Topics include differentiating instruction for students at a variety of language proficiencies, keeping all students absolutely engaged, and creating powerful learning supports.

Multiple Intelligences in the Elementary
Classroom OUP Oxford

The fourth edition of this classic textbook has been revised to reflect recent developments in language teaching and learning yet retains the basic structure and approach so popular with its readers. Teaching and learning content has been updated, particularly taking into account the rise of task-based learning, Conversational Analysis and social models of second language acquisition, changes in national syllabuses and examinations and the increasing controversy over the role of the native speaker target. Each chapter has been revised to stand alone, enabling the text to be taught and studied out of sequence if preferred. A set of focussing questions has also been added to each and further reading sections have been updated. In addition, icons appear throughout the text signalling where extra information - summaries, data, lecture notes, test batteries and more - can be found on the author's accompanying website, www.routledge.com/cw/cook. Second Language Learning and Language

Teaching remains the essential textbook for all student teachers of modern languages and TESOL as well as applied linguistics.

English Pronunciation Instruction: Research-based insights presents recent research on L2 English pronunciation including pedagogical implications and applications, and seeks to bridge the gulf between pronunciation research and teaching practice. The volume's 15 chapters cover a range of aspects that are central to pronunciation teaching, including the teaching of different segmental and suprasegmental features, teachers' and learners' views and practices, types and sources of learners' errors, feedback and assessment, tools and strategies for pronunciation instruction, reactions towards accented speech, as well as the connection between research and teaching. Chapters offer a fully developed section on pedagogical implications with insightful suggestions for classroom instruction. This format and the variety of topics will be informative for researchers, language teachers, and students interested in English pronunciation, as it explores the diverse challenges learners of different L1 backgrounds face, and also provides research-informed techniques and recommendations on how to cope with them.

Face2face Elementary Student's Book with DVD-ROM OUP Oxford

This book offers practical research-based advice for teachers and other educators on how to adapt school and classroom procedures, curriculum content, and instructional strategies in order to provide a supportive learning environment for students of minority language backgrounds who are learning

the language of instruction at the same time as they are learning the curriculum.

This book will help teachers design effective curriculum for their students with diverse learning abilities. The authors have created a guided process to apply MI theory to the elementary school classroom. The five pathways, or approaches examined: Exploration, Bridging, Understanding, Authentic Problems, and Talent Development, represent the ways in which MI can be implemented and nurtured across the elementary grades. The Pathways Model promotes and supports the development of a well-grounded understanding of MI theory to inform goal-setting and planning for using multiple intelligences theory in the classroom. Each pathway addresses a different set of goals and provides appropriate guidelines and examples.

New Headway: Elementary Fourth Edition: Student's Book and iTutor Pack Multilingual Matters

Deaf and hard-of-hearing students form a specific group of foreign language learners. They need to use foreign languages just like their hearing peers if they want to enjoy the same benefits of globalization and technical advancements of today, yet they cannot take part in the same foreign language education. As sign language users, lip-readers or persons relying on hearing aids or cochlear implants in their everyday communication, they need special support in learning a foreign language. This book has been written by teachers and researchers involved in teaching English as a foreign language (EFL) to deaf and hard-of-hearing students in various different European countries, including the Czech Republic, France, Hungary, Norway, Poland, and Serbia. The chapters mirror both the authors' personal journeys through this field and give insight into various aspects of empirical research into the foreign language acquisition of hearing-impaired learners. They discuss mainly

the issue of specific methodology for teaching EFL vocabulary, grammar, reading, writing and speaking to deaf and hard-of-hearing persons and the challenge of effective communication during the classes via sign language, cued speech or the oral approach. Special chapters are also devoted to EFL teachers' experience in special schools for the deaf. Educators interested in practical advice, responses to challenges and worked-out solutions to problems will particularly welcome this book as a useful source of ideas. It will also help novice teachers embarking on their careers in English language education for deaf and hard-of-hearing children and adults.

Talk a Lot Spoken English Course - Elementary Book 1 Oxford University Press

It's tough to be an out-of-work princess. After her royal father decides to retire and become a wood carver, Princess

Paulina has no idea what to do with herself. She can't survey the kingdom from her leaky cottage roof, and no one waves back when she proceeds through the town on her father's cart. When she hears that a neighboring queen is seeking a bride for her son, Prince Drupert, Paulina sees her chance to get back to princessing. But it will take all her wit and determination to pass the Queen's tests. . . . and in the end, maybe there are better fates than a royal marriage. Full of tongue-in-cheek references to stories like Rapunzel, Snow White, and the Princess and the Pea, this fractured fairy tale is an hilarious twist on traditional tales in which a young woman's practicality, good humor, and intelligence let her shape her own happy ending— with extra cheese and all the toppings her heart desires.
