People * Marie Claire * Vulture * The Minneapolis Star-Tribune * LitHub * Crime Reads * PopSugar * AARP * Book Marks * South Florida Sun Sentinel From the award-winning author of Wonder Valley and Visitation Street comes a serial killer story like you've never seen before—a literary thriller of female empowerment and social change In West Adams, a rapidly changing part of South Los Angeles, they're referred to as "these women." These women on the corner ... These women in the club ... These women who won't stop asking questions ... These women who got what they deserved ... In her masterful new novel, Ivy Pochoda creates a kaleidoscope of loss, power, and

hope featuring five very different women whose lives are steeped in danger and anguish. They're connected by one man and his deadly obsession, though not all of them know that yet. There's Dorian, still adrift after her daughter's murder remains unsolved; Julianna, a young dancer nicknamed Jjubee, who lives hard and fast, resisting anyone trying to slow her down; Essie, a brilliant vice cop who sees a crime pattern emerging where no one else does; Marella, a daring performance artist whose work has long pushed boundaries but now puts her in peril; and Anneke, a quiet woman who has turned a willfully blind eye to those around her for far too long. The careful existence they have built

for themselves starts to crumble when two murders rock their neighborhood. Written with beauty and grit, tension and grace, *These Women* is a glorious display of storytelling, a once-in-a-generation novel. #MurderTrending Skyhorse Publishing, Inc. Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

The Fact of a Body Princeton University Press

To abuse or neglect a child, to deprive the child of his or her own identity and ability to experience joy in life, is to commit soul murder. Soul murder is the perpetration of brutal or subtle acts against children that result in their emotional bondage to the abuser and, finally, in their psychic and spiritual annihilation. In this compelling, disturbing, and superbly readable book, Dr. Leonard Shengold, clinical professor of psychiatry at the New York University School of Medicine, explores the

devastating psychological effects of this trauma inflicted on a shocking number of children. Drawing on a lifetime of clinical experience and wide-ranging reading in world literature, Dr. Shengold examines the ravages of soul murder in the adult lives of his patients as well as in the lives and works of such seminal writers as George Orwell, Dickens, Chekhov, and Kipling. One hopeful note in this saga of pain is that a terrible childhood can, if survived, be a source of strength, as Dr. Shengold finds in the cases of Dickens and Orwell. Provocatively original in its approach to literature and psychology, unsettling in its vivid portrayal of the darker side of human nature, far-reaching in its conclusions, *Soul Murder* will stand alongside such works as Alice Miller's *The Drama of the Gifted Child* as one of the most important studies of the psyche to appear in decades.

As in the bestselling *The Alphabet Versus the Goddess*, Leonard Shlain's provocative new book promises to change the way readers view themselves and where they came from. *Sex, Time, and Power* offers a tantalizing answer to an age-old question: Why did big-brained *Homo sapiens* suddenly emerge some 150,000 years ago? The key, according to Shlain, is female sexuality. Drawing on an awesome breadth of research, he shows how, long ago, the narrowness of the newly bipedal human female's pelvis and the increasing size of infants' heads precipitated a crisis for the species. Natural selection allowed for the adaptation of the human female to this environmental stress by reconfiguring her hormonal cycles, entraining them with the periodicity of the moon. The results, however, did much more than ensure our existence; they imbued women with the concept of time, and gave them control over sex—a power that males sought to reclaim. And the possibility of achieving immortality through heirs drove men to construct patriarchal cultures that went on to dominate so much of human history. From the nature of courtship to the evolution of language, Shlain's brilliant and wide-ranging exploration stimulates new thinking about very old matters.

