This inspirational book is geared towards persons who felt they had to fight their way through life because things were not handed to them on a silver platter. In the pages of this book you will be given an insight of how to live, how to manage life's issues that confront you on your daily journey. It is pertinent to note that you can live championing life's obstacles. The underlying principles to be successful at this is to trust in the truth laid down in the Bible. It is my desire that as you read through these pages

you will be encouraged to live your best life.

This working paper is based on country case studies of Ethiopia, Ghana, Guinea, Madagascar, Tanzania, and Uganda, and an extensive literature review. In many parts of Africa, the demand for secondary teachers substantially exceeds the supply, due to factors such as secondary teacher attrition, bottlenecks in the teacher preparation system, and perceived unattractive conditions of service. Few countries have strong policies, strategies, and programs for recruiting able secondary school graduates to secondary teaching. The paper suggests several critical and promising areas for improvement in th.

PRINCIPLES OF ECONOMICS, Sixth Edition, became a best seller after its introduction and continues to be the most popular and widely used text in the economics classroom. Instructors found it the perfect complement to their teaching. A text by a superb writer and economist that stressed the most important concepts without overwhelming students with an excess of detail was a formula that was quickly imitated, but has yet to be matched. The sixth edition features a strong revision of content in all thirty-six chapters. Dozens of new applications emphasize the real-world relevance of economics for today's students through interesting news articles, realistic case studies, and engaging problems. The premier ancillary package is the most extensive in the industry, using a team of instructors/preparers that have been with the project since the first edition. The text material is

again fully integrated into Aplia, the best-selling online homework solution. I have tried to put myself in the position of someone seeing economics for the first time. My goal is to emphasize the material that students should and do find interesting about the study of the economy.--N. Gregory Mankiw.
