There Is Nothing for**You Here** Chelsea Green Publishing

Those Who Forget, published to international awards and acclaim, is journalist Géraldine Schwarz's riveting account of her German and French grandparents' lives during World War II, an in-depth history of Europe's post-war reckoning with fascism, and an urgent appeal to remember as a defense against today's rise of far-right nationalism. During World War II, Géraldine Schwarz's German grandparents were neither heroes nor villains; they were merely Mitläufer—those who followed the current. Once the war ended, they wanted to bury the past under the wreckage of the Third Reich. Decades later, while delving through filing cabinets in the basement of their apartment building in Mannheim, Schwarz discovers that in 1938, her paternal grandfather Karl took advantage of Nazi policies to buy a business from a Jewish family for a low price. She finds letters from the only

survivor of this family (all the others perished in Auschwitz), demanding reparations. But Karl Schwarz refused to acknowledge his responsibility. Géraldine starts to question the past: How guilty were her grandparents? What makes us complicit? On her mother's side, she investigates the role of her French grandfather, a policeman in Vichy. Weaving together the threads of three generations of her family story with Europe's process of post-war reckoning, Schwarz explores how millions were seduced by ideology, overcome by a fog of denial after the war, and, in Germany at least, eventually managed to transform collective guilt into democratic responsibility. She asks: How can nations learn from history? And she observes that countries that avoid confronting the past are especially vulnerable to extremism. Searing and unforgettable, *Those Who Forget* is a riveting memoir, an illuminating history, and an urgent call for remembering. *Twenty Lessons from the Twentieth Century* Harvard University Press In a stunning indictment

of the Bush administration and Congress, best-selling author Naomi Wolf lays out her case for saving American democracy. In authoritative research and documentation Wolf explains how events of the last six years parallel steps taken in the early years of the 20th century's worst dictatorships such as Germany, Russia, China, and Chile. The book cuts across political parties and ideologies and speaks directly to those among us who are concerned about the ever-tightening noose being placed around our liberties. In this timely call to arms, Naomi Wolf compels us to face the way our free America is under assault. She warns us—with the straight-to-fellow-citizens urgency of one of Thomas Paine's revolutionary pamphlets—that we have little time to lose if our children are to live in real freedom. "Recent history has profound lessons for us in the U.S. today about how fascist, totalitarian, and other repressive leaders seize and maintain power, especially in what were once democracies. The secret is that these leaders all tend to take very similar, parallel steps. The Founders of

this nation were so deeply familiar with tyranny and the habits and practices of tyrants that they set up our checks and balances precisely out of fear of what is unfolding today. We are seeing these same kinds of tactics now closing down freedoms in America, turning our nation into something that in the near future could be quite other than the open society in which we grew up and learned to love liberty," states Wolf. Wolf is taking her message directly to the American people in the most accessible form and as part of a large national campaign to reach out to ordinary Americans about the dangers we face today. This includes a lecture and speaking tour, and being part of the nascent American Freedom Campaign, a grassroots effort to ensure that presidential candidates pledge to uphold the constitution and protect our liberties from further erosion. The End of America will shock, enrage, and motivate—spurring us to act, as the Founders would have counted on us to do in a time such as this, as rebels and patriots—to save our liberty and defend our nation.

On Tyranny W. W. Norton & Company
 Britain is celebrated for having avoided the extremism, political violence and instability that blighted many European countries between the two world wars. But her success was a closer thing than has been realized. Disillusionment with parliamentary democracy, outbreaks of fascist violence and fears of communist subversion in industry and the Empire ran through the entire period. Fascist organizations may have failed to attract the support they achieved elsewhere but fascist ideas were adopted from top to bottom of society and by men and women in all parts of the country. This book will demonstrate for the first time the true spread and depth of fascist beliefs - and the extent to which they were distinctly British. Rich in anecdotes and extraordinary characters, *Hurrah for the Blackshirts!* shows us an inter-war Britain on the high-road to fascism but never quite arriving at its destination.

