The Islamic Turks were poised to overrun Europe at The Battle of Vienna on September 11/12 of 1683, but were defeated. The Islamic Invasion As Mosques appear across the country people are asking-"What do I need to Know about Islam?" Islam-once an obscure Middle Eastern religion-has rapidly grown into the second largest religion in the world. There are now more Muslims than Episcopalians in the United States! What attraction does

Islam hold for its followers? What part does it play in shaping the outlook and attitudes of nearly one billion people? Noted author Dr. Robert A. Morey, internationally recognized authority on the origins of the teachings and rituals of Islam- explores the pre-Islamic history of Allah, and the doctrines and customs of Islam reveals Islam's teaching about current issues such as religious freedom and the role of women. The Islamic Invasion will give you the insight you need to understand Islam and the challenge it poses today. Dr. Morey warned the United States and Europe about Islam during the early 1980's long before 9/11. Most books on Islam since 9/11 have used his analysis of the Qur'an or Hadith. Special thanks to Professor Colin Akridge-who is a Vietnam Veteran and black scholar in the field of comparative religions-for his valuable and insightful contributions and working with him for researching and writing the section entitled The Black Muslim Movement in America. The Crime of Rape Xulon Press
FORENSIC INVESTIGATOR Geoff

Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in 1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out – and which it was impossible for him to forget. Geoff's day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther McKay, fellow forensic investigator and author of the best-selling *Crime Scene*, heard that Geoff has been awarded maximum compensation for his suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

ALMuwatta BRILL

'It is not surprising that *The Story of Zahra* is banned in several Arab countries. Subtle as it is, there is a subversive truthfulness to this portrait of a modern Arab family that is far removed from any bland ideal.' *Sunday Times* 'In this impressive and eloquent novel, al-Shaykh has lifted the corner of a dark curtain.' *Sunday Telegraph* 'Haunted by memories of deception and betrayal, Zahra leaves Lebanon to visit her uncle in political exile in West Africa, taking with her the uncomfortable secrets of her seduction. Returning uncomforted to Beirut, Zahra re-enters a world of

explosions, shootings, arbitrary death - and loveless marriage. What could possibly make more sense than to use her own body to divert a sniper from his task? Out of the terror of war, and of sexual confusion and abuse, comes a strange fulfilment of Zahra's search for ecstasy and for freedom. And every reader will dream with her of how life could be - if only the war were over.

Islam, Women's Sexuality and Patriarchy in Indonesia Silent Desire

This book explores the intimate marital relationships of Indonesian Muslim married women. As well as describing and analysing their sexual relationships, the book also investigates how Islam influences discourses of sexuality in Indonesia, and in particular how Islamic teachings affect Muslim married women's perceptions and behaviour in their sexual relationships with their husbands. Based on extensive original research, the book reveals that Muslim women perceive marriage as a social, cultural, and religious obligation that they need to fulfil; that they realise that finding an ideal marriage partner is complicated, with some having

the opportunity for a long courtship and others barely knowing their partner prior to marriage; and that there is a strong tendency, with some exceptions, for women to consider a sexual relationship in marriage as their duty and their husband's right. Religious and cultural discourses justify and support this view and consider refusal a sin (dosa) or taboo (pamali). Both discourses emphasise obedience towards husbands in marriage.

Lupton's newest edition of *Medicine as Culture* is more relevant than ever. Trudy Rudge, Professor of Nursing, University of Sydney A welcome update of a text that has become a mainstay of the medical sociologist's library. Alan Radley, Emeritus Professor of Social Psychology, Loughborough University *Medicine as Culture* introduces students to a broad range of cross-disciplinary theoretical perspectives, using examples that emphasize bodies and visual images. Lupton's core contrast between lay perspectives on illness and medical power is a useful beginning point for courses teaching health and illness from a socio-

cultural perspective. Arthur Frank, Department of Sociology, University of Calgary *Medicine as Culture* is unlike any other sociological text on health and medicine. It combines perspectives drawn from a wide variety of disciplines including sociology, anthropology, social history, cultural geography, and media and cultural studies. The book explores the ways in which medicine and health care are sociocultural constructions, ranging from popular media and elite cultural representations of illness to the power dynamics of the doctor-patient relationship. The Third Edition has been updated to cover new areas of interest, including: - studies of space and place in relation to the body - actor-network theory as it is applied in research related to medicine - The internet and social media and how they contribute to lay health knowledge and patient support - complementary and alternative medicine - obesity and fat politics. Contextualising introductions and discussion points in every chapter makes *Medicine as Culture*, Third Edition a rigorous yet accessible text for students. Associate in the Department of Sociology and Social Policy, University of Sydney.

Compiled during the reign of Mansur, the second Abbasid Caliph, Muwatta' of Imam Malik passed his entire life in Medina and, therefore, had direct access to the most reliable authorities on hadith because most of the leading Companions and their Successors lived and died there and narrated traditions. The Muwatta' is based on the traditions narrated by them and the

juristic verdicts given by them, and thus it deals only with such ahadith as have a bearing on juristic verdicts.

Independently Published

In this study of sexual violence and rape in French medieval literature and law, Kathryn Gravdal examines an array of famous works never before analyzed in connection with sexual violence. Gravdal demonstrates the variety of techniques through which medieval discourse made rape acceptable: sometimes through humor and aestheticization, sometimes through the use of social and political themes, but especially through the

romanticism of rape scenes.
