 Does Jesus' call to love our enemies mean that we should remain silent in the face of injustice? Jesus called us to love our enemies. But to befriend an enemy, we first have to acknowledge their existence, understand who they are, and recognize the ways they are acting in opposition to God's good news. In How to Have an Enemy: Righteous Anger and the Work of Peace, Melissa Florer-Bixler looks closely at what the Bible says about enemies--who they are, what they do, and how Jesus and his followers responded to them. The result is a theology that allows us to name our enemies as a form of truth-telling about ourselves, our communities, and the histories in which our lives are embedded. Only then can we grapple with the power of the acts of destruction carried out by our enemies, and invite them to lay down their enmity, opening a path for healing, reconciliation, and unity. Jesus named and confronted his enemies as an essential part to loving them. In this provocative book, Florer-Bixler calls us to do the same.

There is life beyond church! The church in America is at one of the most critical junctions in history. For years she has been irrelevant, unimportant, and unnecessary to our culture. In attempting to counteract this, leaders in Christendom have changed the message, the style, and the label of the church experience to become more relevant, when in essence they have only created seeker-sensitive models that continue to be ineffective. The challenge lies within the model itself. In Kingdom Life you will discover: Why current church models are failing in America, why your church experience often leaves you empty inside, the true freedom and blessing that is found in the kingdom of God, how the kingdom model can genuinely change your life, how to restructure your current ministry model into one that expresses the kingdom. "Every believer can discover God's

kingdom." John Mason, Best-selling Author of *An Enemy Called Average* "Transition from a traditional mind-set to a powerful kingdom paradigm." Barbara Wentroble, Author, and Founder of Breakthrough International Ministries "You will rejoice and weep as you read this book." Bobbie Jean Merck, Founder/President, A Great Love Ministries "Reset your course through Jesus' message on the kingdom." Morris Ruddick, Founder, Global Initiatives Foundation

Seven billion people on earth; it was only a matter of time before you discovered the truth. Your legends--your myths and religions--have called us by many names. Since the beginning, our kind has walked among you as your protectors. We are the only ones who know who you are and why you are here. He wasn't meant to disappear; you weren't meant to know why. Our objective was clear: hunt them, kill them and leave. Once you know, there will be no going back. They will come for you. Are you ready?

*What Pastors Told Us About Surviving and Thriving* Harper Collins

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

This is the forth book in this series that began with an in-depth look at how God views details, communicates with this world, and decides what process to use. Of course this series of books looked at aspects recorded in scripture about the Tabernacle. How the materials were collected, specific design details, who did the work, and how the Tabernacle was constructed. Much of that information is found in dozens, maybe hundreds of other books about the Tabernacle. But there are details setting this book apart from every other book written about the Tabernacle. This book takes a verse by verse, story by story, chapter by chapter look at the Tabernacle. In other words, this book presents a picture of the Tabernacle from God's point of view. Which the beginning of this series pointed out, is much different than any human perspective.
