Warren Buffett built Berkshire Hathaway into something remarkable— and Fortune journalist Carol Loomis had a front-row seat for it all. When Carol Loomis first mentioned a little-known Omaha hedge fund manager in a 1966 Fortune article, she didn't dream that Warren Buffett would one day be considered the world's greatest investor—nor that she and Buffett would quickly become close personal friends. As Buffett's fortune and reputation grew over time, Loomis used her unique insight into Buffett's thinking to chronicle his work for Fortune, writing and

proposing scores of stories that tracked his many accomplishments—and also his occasional mistakes. Now Loomis has collected and updated the best Buffett articles Fortune published between 1966 and 2012, including thirteen cover stories and a dozen pieces authored by Buffett himself. Loomis has provided commentary about each major article that supplies context and her own informed point of view. Readers will gain fresh insights into Buffett's investment strategies and his thinking on management, philanthropy, public policy, and even parenting. Some of the highlights include: The 1966 A. W. Jones story in which Fortune first mentioned Buffett. The first piece Buffett wrote for the magazine, 1977's "How Inflation Swindles the Equity Investor." Andrew

Tobias's 1983 article "Letters from Chairman Buffett," the first review of his Berkshire Hathaway shareholder letters. Buffett's stunningly prescient 2003 piece about derivatives, "Avoiding a Mega-Catastrophe." His unconventional thoughts on inheritance and philanthropy, including his intention to leave his kids "enough money so they would feel they could do anything, but not so much that they could do nothing." Bill Gates's 1996 article describing his early impressions of Buffett as they struck up their close friendship. Scores of Buffett books have been written, but none can claim this work's combination of trust between two friends, the writer's deep understanding of Buffett's world, and a very long-term perspective.

Award-winning author and grilling expert Paula Disbrowe shows home cooks how to elevate everyday meals with seductive, smoky flavors in this collection of 100 recipes for smoking meats, fish, poultry, vegetables, nuts, grains, pantry staples, and even cocktails on a smoker or grill in as little as 30 minutes. Featuring an impressive array of smoke-infused recipes that extend well beyond the realm of rib joints, Thank You for Smoking shows home cooks how easy it is to rig a gas or charcoal grill or use a backyard smoker to infuse everything you love to eat--from veggies and greens to meat and fish--with a smoky nuance. Encompassing a wide range of recipes easy enough for weeknight cooking like Ginger Garlic Chicken and San Antonio-

Style Flank Steak Tacos, as well as longer smokes like Smoky Chuck Roast with Coffee and Whiskey or Holiday Ham with Red Boat Salt, this varied collection also includes ideas for smoking vegetables, grains, nuts, and seeds for the kind of fresh, plant-based dishes people want to eat right now: Smoked Farro with Wild Mushrooms and Halloumi, Swiss Chard Slab Pie with Smoked Peppercorn Crust, and Smoked Chickpeas with Spinach and Saffron Yogurt. And because firing up dinner is best enjoyed with an adult beverage, this complete guide also helps you set up your bar for modern smoke-kissed cocktails.

Making hay has always been hard work,

just about the hardest work on a farm. Spanning 150 years, *The Haymakers* tells a story of the labor and heartbreak suffered by five families struggling to make the hay that fed their livestock, a story not just about grass, alfalfa, and clover, but also about sweat and fears, toil and loss. *The Haymakers* is an epic -- the history of man's struggle with nature as well as man's struggle against machines. It relates the story of farmers and their obligations to their families, to the animals they fed, and to the land they tended. Hoffbeck also documents and preserves the commonplace methods of haymaking. He describes the tools and the methods of haymaking as well as the relentless demands of the farm. Using diaries, agricultural guidebooks and personal interviews, the

folkways of cutting, raking, and harvesting hay have been recorded in these chapters. In the end, this book is not so much about agricultural history as it is about family history, personal history -- how farm families survive, even persevere.

 Georgie was just a typical teenager when it happened; she was studying hard for a place at her dream university and having fun with her friends on weekends. She always knew what was coming next. She had her entire life planned, until one night and one event turned her whole world upside down. In an instant, everything had changed, and it was never to be the same again. ""Freaks Like Me"" is a touching memoir about invisible illness, mental health and

the prejudice that sadly comes alongside it. It's the true story of how one girl and her loved ones finally learnt to accept the hand they had been dealt...

