ROBERTS ELLISON

Legendtopia Book #2: The Shadow Queen Simon and Schuster

Gene Wolfe's Return to the Whorl is the third volume, after On Blue's Waters and In Green's Jungles, of his ambitious SF trilogy The Book of the Short Sun . . . It is again narrated by Horn, who has embarked on a quest in search of the heroic leader Patera Silk. Horn has traveled from his home on the planet Blue, reached the mysterious planet Green, and visited the great starship, the Whorl and even, somehow, the distant planet Urth. But Horn's identity has become ambiguous, a complex question embedded in the story, whose telling is itself complex, shifting from place to place, present to past. Perhaps Horn and Silk are now one being. Return to the Whorl brings Wolfe's major new fiction, The Book of the Short Sun, to a strange and seductive climax. At the Publisher's request, this title is being sold without Digital Rights

The Vampire Extinction: Greyson Undead is an exciting new paranormal series that will take fans of *Twilight*, *The Mortal Instruments*, *The Vampire Diaries* and *A Shade of Vampire* on a thrill ride

unlike any other... Greyson Black hated what he was: a monster. Forced to feed on the blood of humans, he'd been condemned to a life of darkness and murder to survive. Though others like him celebrated their fate, Greyson cursed it. Unlike them, he had a conscience, one that prohibited him from feeding on innocents. Instead, he chose to kill only those he deemed deserving. Those the world would be better off without. Despising the vicious nature of his kind, Greyson lived a life of complete solitude. An empty life without anyone or anything to live for. But of that all changed the day he met Alex Lockhart. The only human he'd ever encountered who didn't fall victim to the trap of his allure, Alex made him feel alive again for the first time in decades. She caused him to feel a dangerous emotion: hope. A violent encounter threatened to tear at the thread of happiness Greyson clung to, and forced him to choose between letting Alex die and enslaving her to a life like his. A life spent in shadows. A life of bloodlust. But would changing Alex even save her? Dark forces lurked,

stalking and conspiring against all vampires. Killing them systematically and intent upon exterminating every last one of them. Will Greyson and Alex survive the hunt or will they fall to the vampire extinction? Find out in this riveting first installment of The Vampire Extinction series, *Greyson Undead... Boom!* Delacorte Press Less than a hundred years from now, the world as we know it no longer exists. Cities have disappeared beneath the sea, technology no longer functions, and human civilization has reverted to a much more primitive state On an isolated northern island, the people of Wing are trying to hold onto their way of life-even as the sea continues to claim precious acres and threatens to claim their very lives. Only fifteen-year-old Mara has the vision and the will to lead her people in search of a new beginning in this harsh, unfamiliar world. This compelling and powerful story set in the near future will hit home with teens, especially those who are ever more aware of the increasingly controversial climate crisis we face in our world today.

Although she is eager to instruct her young charge, Teddy, she is also frightened, especially when inexplicable things happen in the huge house after dark. Ursula is sure she has heard footsteps in the hallways at night, and that something is following her during her walks in the Enchanted Forest. Then there is Mr. Bentley, a young bear also employed by Mr. Vaughn, whose superior disposition is enough to drive Ursula to tears . . . and yet why does he also make her heart race? Permuted Press We live in a time of unprecedented planetary ecocrisis, one that poses the serious and ongoing threat of mass extinction. Drawing upon a range of theoretical influences, this book offers the foundations of a philosophy of ecopedagogy for the global north. In so doing, it poses challenges to today's dominant ecoliteracy paradigms and programs, such as

education for sustainable development, while theorizing the needed reconstruction of critical pedagogy itself in light of our presently disastrous ecological conditions.
