1.1191 steel - Steel Grades 1 1191 C45e Steel Carbon Properties of steel C45E (1.1191) Weldability: Due to the medium-high carbon content it can be welded with some precautions. Hardenability: It has a low hardenability in water or oil; fit for surface hardening that gives this steel grade a high hardness of the hardened shell. C45E / 1.1191 - SteelNumber - Chemical composition ... 5. Processing of carbon steel DIN 1.1191 Carbon steel 1.1191 round bar and flat sections can be cut to your required sizes. ground bar can also be supplied, providing a high quality tool steel precision ground tool steel bar to your required tolerances. 1.1191 Carbon steel is also available as Ground Flat Stock / Gauge Plate, in standard and nonstandard sizes. 1.1191 carbon steel | AISI 1045 | JIS S45C | GB 45 - OTAI ... EN 1.1191 steel is a carbon (non-alloy) steel formulated for primary forming into wrought products. 1.1191 is the EN numeric designation for this material. C45E is the EN chemical designation. It has a moderately low thermal conductivity among wrought carbon or non-alloy steels. EN 1.1191 (C45E) Non-Alloy Steel :: MakeltFrom.com C45 steel is an unalloyed medium carbon engineering steel which has 0.42%-0.5% Carbon. It offers moderate tensile strengths, wear resistance and good machinability. this material is capable of through hardening by quenching and tempering on limited sections, and also can be flame or induction hardened to surface hardness Min 55HRC. C45

is generally supplied in an untreated or normalised condition C45/C45E/C45R/DIN 1.1191 - Xingsheng Special steel 1045/S45C/C45E/1.1191 Steel Pipe - Mechanical Tubing - Seamless Carbon Steel Tube. Application. Carbon steel pipe applies to petroleum, chemical industry, electric power, boiler, high temperature resistant, low temperature resistant, corrosion resistant seamless steel pipe used. Alloy steel pipe also can be made according to the customer. 1045/S45C/C45E/1.1191 Carbon Steel Pipe - Mechanical Tubing C45E(1.1191)/1045 / Ck45 / S45C / XC45 / 080M46 CFS8 ... Application Information. Weldability: Due to the medium-high carbon content it can be welded with some precautions. Hardenability: It has a low hardenability in water or oil; fit for surface hardening that gives this steel grade a high hardness of the hardened shell. Public Id. C45E - 1.1191.
