Get a fresh, insightful look into the meaning of each planet in every astrological house, when you get *The House Book* by Stephanie Camilleri. The system of houses divides the circle that forms the horoscope chart into twelve even sections, each having their own meaning and value. *The House Book* helps you understand the specific areas of your life that the houses represent—health, family, relationships, emotions, change, career, and more—based on your birth chart. *The House Book* may be the best introduction (and the simplest to use) to the subject ever. Simply look up any planet and read the specific description for the house it falls into in your chart. The author bases each description in *The House Book* on an average of 125 actual birth charts with that same location to give you a real-world grasp of what the house placements in your chart mean. Contains 120 concise descriptions for each planet in every house. Based on actual natal charts. Provides an overview of basic principles for beginning astrologers. Includes a new rectification method for pros. The author has been a student and practitioner of astrology for over 35 years. During that time, she was unable to find a book that definitively clarified the meanings of the astrological houses. She studied the similarities among 1,500 different natal charts to write this book. That's why no astrological reference shelf is complete without *The House Book*. If you are new to astrology, *The House Book* will literally save you hours of work. It has all of the information you need to interpret the meaning of every planet in each house—no more searching through dozens of books for information. If you are a pro, you can use this as the basis for your work with houses, allowing you to add even more accuracy to your readings . . . and get them done faster, too. No matter your level of astrological experience, you must get *The House Book*.

The longing for redemption is a many-headed daimon that dwells within the most earthbound and prosaic of souls. Neptune is the astrological symbol that describes this energy. Liz Greene, an internationally known astrologer, has given us the most complete and accessible book about Neptune ever written! She explores Neptune themes in literature, myth, politics, religion, fashion, and art to show how this energy manifests.

Illustrates how aspects can offer a profound depiction of an individual and his or her destiny. • Contains comprehensive sections full of interpretations for every planetary combination. • Concepts are explained through the use of actual birth charts and diagrams. • A core textbook at the Faculty of Astrological Studies in London. Aspects are an essential piece of the astrological puzzle when it comes to interpreting and using the information that astrology can give us. It is not enough to know the placement of the planets on the horoscope. It is the relationships between the stars and planets that let us grasp the destiny of the individual. Aspects describe the drama of our lives—the complex configurations that influence what will happen to us over time. Sue Tompkins, a fellow of the Faculty of Astrological Studies in London, shows how to interpret aspects when doing daily astrological readings. She uses the lives of real people to plot the aspects and offers examples of every possible planetary combination. Detailing the influence of oppositions, trines and elemental trines, and cardinal, mutable, and fixed crosses, Tompkins shows how aspects provide the energy in the chart that transforms the horoscope into something symbolizing an alive and vital human being. With

Aspects in Astrology, Tompkins provides both the novice and the experienced astrologer the evidence and concrete methods needed to grasp the vast knowledge offered to us by our horoscope. *Dynamics of the Unconscious* Cosimo, Inc.

Direction and Destiny in the Birth Chart returns due to popular demand! When Howard Sasportas died in 1992, the astrological community recognized that it had lost one of its best-loved and most original thinkers. His lectures made him a highly respected figure in the international astrological world. At Howard's seminars the participants could enjoy his unique combination of intuitive insight, humour, warmth, inspired interpretation, and profound grasp of human nature. It is his rare blend of spirituality and down-to-earth, trenchant observations of human psychological dynamics which makes his work so unusual and memorable. The three seminars included in this reprint of the original volume all deal with the themes of direction and destiny in the birth chart. In personal consultation work Howard had the gift of inspiring his clients and highlighting potentials which gave them renewed hope and new directions to pursue in life. These seminars convey the same optimism and positive vision of human possibilities. The first seminar, on the theme of vocation, deals practically, psychologically and philosophically with that most difficult of questions: How can we discover the "right" path in life? The second seminar, on those mysterious points in the horoscope known as the Moon's Nodes, explores the distinction between fate and destiny, and the ways in which, as Jung once put it, we can learn to "do what we must do gladly". The third seminar, on the

psychology of the "helper", examines the astrological signatures of the aptitudes and psychological patterns of those who are called to work in the helping professions. This volume is accessible, profound and revealing, and is essential reading for any astrological student seeking to understand the mystery and creative challenge of what impels us to move forward in life.