Letter of Warning to a Young Patriot Routledge
 An exploration of the New Deal era highlights the

politicians and pundits of the time, many of whom advocated for questionable positions, including separation of the races and an American dictatorship.

Fascism Old and New
 Basic Books

"A remarkable story of adventure and passion, tragedy and courage set against the backdrop of occupied Czechoslovakia and World War II."

—Václav Havel From former Secretary of State Madeleine Albright comes a moving and thoughtful memoir of her formative years in Czechoslovakia during the tumult of Nazi occupation, World War II, fascism, and the onset of the Cold War. An intensely personal journey into the past that offers vital lessons for the future, *Prague Winter* combines the intimacy of an autobiography with the drama of an exciting and well-told story—all underpinned by the gravity and intelligence of a serious work of history. The result is a highly readable and incisive work filled with tragedy and triumph, a resonant narrative informed by Albright's remarkable life experience and her characteristic candor in speaking hard truths.

The Career of a

Concept Harper Collins
Fascism examines
fascism, both as a
historical phenomenon
and a present-day threat.
It explores the factors that
lead to fascist
governments as well as
the common threads
connecting them, while
also cautioning citizens
against complacency.
Even today, there are
many reasons to fear for
the health of democracy.

A Warning Routledge
Highlighting the "mass"
nature of interwar
European fascism has
long become
commonplace.
Throughout the years,
numerous critics have
construed fascism as a
phenomenon of mass
society, perhaps the
ultimate expression of
mass politics. This study
deconstructs this long-
standing perception. It
argues that the entwining
of fascism with the
masses is a remarkable
transubstantiation of a
movement which
understood and presented
itself as a militant
rejection of the ideal of
mass politics, and indeed
of mass society and mass
culture more broadly
conceived. Thus, rather
than "massifying" society,
fascism was the
culmination of a long
effort on the part of the

élites and the middle-
classes to de-massify it.
The perennially menacing
mass – seen as plebeian
and insubordinate – was
to be drilled into
submission, replaced by
supposedly superior
collective entities, such as
the nation, the race, or
the people. Focusing on
Italian fascism and
German National
Socialism, but consulting
fascist movements and
individuals elsewhere in
interwar Europe, the book
incisively shows how
fascism is best
understood as ferociously
resisting what Elias
referred to as "the
civilizing process" and
what Marx termed "the
social individual."
Fascism, notably, was a
revolt against what
Nietzsche described as
the peaceful, middling
and egalitarian "Last
Humans."

Fascism: A
Warning HarperCollins
*The Enduring Legacy of
Henry Wallace's Anti-
Fascist, Anti-Racist Politics*
HarperCollins UK
A rediscovered classic,
originally published in
1938 -- and now an
international bestseller.
Address Unknown When it
first appeared in Story

magazine in 1938,
Address Unknown became
an immediate social
phenomenon and literary
sensation. Published in
book form a year later
and banned in Nazi
Germany, it garnered high
praise in the United States
and much of Europe. A
series of fictional letters
between a Jewish art
dealer living in San
Francisco and his former
business partner, who has
returned to Germany,
Address Unknown is a
haunting tale of enormous
and enduring impact.
*The Politics of Us and
Them* Penguin
A celebrated foreign
policy expert and key
impeachment witness
reveals how declining
opportunity has set
America on the grim path
of modern Russia--and
draws on her personal
journey out of poverty,
and her unique
perspectives as an
historian and policy
maker, to show how we
can return hope to our
forgotten places.
Can It Happen Here?
Routledge
#1 New York Times
Bestseller A personal and
urgent examination of
Fascism in the twentieth
century and how its
legacy shapes today's
world, written by one of
the most admired public

servants in American history, the first woman to serve as U.S. secretary of state Madeleine Albright, "is someone who claims to speak for a whole nation or group, is utterly unconcerned with the rights of others, and is willing to use violence and whatever other means are necessary to achieve the goals he or she might have." The twentieth century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. *Fascism: A Warning* is drawn from Madeleine Albright's experiences as a child in war-torn Europe and her distinguished career as a diplomat to question that assumption. Fascism, as she shows, not only endured through the twentieth century but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the