A Psychologist Investigates How Evolution, Cognition, and Complexity are Revolutionizing Our View of Human Nature Taylor & Francis

Human psychological and physical well-being is damaged and destroyed when people are deliberately killed by other people. There are millions of primary and secondary victims of murder throughout the world, and human society as a whole

is a tertiary victim of murder. Despite this, people are often fascinated and engrossed by stories of homicide and killers. This book provides a fascinating exploration of murder, providing an insight into what leads people to kill and what effect this has on society as a whole. This book is organized into five chapters that each answer a specific question on murder: What is Murder? Who Commits Murder? Why Commit Murder? Why is Murder Devastating? Why is Murder Fascinating? *The Sexual Murderer* Millbrook Press Little is known about Sexual Murderers – those who kill in a sexual context. Recent studies have compared their backgrounds and characteristics with that of rapists and/or violent (non-sexual) offenders. This translation of a French original by the renowned Jean Proulx challenges existing knowledge on sexual murders, offers new tools for profiling and interrogation, and helps to establish a new research base. Current theories of sexual murder, its prevalence, reasons including attachment theories, profiling and interrogation techniques are all addressed in Proulx's distinctive, thought-provoking style.

A Tale of Modern American Life University of Toronto Press

From New York Times bestselling author Simon Baatz, the first comprehensive account of the murder that shocked the world. In 1901 Evelyn Nesbit, a chorus girl in the musical *Florodora*, dined alone with the architect Stanford White in his townhouse on 24th Street in New York. Nesbit, just sixteen years old, had recently moved to the city. White was forty-seven and a principal in the prominent architectural firm McKim, Mead & White. As the foremost architect of his day, he was a celebrity, responsible for designing countless landmark buildings in Manhattan. That evening, after drinking champagne, Nesbit lost consciousness and awoke to find herself naked in bed with White. Telltale spots of blood on the bed sheets told her that White had raped her. She told no one about the rape until, several years later, she confided in Harry Thaw, the millionaire playboy who would later become her husband. Thaw, thirsting for revenge, shot and killed White in 1906 before hundreds of theatergoers during a performance in Madison Square Garden, a building that White had designed. The trial was a sensation that gripped the nation. Most Americans agreed with Thaw that he had been justified in killing White, but the district attorney expected to send him to the electric chair. Evelyn Nesbit's testimony was so explicit and shocking that Theodore Roosevelt himself called on the newspapers not to print it verbatim.

The murder of White cast a long shadow: Harry Thaw later attempted suicide, and Evelyn Nesbit struggled for many years to escape an addiction to cocaine. *The Girl on the Velvet Swing*, a tale of glamour, excess, and danger, is an immersive, fascinating look at an America dominated by men of outsize fortunes and by the women who were their victims.

Answers to many legal questions often depend on our understanding of the relationship between the human brain and behavior. While there is no evidence to suggest that violence is the sole result of cognitive impairment, research does suggest that frontal lobe impairment in particular may contribute to the etiology of violent behavior. *Murder in the Courtroom* presents a comprehensive and detailed analysis of issues most relevant to answering questions regarding the link between cognitive functioning and violence. It is the first book to focus exclusively on the etiology and assessment of cognitive impairment in the context of violent behavior and the challenges courts face in determining the reliability of neuroscience evidence; provide objective discussions of currently available neuropsychological tests and neuroimaging techniques, and their strengths and limitations; provide a methodology for the assessment of cognitive dysfunction in the context of violent behavior that is likely to withstand a Daubert challenge; and include detailed discussions of criminal cases to illustrate important points. Clinical and forensic psychologists and psychiatrists, cognitive neuroscientists, and legal professionals will be able to use this book to further their understanding of the relationship between brain function and extreme violence.

