"Being scared is the least of your worries."  
The Shining Men are everywhere. You spot

them out of the corner of your eye.  
Abnormally tall, with long lank hair, blank  
faces and blazing eyes. If they catch you,  
they'll drag you away to who knows  
where. No one is safe. They're on every  
street corner. Waiting. Watching. Shining  
bright. Of course it's a hoax. It has to be,  
right? It started as a joke, a prank for  
Halloween. Then it went viral. Idiots  
dressing up as monsters. Giving folk a  
scare. Silly masks and fright wigs. No one  
gets hurt. Because bogeymen aren't real.  
Until people start going missing and lights  
burn in the darkness. Burning like eyes.  
But help is on its way, in the form of a

strange man called the Doctor and his friend, Bill. The Doctor will keep us safe. The Doctor will stop the monsters. Unless the monsters stop the Doctor first... An original novel featuring the Twelfth Doctor and Bill as played by Peter Capaldi and Pearl Mackie.

Do you remember Pathé News? Taking the train to the seaside? The purple stains of iodine on the knees of boys in short trousers? Knitted bathing costumes? Then the chances are you were born in or around 1950. To the young people of today, the 1950s seem like another age. But for those born around then, this era of childhood feels like yesterday. This delightful collection of photographic memories will appeal to all who grew up in this post-war decade; they include pictures of children enjoying life out on the streets and bombsites, at home and at school, on holiday and at events. These wonderful period pictures and descriptive captions

will bring back this decade of childhood, and jog memories about all aspects of life as it was in post-war Britain. Paul Feeney is the author of several bestselling nostalgia books including *A 1950s Childhood* and *A 1960s Childhood* (The History Press). He has also written the bestselling *From Ration Book to Ebook* (The History Press), which takes a nostalgic look back over the life and times of the post-war baby boomer generation.

Contributions by Paul Fisher Davies, Lisa DeTora, Yasemin J. Erden, Adam Gearey, Thomas Giddens, Peter Goodrich, Maggie Gray, Matthew J. A. Green, Vladislav Maksimov, Timothy D. Peters, Christopher Pizzino, Nicola Streeten, and Lydia

Wysocki Recent decades have seen comics studies blossom, but within the ecosystems of this growth, dominant assumptions have taken root—assumptions around the particular methods used to approach the comics form, the ways we should read comics, how its “system” works, and the disciplinary relationships that surround this evolving area of study. But other perspectives have also begun to flourish. These approaches question the reliance on structural linguistics and the tools of English and cultural studies in the examination and understanding of comics. In this edited collection, scholars from a variety of disciplines examine comics by

addressing materiality and form as well as the wider economic and political contexts of comics' creation and reception. Through this lens, influenced by poststructuralist theories, contributors explore and elaborate other possibilities for working with comics as a critical resource, consolidating the emergence of these alternative modes of engagement in a single text. This opens comics studies to a wider array of resources, perspectives, and modes of engagement. Included in this volume are essays on a range of comics and illustrations as well as considerations of such popular comics as Deadpool, Daredevil, and V for Vendetta, and analyses of comics production, medical illustrations, and original comics. Some contributions even unfold in the form of comics panels.

The Beano is Britain's longest-running and

best-loved comic. Since 1938 it has brought thrills and laughter to generation after generation of children, seeing the young and young-at-heart through World War 2, the social changes of the 1950s and 60s and on into a new millennium. How has the comic evolved since its early days? How many of the classic characters and their stories do you remember? What are the important changes that have happened through the years, why have they happened and why has The Beano survived when all the other comics have folded? Every child in the UK since the 1950s has known Dennis the Menace, the Bash Street Kids, Minnie the Minx and Roger the Dodger, but how many know the writers and artists who created these iconic comic characters? How do they write the scripts week after week? Where did the inspiration come from? How did the artists come to work for this Great British institution? This is the story of the Beano Comic, told in the words of the people who made it, going back to the dark, harsh days of the 1930s and continuing through to the present day. A unique insight into the country's most beloved comic.