Berlin Wall fell has gone into reverse. The United States, which historically championed the free world, is led by a president who exacerbates division and heaps scorn on democratic institutions. In many countries, economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing many of the tactics used by Fascists in the 1920s and 30s. *Fascism: A Warning* is a book for our times that is relevant to all times. Written by someone who not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

Fascism HarperCollins
 What is fascism in the twenty first century? What does Fascism mean at the beginning of the twenty-first century? When we pronounce this word, our memory goes back to the years between the two world wars and envisions a dark landscape of

violence, dictatorships, and genocide. These images spontaneously surface in the face of the rise of radical right, racism, xenophobia, islamophobia and terrorism, the last of which is often depicted as a form of "Islamic fascism." Beyond some superficial analogies, however, all these contemporary tendencies reveal many differences from historical fascism, probably greater than their affinities. Paradoxically, the fear of terrorism nourishes the populist and racist rights, with Marine Le Pen in France or Donald Trump in the US claiming to be the most effective ramparts against "Jihadist fascism". But since fascism was a product of imperialism, can we define as fascist a terrorist movement whose main target is Western domination? Disentangling these contradictory threads, Enzo Traverso's historical gaze helps to decipher the enigmas of the present. He suggests the concept of post-fascism--a hybrid phenomenon, neither the reproduction of old fascism nor something completely different--to define a set of heterogeneous and

transitional movements, suspended between an accomplished past still haunting our memories and an unknown future. *The Revolt Against the Last Humans, 1848-1945* HarperCollins

The alt-right has been the most important new far-right grouping to appear in decades. Written by researchers from the anti-racist advocacy group HOPE not hate, this book provides a thorough, ground-breaking, and accessible overview of this dangerous new phenomenon. It explains where the alt-right came from, its history so far, what it believes, how it organises and operates, and its future trajectory. The alt-right is a genuinely transnational movement and this book is unique in offering a truly international perspective, outlining the influence of European ideas and movements as well as the alt-right's development in, and attitude towards, countries as diverse as Japan, India, and Russia. It examines the ideological tributaries that coagulated to form the alt-right, such as white supremacy, the neo-reactionary blogosphere, the European New Right, the anti-feminist

manosphere, the libertarian movement, and digital hate culture exemplified by offensive memes and trolling. The authors explore the alt-right's views on gender, sexuality and masculinity, antisemitism and the Holocaust, race and IQ, globalisation and culture as well as its use of violence. The alt-right is a thoroughly modern far-right movement that uses cutting edge technology and this book reveals how they use cryptocurrencies, encryption, hacking, "meme warfare", social media, and the dark web. This will be essential reading for scholars and activists alike with an interest in race relations, fascism, extremism, and social movements. *A Warning* Harper Collins

A personal and urgent examination of Fascism in the twentieth century and how its legacy shapes today's world, written by one of America's most admired public servants, the first woman to serve as U.S. secretary of state. Madeleine Albright, "is someone who claims to speak for a whole nation or group, is utterly unconcerned with the rights of others, and is willing to use violence and

whatever other means are necessary to achieve the goals he or she might have." The twentieth century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. In *Fascism: A Warning*, Madeleine Albright draws on her experiences as a child in war-torn Europe and her distinguished career as a diplomat to question that assumption. Fascism, as she shows, not only endured through the twentieth century but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the Berlin Wall fell has gone into reverse. The United States, which historically championed the free world, is led by a president who exacerbates division and heaps scorn on democratic institutions. In many countries,

economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing many of the tactics used by Fascists in the 1920s and 30s. *Fascism: A Warning* is a book for our times that is relevant to all times. Written by someone who has not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