THE NEW YORK TIMES BESTSELLING SERIES WITH OVER ONE MILLION COPIES SOLD • Everyone is talking about this addictive must-read mystery with shades of *Serial* and *Making a Murderer* about an investigation turned obsession, full of twists and turns and with an ending you'll never expect. Everyone in Fairview knows the story. Pretty and popular high school senior Andie Bell was murdered by her boyfriend, Sal Singh, who then killed himself. It was all anyone could talk about. And five years later, Pip sees how the tragedy still haunts her town. But she can't shake the feeling that there was more to what happened that day. She knew Sal when she was a child, and he was always so kind to her. How could he possibly have been a killer? Now a senior herself, Pip decides to reexamine the closed case for her final project, at first just to cast doubt on the original investigation. But soon she discovers a trail of dark secrets that might actually prove Sal innocent . . . and the line between past and present begins to blur. Someone in Fairview doesn't want Pip digging around for answers, and now her own life might be in danger. And don't miss the sequel, *Good Girl, Bad Blood!* "The perfect nail-biting mystery." -- Natasha Preston, #1 New York Times bestselling author

Marzano-Lesnevich begins a summer job at a law firm in Louisiana, working to help defend men accused of murder, they think their position is clear. The child of two lawyers, they are staunchly anti-death penalty. But the moment convicted murderer Ricky Langley's face flashes on the screen as they review old tapes—the moment they hear him speak of his crimes -- they are overcome with the feeling of wanting him to die. Shocked by their reaction, they dig deeper and deeper into the case. Despite their vastly different circumstances, something in his story is unsettlingly, uncannily familiar. Crime, even the darkest and most unsayable acts, can happen to any one of us. As Alex pores over the facts of the murder, they find themselves thrust into the complicated narrative of Ricky's childhood. And by examining the details of Ricky's case, they are forced to face their own story, to unearth long-buried family secrets, and reckon with a past that colors their view of Ricky's crime. But another surprise awaits: They weren't the only one who saw their life in Ricky's. An intellectual and emotional thriller that is also a different kind of murder mystery, *THE FACT OF A BODY* is a book not only about how the story of one crime was constructed -- but about how we grapple with our own personal histories. Along the way it tackles questions about the nature of forgiveness, and if a single narrative can ever really contain something as definitive as the truth. This groundbreaking, heart-stopping work, ten years in the making, shows how the law is more personal than we would like to believe -- and the truth more complicated, and powerful, than we could ever imagine.

It: Chapter Two—now a major motion picture! Stephen King's terrifying, classic #1 New York Times bestseller, "a landmark in American literature" (Chicago Sun-Times)—about seven adults who return to their hometown to confront a nightmare they had first stumbled on as teenagers...an evil without a name: It. Welcome to Derry, Maine. It's a small city, a place as hauntingly familiar as your own hometown. Only in Derry the haunting is real. They were seven teenagers when they first stumbled upon the horror. Now they are grown-up men and women who have gone out into the big world to gain success and happiness. But the promise they made twenty-eight years ago calls them reunite in the same place where, as teenagers, they battled an evil creature that preyed on the city's children. Now, children are being murdered again and their repressed memories of that terrifying

summer return as they prepare to once again battle the monster lurking in Derry's sewers. Readers of Stephen King know that Derry, Maine, is a place with a deep, dark hold on the author. It reappears in many of his books, including *Bag of Bones*, *Hearts in Atlantis*, and *11/22/63*. But it all starts with *It*. "Stephen King's most mature work" (St. Petersburg Times), "It will overwhelm you...to be read in a well-lit room only" (Los Angeles Times).

A devious tale of psychological suspense perfect for fans of Paula Hawkins' *The Girl on the Train*—and is soon to be a major movie directed by Agnieszka Holland. In a tantalizing set-up reminiscent of Patricia Highsmith's classic *Strangers on a Train*... On a night flight from London to Boston, Ted Severson meets the stunning and mysterious Lily Kintner. Sharing one too many martinis, the strangers begin to play a game of truth, revealing very intimate details about themselves. Ted talks about his marriage that's going stale and his wife Miranda, who he's sure is cheating on him. Ted and his wife were a mismatch from the start—he the rich businessman, she the artistic free spirit—a contrast that once inflamed their passion, but has now become a cliché. But their game turns a little darker when Ted jokes that he could kill Miranda for what she's done. Lily, without missing a beat, says calmly, "I'd like to help." After all, some people are the kind worth killing, like a lying, stinking, cheating spouse. . . . Back in Boston, Ted and Lily's twisted bond grows stronger as they begin to plot Miranda's demise. But there are a few things about Lily's past that she hasn't shared with Ted, namely her experience in the art and craft of murder, a journey that began in her very precocious youth. Suddenly these co-conspirators are embroiled in a chilling game of cat-and-mouse, one they both cannot survive . . . with a shrewd and very determined detective on their tail.

