Little Secrets of the Auto Industry

Currency

Kevin and Jackie Freiberg's previous book, *Nuts!: Southwest Airline's Crazy Recipe for Business and Personal Success*, described the unconventional leadership that made Southwest an airline industry dynamo. In *GUTS!*, the Freibergs look at twenty-five gutsy and extraordinarily successful businesses and introduce the chief executives who are creating a new corporate ethos that blows the doors off business-as-usual. Drawing on five years of research, the Freibergs provide a behind-the-scenes look at these intensely focused, passionate, and unconventional leaders

and their companies. Among them:

- James Blanchard, CEO of Synovus Financial, a financial services giant with more than 16 billion dollars in assets
- Roy Spence, Jr., President of GSD&M Advertising, which AdWeek magazine named Southwest Agency of the Year seven times
- James Goodnight of SAS, a world leader in intelligence software

Although the leaders in the book represent a wide-range of industries, they share a common vision: They see business as a heroic cause and understand that good leadership isn't a matter of position, but of influence. They reject hierarchical rules, rituals, and expectations, and have replaced in-the-box management with a culture based on passion and innovation. They regard their employees not as "human

resources,” but as individuals with unique gifts and talents. And make everyone in the company responsible for the company’s brand and culture. An exciting follow-up to Nuts!, which has sold nearly 500,000 copies in hardcover and paperback, GUTS! proves that it is possible to have fun, live your values, and still make money.

Great companies stumble and fall when

they lose it. Highfliers crash when a competitor notices they don't have it. Start-ups shut down if they can't develop it. "It" is a strategy so powerful and an execution-driven mindset so relentless that companies use it to gain more than just competitive advantage--they achieve an industry dominance that is virtually unassailable and that competitors often try to explain away as unfair. In their "hardball manifesto," authors George Stalk and Rob Lachenauer of the leading strategy consulting firm The Boston Consulting Group show how hardball competitors can build or maintain an enviable competitive edge by pursuing one or more of the classic "hardball strategies": unleash massive and overwhelming force, exploit anomalies, devastate profit

sanctuaries, raise competitors' costs, and break compromises. Based on 25 years of experience advising and observing a range of companies, the authors argue that hardball competitors can gain extreme competitive advantage--neutralizing, marginalizing, or even destroying competitors--without violating their contracts with customers or employees and without breaking the rules. A clear-eyed paean to the timeless strategies that have driven the world's winning companies, Hardball Strategy redefines and reinterprets the meaning of competition for a new generation of business players. George Stalk and Rob Lachenauer are directors of The Boston Consulting Group. Stalk is the author of *Competing Against Time*, the classic work on time-based competition.
