Gambrell Oklahoma State University  
Observation Description An individual can  
always learn new aspects of life when they  
are observing an infant. This observation  
took place in the home of the participant.  
The participant is familiar with the house.  
During the observation the child played

with her toys in the living room. The  
participant was a 12-month-old girl who is  
cared for by both her mother and father.  
Other participant included the child's  
mother and the Observation Infant Child

and share research. This observation took place at a day care facility that serves children 6 months old to 5 years of age. I focused my attention on the infant and toddlers area. There were three infants and 9 toddlers and 2 year-olds that were present at the time a total of twelve children. An Observation of Infants and Toddlers: [Essay Example ... The observation model was an adjusted version of the Tavistock Model for studying infants. The original model observes a baby, an hour a week for the first one or two years of life, within the family home (Fawcett 2009). The observer does not take notes, as it allows them to notice all behaviours, movements and expressions of the child. Child Observation And Development - UK Essays Baldwin (1994, pg 83) stated through observation one is "hearing and valuing the voice of the observed", and I believed that without words being said there was a connection between the child and I. (ability to remain detached to suspend judgement and refrain from participation, being aware of feelings and attitudes evoked, not initiating interaction, Precise recording which distinguishes what actually

happened from what interpretation, Child Observation, A Reflective Report - UK Essays Describe the infant sitting, crawling, and/or standing. Discuss your observations in relation to the infant's age. Ryon sits up with ease. He seems very balanced and sure of himself. His legs are spread apart, and his feet point outward. He can lean forward with his stomach to the floor and sit back up with some effort. Sample Observation Paper for Child Development - Owlcatation ... The Purpose of this paper is recognizing the Physical, Cognitive, Biological, Social and Emotional development of the child. The child chosen for this child observation paper is a tenth month old male Cyan, who appears to a healthy normal child. His mother is half Indian and father is Indian. Mother and father are happily married. Infant Observation - Term Paper At about 11:30AM the child had a light snack of a banana and a bottle of apple juice. Nevertheless he already has enough teeth to bite and chew properly; he constantly tried to suckle it with his lips. May be it was a kind of a game for him or his suckling reflex hadn't been fulfilled yet. Infant/Toddler Observation Essay |