Oxford University Press, USA

"Kenrick writes like a dream." -- Robert Sapolsky, Professor of Biology and Neurology, Stanford University; author of *A Primate's Memoir* and *Why Zebras Don't Get Ulcers* What do sex and murder have to do with the meaning of life? Everything. In *Sex, Murder, and the Meaning of Life*, social psychologist Douglas Kenrick exposes the selfish animalistic underside of human nature, and shows how it is intimately connected to our greatest and

most selfless achievements. Masterfully integrating cognitive science, evolutionary psychology, and complexity theory, this intriguing book paints a comprehensive picture of the principles that govern our lives. As Kenrick divulges, beneath our civilized veneer, human beings are a lot like howling hyenas and barking baboons, with heads full of homicidal tendencies and sexual fantasies. But, in his view, many ingrained, apparently irrational behaviors -- such as inclinations to one-night stands, racial prejudices, and conspicuous consumption -- ultimately manifest what he calls "Deep Rationality.&" Although our heads are full of simple selfish biases that evolved to help our ancestors survive, modern human beings are anything but simple and selfish cavemen. Kenrick argues that simple and selfish mental mechanisms we inherited from our ancestors ultimately give rise to the multifaceted social lives that we humans lead today, and to the most positive features of humanity, including generosity, artistic creativity, love, and familial bonds. And out of those simple mechanisms emerge all the complexities of society, including international conflicts and global economic markets. By exploring the nuance of social psychology and the surprising results of his own research, Kenrick offers a detailed picture of what makes us caring, creative, and complex -- that is, fully human. Illuminated with stories from Kenrick's own colorful experiences -- from his criminally inclined shantytown Irish relatives, his own multiple high school expulsions, broken marriages, and homicidal fantasies, to his eventual success as an evolutionary psychologist and loving father of two boys separated by 26 years -- this book is an exploration of our mental biases and failures, and our mind's great successes. Idiosyncratic, controversial, and fascinating, *Sex, Murder, and the Meaning of Life* uncovers the pitfalls and promise of our biological inheritance.

The Rational Animal John Wiley & Sons *Blood in the Soil* is the first book about the investigation into the shooting of Hustler magazine publisher Larry Flynt and his country attorney in Gwinnett County, Georgia, in 1978. But this book is not primarily about Larry Flynt, or even his shooter (the serial killer Joseph Paul Franklin), though both men are of course important characters in the story. This true account is told alternately from the

perspective of Detective J. Michael Cowart and by following Franklin's life from childhood through his execution. The monster that was Joseph Paul Franklin was the result of a perfect storm of circumstances, which included poverty, cruel abuse as a child, the detestation and mistrust between blacks and whites, integration, and the hate groups that operated and recruited openly. Detective Cowart tells the story of his first introduction to Franklin, and the cat-and-mouse game that ensued. A self-proclaimed truth-seeker, the detective had to appear to befriend Franklin to get him to provide enough information to prosecute him in the Flynt shooting. In the course of developing this rapport, Cowart gains astonishing insight into many of Franklin's other cold-blooded killings and crimes, and his twisted justification for them. This book tells of a very real struggle between right and wrong. It details with stark honesty the terrible truths that characterized the South during the volatility of the sixties and seventies, and of the ugly reality that lies just beneath the veneer of a beautiful region known for its warm hospitality. Along the way, it examines some hard lessons about life, trust, and compromise.