Twilight of Democracy
Anchor

A brilliant, haunting, and profoundly original portrait of the defining tragedy of our time. In this epic history of extermination and survival, Timothy Snyder presents a new explanation of the great atrocity of the twentieth century, and reveals the risks that we face in the twenty-first. Based on new sources from eastern Europe and forgotten testimonies from Jewish survivors, *Black Earth* recounts the mass murder of the Jews as an event

that is still close to us, more comprehensible than we would like to think, and thus all the more terrifying. The Holocaust began in a dark but accessible place, in Hitler's mind, with the thought that the elimination of Jews would restore balance to the planet and allow Germans to win the resources they desperately needed. Such a worldview could be realized only if Germany destroyed other states, so Hitler's aim was a colonial war in Europe itself. In the zones of statelessness, almost all Jews died. A few people, the righteous few, aided them, without support from institutions. Much of the new research in this book is devoted to understanding these extraordinary individuals. The almost insurmountable difficulties they faced only confirm the dangers of state destruction and ecological panic. These men and women should be emulated, but in similar circumstances few of us would do so. By overlooking the lessons of the Holocaust, Snyder concludes, we have misunderstood modernity and endangered the future. The early twenty-first century is coming to resemble the early

twentieth, as growing preoccupations with food and water accompany ideological challenges to global order. Our world is closer to Hitler's than we like to admit, and saving it requires us to see the Holocaust as it was --and ourselves as we are. Groundbreaking, authoritative, and utterly absorbing, *Black Earth* reveals a Holocaust that is not only history but warning.

Fear Itself: The New Deal and the Origins of Our Time Ten Speed Press
A Fascist, observes Madeleine Albright, 'is someone who claims to speak for a whole nation or group, is utterly unconcerned with the rights of others, and is willing to use violence and whatever other means are necessary to achieve the goals he or she might have.' The twentieth century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions of innocent people dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. Albright draws on her

experiences as a child in war-torn Europe and her distinguished career as a diplomat to question that very assumption. Fascism, Albright shows, not only endured through the course of the twentieth century, but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the Berlin Wall fell has gone into reverse. The United States, which has historically championed the free world, is led by a president who exacerbates popular divisions and heaps scorn on democratic institutions. In many countries, economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing many of the same tactics used by Fascists in the 1920s and 30s. Written with wisdom by someone who has not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer

if we are to save ourselves from repeating the tragic errors of the past.

American Fascism Anchor
Explores the political ambitions of the Christian right, discussing how their agenda gained momentum through alternative networks, schools, and publishers, and warns that another national crisis may enable the Christian right to seize political power.

Penguin
Summary of Fascism: A Warning by Madeleine Albright: Trivia/Quiz for Fans
Fascism is being revived as an issue in these times because the election of Donald Trump as president is like "ripping off the bandage" on the wound caused by Fascism "and picking at the scabs." Author Madeleine Albright believes that American presidents have had flaws but it is only now that an American chief executive is issuing statements and doing things that are "at odds with our democratic ideals." Painting a dark vision of fascist elements playing in current political situation in the US, Europe and around the world, Albright still issues words of hope. Features You'll Discover Inside: - A

A 21st-Century Memoir
Penguin
"The novel that foreshadowed Donald Trump's authoritarian appeal."—Salon
It Can't Happen Here is the only one of Sinclair Lewis's later novels to match the power of *Main Street*, *Babbitt*, and *Arrowsmith*. A cautionary tale about the fragility of democracy, it is an alarming, eerily timeless look at how fascism could take hold in America. Written during the Great Depression, when the country was largely oblivious to Hitler's aggression, it

juxtaposes sharp political satire with the chillingly realistic rise of a president who becomes a dictator to save the nation from welfare cheats, sex, crime, and a liberal press. Called “a message to thinking Americans” by the Springfield Republican when it was published in 1935, *It Can't Happen Here* is a shockingly prescient novel that remains as fresh and

contemporary as today's news. Includes an Introduction by Michael Meyer and an Afterword by Gary Scharnhorst
[The Christian Right and the War on America](#)
Random House Trade Paperbacks
New from New York Times bestselling author and former secretary of state Madeleine Albright, *Read My Pins* is a story and

celebration of how one woman's jewelry collection was used to make diplomatic history. Exploring the use of the pin or brooch as a means of personal and diplomatic expression and featuring a gallery of fascinating photographs, this unique, intimate, and revealing biography offers a whole new side of Secretary Albright, one of our most beloved public servants.
