What's your map to

human geography? Contemporary Human Geography is a modular springboard into essential human and cultural geography concepts, designed for the modern geography reader. This brief, innovative text explores contemporary human geography with a bold, visual style, with topics organized into self-contained, two-page spreads. Rubenstein's efficient writing presents information clearly without sacrificing high-quality content. The 4th Edition offers new MapMaster 2.0, which is inspired by GIS and leverages recent data from the US Census Bureau, UN, CIA, World Bank, PRB, NOAA, NASA, USGS, and more. It enables readers to analyze and critically think about

data through the visualization of mapping. This can help individuals connect critical, global issues to their local geography, addressing key concepts. With thousands of maps to explore, and the ability to upload their own data, readers can fully engage with the content. Also available packaged with Mastering Geography or as an easy-to-use, standalone Pearson eText Mastering(tm) Geography is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Interactive, self-paced tutorials provide individualized coaching to help students stay on track. With a wide range of activities

available, students can actively learn, understand, and retain even the most difficult concepts. Learn more. Pearson eText allows educators to easily share their own notes with students so they see the connection between their reading and what they learn in class--motivating them to keep reading, and keep learning. This AP* Human Geography companion is filled with vocab, activities and assignments that follow Rubenstein's Cultural Landscape Twelfth Edition+ for all 13 chapters. Its activities can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook. Teachers can copy at will, or use the book as a student consumable. The rationale for having a workbook like this is that as publishers began putting much of their extra content online, a niche for traditional classwork was opened.

Also, whether the textbook itself is written in ink or electrons, many students still find it valuable to write and keep notes for themselves on paper, and portfolios still matter. The activities in this workbook challenge students to apply the concepts, give examples, diagram every chapter, and think things through. Find TTT on FB.