Resin craft is a great way to make beautiful items for your home and jewelry for yourself or others. Hazel Oliver is the name behind Badger & Birch, whose eco-friendly practices include using solvent free and non-toxic resin, and incorporating natural waste such as mussel and oyster shells from her local restaurant, as well as natural minerals, gemstones, and crystals. In this her first book, Hazel shows you the basics of resin craft, including mixing and pouring, making molds, and finishing your pieces. The 30 projects include cups, trays, boxes, and other

items for the home, as well as molded jewelry pieces in shell shapes and other natural forms. The soft colors, natural elements and beautiful finish of Hazel's work will inspire you to take up this flourishing new craft, or give you new ideas if you are already a keen resin crafter.

View the dedicated microsite for free sample chapters and videos - [architecturalpress.com/architects-pocket-book](http://architecturalpress.com/architects-pocket-book) This handy pocket book brings together a wealth of useful information that architects need on a daily basis - on site or in the studio. The

book provides guidance on a range of tasks, from complying with the Building Regulations, including the recent revisions to Part L, to helping with planning, use of materials and detailing. Compact and easy to use, the Architect's Pocket Book has sold well over 65,000 copies to the nation's architects, architecture students, designers and construction professionals who do not have an architectural background but need to understand the basics, fast. This is the famous little blue book that you can't afford to be without. About the authors: Charlotte Baden-Powell was trained at the Architectural Association in London. She practised architecture for over 40 years, during which time she identified the need for this book, which was first published in 1997 and her

vision is as relevant today. Jonathan Hetreed and Ann Ross have drawn from years of experience of running a small practice in Bath to update and extend the scope of the new edition to reflect continuing revisions to regulations and the increasing demand for sustainable construction methods. Customer reviews: "I have had this for ages and it's no lie when I say it's the one book I use the most. It's exceptional, it's a must." "From brick and board sizes, technical details, terminology, symbols and information for Building Reg's - this book is extremely useful, very handy and concise." "This is a must have for anyone working in the architectural field. It's a pocket of knowledge that almost always has what you're looking for."

This volume is the third in the series of the book entitled, 'Advances in Solar Energy Technology'. The purpose of writing this multiple volume book is to provide all the relevant latest information in the field of Solar Energy (Applied as well as theoretical) to serve as the best source material at one place. Attempts are made to discuss topics in depth to assist both the students (undergraduate, pos- graduate, Research Scholars) and the professionals

(consulting, design, contracting firms). The third volume discusses the heating, agricultural and photovoltaic applications of Solar Energy. Chapter 1 deals with solar cookers, one of the important application area for developing countries. After discussing the history of solar cookers, eight types of direct solar cookers, two types of box solar cookers and two types of advanced solar cookers are discussed in detail. The performance studies carried out on direct type and on box type solar cookers are also presented. A test procedure for rating a box type solar cooker is also introduced. The limitations and advantages of various cookers are discussed briefly in the chapter. Desalinated water for drinking purposes, for industrial and agricultural

applications is required. The topic of Solar Distillation is discussed in detail in chapter two. Solar Distillation has a long history and in this chapter various kind of solar stills like conventional solar still, tilted tray solar still, wick type solar still, multiple effect diffusion solar still, multistage flash distillation, etc.

"Families around the world look, feel, and live differently today. Families can be "make or break" for women and girls when it comes to achieving their rights.

They can be places of love, care, and fulfillment but, too often, they are also spaces where women's and girls' rights are violated, their voices are stifled, and where gender inequality prevails. In today's changing world, laws and policies need to be based on the reality of how families live. UN Women's flagship report, "Progress of the world's women 2019-2020: Families in a changing world", assesses the reality of families today in the context of sweeping economic, demographic, political, and social transformation. The report features global, regional, and national data. It also analyses key issues such as family laws, employment, unpaid care work, violence against women, and families and migration. At a critical juncture for women's rights, this

landmark report proposes a comprehensive family-friendly policy agenda to advance gender equality in diverse families. A package of policies to deliver this agenda is affordable for most countries, according to a costing analysis included in the report. When families are places of equality and justice, economies and societies thrive and unlock the full potential of the Sustainable Development Goals (SDGs). The report shows that achieving the SDGs depends on promoting gender equality within families." -- UNWomen.org.
