation of good practices in several areas related to broadband policy making. This comprehensive volume encompasses a wealth of areas including digital strategies, regulatory frameworks, spectrum management, competition and infrastructure bottlenecks, broadband access, affordability, sector taxation, inclusion, convergence, regional integration, education, skills, business uptake, entrepreneurship, local content, e-health, digital government, consumer policy, and digital security and privacy.

The editors examine six key topics, including: how family upbringing influences the development of individuals who provide service to their communities; the types of institutions most likely to teach and transmit caring traditions; and the kinds of public policies that promote caring, service, and generosity. The book offers insightful analysis of how these factors interrelate and affect the

ability of members of society to transmit caring traditions.
