The changes in this interim revision were made to adjust nomenclature and increase dispatch flexibility. All changes are reflected in the highlights of change listed below and are indicated by revision bars in the associated ATA section.Master Minimum Equipment List (MMEL)A Boeing 777-300ER ordered by Aeroflot - customer code M0 - would be designated 777-3M0ER. The codes do not change if

the aircraft is subsequently sold, although in some cases if an airline cancelled or sold their order before Boeing had delivered the airframe the customer code would be changed to that of the new purchaser. List of Boeing customer codes - Wikipedia program for the 747-100/-200/-300 (i.e., 747 Classic). Because the 747 Classic and 747-400 are structurally similar, Boeing and the industry decided to update the maintenance program for the 747-400 at the same time. The revised maintenance requirements comply with industrywide maintenance practices developed by the Air Transport Association (ATA) 747 - Boeing. An aircraft type designator is a two-, three- or four-character alphanumeric code designating every aircraft type (and some sub-types) that

may appear in flight planning. These codes are defined by both the International Civil Aviation Organization and the International Air Transport Association.
