Economic history
 states that money
 replaced a bartering
 system, yet there isn't
 any evidence to
 support this axiom.

Anthropologist Graeber
 presents a stunning
 reversal of this
 conventional wisdom.
 For more than 5000
 years, humans have
 used elaborate credit
 systems to buy and sell
 goods. Since the
 beginning of the
 agrarian empires,
 humans have been
 divided into debtors
 and creditors. Through
 time, virtual credit
 money was replaced
 by gold and the system
 as a whole went into

decline. This
 fascinating history is
 told for the first time.

Long treated as peripheral to music history, dance has become prominent within musicological research, as a prime and popular subject for an increasing number of books, articles, conference papers and special symposiums. Despite this growing interest, there is a need for thorough-going critical examination of the ways in which musicologists might engage with dance, thinking not only about specific repertoires or genres, but about fundamental

commonalities between the two, including embodiment, agency, subjectivity and consciousness. This volume begins to fill this gap. Ten chapters illustrate a range of conceptual, historical and interpretive approaches that advance the interdisciplinary study of music and dance. This methodological eclecticism is a defining feature, integrating insights from critical theory, cultural studies, the visual arts, phenomenology, cultural anthropology and literary criticism into the study of music and dance.

The Lady of the Lake
Philomel Books

In the tradition of Eric Lott's award-winning *Love and Theft*,

Hartman's new book shows how the violence of captivity and enslavement was embodied in many of the performance practices that grew from, and about, slave culture in antebellum America. Using tools from anthropology and history as well as literary criticism, she examines a wealth of material, including songs, dance, stories, diaries, narratives, and journals to provide new insights into a range of issues. She looks particularly at the presentations of slavery and blackness in minstrelsy, melodrama, and the sentimental novel; the disparity between actual slave culture and "managed" plantation amusements; the construction of slave

culture in nineteenth-century ethnographic writing; the rhetorical performance of slave law and slave narratives; the dimension of slave performance practice; and the political consciousness of folklore. Particularly provocative is her analysis of the slave pen and auction block, which transmogrified terror into theatre, and her reading of the rhetoric of seduction in slavery law and legal cases concerning rape. Persuasively showing that the exercise of power is inseparable from its display, *Scenes of Subjection* will interest readers involved in a wide range of historical, literary, and cultural studies.

Gravity's Rainbow
Hadley Rille Books

"Throughout his various stages, Dylan's work reveals an affinity with the Zen worldview, where enlightenment can be attained through self-contemplation and intuition rather than through faith and devotion. Much has been made of Dylan's Christian periods, but never before has a book engaged Dylan's deep and rich oeuvre through a Buddhist lens."--Back cover.

The Black Jacobins
Church Publishing, Inc.
From the illustrator of the #1 smash *The Day the Crayons Quit* comes another bestseller--a giggle-inducing tale of everything tossed, thrown, and hurled in order to free a kite! When Floyd's kite gets stuck in a tree, he's determined to get it

out. But how? Well, by knocking it down with his shoe, of course. But strangely enough, it too gets stuck. And the only logical course of action . . . is to throw his other shoe. Only now it's stuck! Surely there must be something he can use to get his kite unstuck. An orangutan? A boat? His front door? Yes, yes, and yes. And that's only the beginning. Stuck is Oliver Jeffers' most absurdly funny story since *The Incredible Book-Eating Boy*. Childlike in concept and vibrantly illustrated as only Oliver Jeffers could, here is a picture book worth rescuing from any tree.

The Emergent Psalter Thomas Nelson

From bestselling writer

David Graeber—“a master of opening up thought and stimulating debate” (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled “On the Phenomenon of Bullshit Jobs.” It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs

are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society’s most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. “Clever and charismatic” (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and “a thought-provoking examination of our working lives”

(Financial Times).

Wordless Rhetoric

Ludwig von Mises Institute
The first chapter-volume of Dorothy Richardson's thirteen-volume novel series Pilgrimage, *Pointed Roofs* is a coming of age story. The protagonist is Miriam Henderson, seventeen years old. *Pointed Roofs* tells the tale of Miriam's first adventure as an adult, teaching English at a

finishing school in Hanover, Germany. Though the tale is simple, it is not simply told; to capture the intensity of Miriam's seemingly mundane experiences, Richardson developed a new narrative technique labelled "stream of consciousness" by the author May Sinclair. *Pointed Roofs* is a compelling account of a young woman's dawning consciousness of what it means to be independent, an individual, and a woman in the early twentieth century. This Broadview Edition places Richardson's inventive narrative technique in the context of early twentieth-century literary modernism, showing the "startling newness," in May

Sinclair's words, of Richardson's writing. Letters from Richardson to friends, publishers, and critics show the complex relationships between her work and life.

Fourteen authors, including many of the best-known scholars in the field, explore how people actually experience their

culture and how those experiences are expressed in forms as varied as narrative, literary work, theater, carnival, ritual, reminiscence, and life review. Their studies will be of special interest for anyone working in anthropological theory, symbolic anthropology, and contemporary social and cultural anthropology, and useful as well for other social scientists, folklorists, literary theorists, and philosophers.

The volume focuses on music during the process of European integration since the Second World War.

Often music in Europe is defined by its relation to the concept of Occidentalism (Musik im Abendland; western music). The emphasis here turns rather to recent manifestations of its evolvement in ensembles, events, musical organisations and ideas; questions of unity and diversity from Bergen to Tel Aviv, from Lisbon to Baku; and deals with the tension between local, regional and national music within the larger confluence

of European music. The status of classical and avante-garde music, and to a degree rock and pop, during Europe's development the past sixty years are also reviewed within the context of eurocentrism – the domination of European music within world music, a term propagated by anthropologists and ethnomusicologists several decades ago and based on multiculturalism. Conversely, the search for a musical European identity and the ways in which this search has in turn been influenced by multiculturalism is an ongoing, dynamic process.
