Silicon Valley visionary
John Chambers shares
the lessons that

transformed a dyslexic
kid from West Virginia
into one of the world's
best business leaders
and turned a simple
router company into a
global tech titan. When
Chambers joined Cisco
in 1991, it was a
company with 400

employees, a single product, and about \$70 million in revenue. When he stepped down as CEO in 2015, he left a \$47 billion tech giant that was the backbone of the internet and a leader in areas from cybersecurity to data center convergence. Along the way, he had acquired 180 companies and turned more than 10,000 employees into millionaires. Widely recognized as an innovator, an industry leader, and one of the world's best CEOs, Chambers has outlasted and outmaneuvered practically every rival that ever tried to take Cisco on--Nortel, Lucent, Alcatel, IBM, Dell, and Hewlett-Packard, to name a few. Now Chambers is sharing his unique

strategies for winning in a digital world. From his early lessons and struggles with dyslexia in West Virginia to his bold bets and battles with some of the biggest names in tech, Chambers gives readers a playbook on how to act before the market shifts, tap customers for strategy, partner for growth, build teams, and disrupt themselves. He also adapted those lessons to transform government, helping global leaders like French President Emmanuel Macron and Indian Prime Minister Narendra Modi to create new models for growth. As CEO of JC2 Ventures, he's now investing in a new generation of game-changing startups by helping founders become great leaders

and scale their companies. Connecting the Dots is destined to become a business classic, providing hard-won insights and critical tools to thrive during the accelerating disruption of the digital age.

Chambers and Partners alone covers over 190 countries. This book will provide answers to the most important questions when dealing with rankings: • How can law firms determine, which ranking is to be taken seriously and furthermore is suitable

for the law firms' purpose (e. g. small law firms must not work with the exact same rankings as large law firms) • What should law firms and all members of the legal profession do to effectively communicate their performance to the ranking publications in order to improve their own rankings? • How can the law firms' clients distinguish between important and less relevant rankings? This book for the first time offers an overview of the law firm ranking industry and gives recommendations as to why which rankings are suitable for which law firms and legal fields. Case studies and practice notes are also provided for working properly with rankings. *Chambers Global* John

This collection of essays, written by leading commentators from across the common law world, examines a range of topics concerning Equity and Trusts in the commercial context. The essays investigate the way in which doctrines derived from the equitable jurisdiction interact with and shape various areas of the law, including company law, commercial law and agency law. Subjects considered include the difficulties in identifying trust

assets in the commercial context; the court's role in supervising the trust; and the remedies available in cases of fiduciary or trustee wrongdoing. This book will be of interest to both academics and practitioners working in these difficult areas of equity and commercial law.

MANZ'sche Wien
Born in the hamlet of Mount Gilead, North Carolina, Julius Chambers (1936–2013) escaped the fetters of the Jim Crow South to emerge in the 1960s and 1970s as the nation's leading African American civil rights attorney. Following passage of the Civil Rights Act of 1964, Chambers worked to advance the NAACP Legal Defense Fund's

strategic litigation campaign for civil rights, ultimately winning landmark school and employment desegregation cases at the U.S. Supreme Court. Undaunted by the dynamiting of his home and the arson that destroyed the offices of his small integrated law practice, Chambers pushed federal civil rights law to its highwater mark. In this biography, Richard A. Rosen and Joseph Mosnier connect the details of Chambers's life to the wider struggle to secure racial equality through the development of modern civil rights law. Tracing his path from a dilapidated black elementary school to counsel's lectern at the Supreme Court and

beyond, they reveal Chambers's singular influence on the evolution of federal civil rights law after 1964.

This book provides the first comprehensive analysis of globalization's impact on the Brazilian legal profession. Employing original data from nine empirical studies, the book details how Brazil's need to restructure its economy and manage its global relationships contributed to the emergence of a new 'corporate legal sector' - a sector marked by increasingly large and sophisticated law firms and in-house legal departments. This corporate legal sector in turned helped to

reshape other parts of the Brazilian legal profession, including legal education, pro bono practices, the regulation of legal services, and the state's legal capacity in international economic law. The book, the second in a series on Globalization, Lawyers, and Emerging Economies, will be of interest to academics, lawyers, and policymakers concerned with the role that a rapidly globalizing legal profession is playing in the development of key emerging economies, and how these countries are integrating into the global market for legal services.