Mainstream science has long dismissed astrology as a form of primitive superstition, despite or perhaps even because of its huge popular interest. From daily horoscopes to in-depth and personalized star forecasts, astrology, for many, plays a crucial role in the organization of everyday life. Present-day scholars and scientists remain baffled as to why this pseudo-science exercises such control over supposedly modern, rational and enlightened individuals, yet so far they have failed to produce any meaningful analysis of why it impacts on so many lives and what lies behind its popular appeal. Moving beyond scientific scepticism, Astrology, Science and Culture finally fills the gap by probing deeply into the meaning and importance of this extraordinary belief system. From the dawn of pre-history, humankind has had an intimate connection with the stars. With its roots in the Neolithic culture of Europe and the Middle East, astrology was traditionally heralded as a divinatory language. Willis and Curry argue that, contrary to contemporary understanding including that of most astrologers astrology was originally, and remains, a divinatory practice. Tackling its rich and controversial history, its problematic relationship to Jungian theory, and attempts to prove its grounding in objective reality, this book not only persuasively demonstrates that astrology is far more than a superstitious relic of years gone by, but that it enables a fundamental critique of the scientism of its opponents. Groundbreaking in its reconciliation of astrologys ancient traditions and its modern day usage, this book impressively unites philosophy, science, anthropology, and history, to produce a powerful exploration of astrology, past and present.

'Psychological Astrology and the Twelve Houses' will surprise you, whether you are a complete beginner or a seasoned professional: Noel Eastwood is an astrologer, tarotist, and has recently retired from his psychology practice. He approaches astrology as an altered state of consciousness. He walks you through the houses of the natal chart like a good travel guide who knows that sightseeing is not enough to make a journey memorable, you need to experience the place for yourself: meet the locals in small cafés, discover hidden fountains and secret gardens. This is a practice-oriented work, Noel takes every opportunity to demonstrate how astrological symbolism translates into the personality of an individual. He picked four well-known figures to illustrate the process of analysis on their charts. What makes this book truly unique, however, is an invitation to meet your astrological archetypes. To show where such an inner journey can take you, Noel shares his personal meditations as if you were reading his private travel diary. Also available as an audiobook. Reviews "Comprehensive and concise with great meditations and stories. Lots of interesting insights. (The author is an) excellent reader." B "I was very excited to read his book because it takes on some intensely personal subject matter from a psychological perspective, which Noel is uniquely qualified to write about, since he is that rare combination (that I wish we had more of in the astrological world), a practicing psychologist and astrologer. His areas of expertise are Jungian and archetypal psychology, astrology, Tarot, and Taoist meditation, so he's well-versed in the realms of the psyche. My first impression, once I got started reading, is that this book is an ideal blend of serious subject matter handled with respect for the reader, with just enough astrologese for the basic-to-medium-advanced astrology student. Noel does not overwhelm you with the level of detail that is automatically off-putting for the beginner. You won't be scared picking up this book, in

other words, if you aren't an astrology expert. This is book is for the person who (in my opinion) would be dissatisfied with the superficial or cookbook style astrology book and is looking for something that goes deeper, that explains the pieces of the self we don't usually discuss, even in the astrological world, but most people who want to understand their own (and others') psychology wish could be discussed with some depth and understanding of what's really going on in our psyches as expressed through our natal charts. Speaking as a professional astrologer, I personally got the most out of the very end of the book, where Noel discusses 'houses as psychological defenses.' If you read this book for nothing else, get it for the series of meditations Noel asks you to do; those on their own are very valuable (and I would suggest keeping a journal as you go, to capture your responses). A valuable book for the person looking for psychological self-awareness." AG "I have studied astrology for years and buy a new book every now and then to enhance my understanding. This book is the first in a long time that really had me intrigued and learning (had my highlighter out!!). Eastwood's combination of astrology and psychology knowledge/experience makes the content easier to follow and provides a much deeper foundation on how to interpret the 12 houses, what's in them (and what's NOT) and other key influences. Looking forward to the next two books in this series!" J "This book is exactly what I was looking for! Excellent information presented in an entertaining and logical way. For the serious student only, I would advise. I've been on the metaphysical road pretty much since birth & have studied astrology charts for over 25 years. This book truly helped me synthesize an enormous amount of facts and data that constantly swim around in my head. Noel Eastwood...Thank you, sir, for taking the time and making the effort to help students (like me!) on our sometimes strange and difficult (yet always amazing) personal journeys. For me, healing is the goal, knowledge is the path and application & practice are the keys. This book makes a great contribution and I look forward to more from this author/teacher." AS

The material for THE TWELVE ASTROLOGICAL HOUSES: The Way of Creative Accomplishment, was written in 1943-44, immediately following THE ZODIAC as THE UNIVERSAL MATRIX. Like its companion book, it is one of Rudhyar's most accessible and easy-to-read works. It provides comprehensive descriptions of each of the ten astrological planets in each of the twelve astrological houses. In common with THE UNIVERSAL MATRIX, the astrological interpretations are more striking, psychological and critical than what we came to expect from Rudhyar during the second half of the 20th century. The electronic publication includes hyperlinks to the birth charts of dozens of interesting example nivities. This volume should not to be confused with Rudhyar's later works -- "THE ASTROLOGICAL HOUSES: The Spectrum of Individual Experience" -- which is currently out-of-print and available used at Amazon.com -- or with "The Twelve Houses as Problems We All Face." Some sample passages from THE TWELVE ASTROLOGICAL HOUSES: "Every personality is the child of an individual vision (Ascendant) and of a set of collective habits (second house), Rudhyar writes. The great person is one who uses such habits to demonstrate the vision - and thereby repolarizes them. The weak personality lets collective habits use the vision which thereby becomes distorted and materialized. Every personality is a field of integration for individual vision (first house) and collective habits (second house) - our inner life is very often a battlefield! It is in the third house that the issue . . . is determined; for it is the quality of the person's environment and of his mentality (largely conditioned by education) which will decide in the third house whether the fourth house factors (ego, home, and so on) will be energized preponderantly either by those developed in the first house or those belonging to the second house." PLANETS IN THE FIFTH HOUSE "When a strong planet or a group of planets are located in the fifth house of a natal chart this does not mean the native will necessarily be a particularly gifted artist, or a great lover, or the progenitor of many children, and so on. It indicates, rather, that matters related to this house will be insistently the focal point for the person's attention. The native will be involved in fifth house issues and experiences by apparent choice or by compulsion . . . They will create problems which will demand a solution. Problems however constitute opportunities for growth and for 'creative accomplishment' - thus the title of this series. Where there are no problems, the mind and will of the individual are not roused into operation . . ." MOON IN THE ELEVENTH HOUSE "The Moon in the eleventh house signifies a person highly sensitive to social moods and changes, who is often the mouthpiece of some great mass-movement seeking expression in a subterranean manner. The spiritual-occult systems proclaimed by Rudolph Steiner are much involved in personalized states of consciousness and dependent on personal 'revelations'. Indeed, it might be argued the 'revelations' of the seer could merely be projections of his collective, national and personal 'hopes and wishes' and fears and prejudices, rather than authentic and significantly interpreted revelations of spiritual realities. The traditional chart of Joan of Arc shows Moon conjunct Jupiter in the eleventh house - indeed an excellent symbol for one whose "Voices" saved a Kingdom . . ."
