Constantine Baker

 Christians form the third largest religious community in India. How has this come about? There are many studies of separate groups: but there has so far been no major history of the three large groups - Roman Catholic, Protestant and Thomas Christians (Syrians). This work attempts to meet the need for such a history. It goes right back to the

beginning and traces the story through the ups and downs of at least fifteen centuries. It includes careful studies of the political and social background and of the non-Christian reactions to the Christian message. The narration is non-technical and should present few difficulties to the thoughtful reader; the more technical matters are dealt with in notes and appendices. This book will be of interest

to all students of Church History and will also prove fascinating to many who are concerned with the development of Christianity as a world religion and in the dialogue between different forms of faith.
A New History of Christianity
 Princeton University Press
 "Tracing the astonishing transformation that the early Christian church underwent - from sporadic niches of Christian

communities surviving in the wake of a horrific crucifixion to sanctioned alliance with the state - Charles Freeman shows how freedom of thought was curtailed by the development of the concept of faith. The imposition of 'correct belief' and an institutional framework that enforced orthodoxy were both consolidating and stifling. Uncovering the church's relationships with Judaism,

Gnosticism, Greek philosophy and Greco-Roman society, Freeman offers dramatic new accounts of Paul, the resurrection, and the church fathers and emperors."--

History of Christianity

Cambridge University Press
This volume in the Cambridge History of Christianity presents the 'Golden Age' of patristic Christianity.

After episodes of persecution by the Roman government, Christianity emerged as a licit religion enjoying imperial patronage and eventually became the favoured religion of the empire. The articles in this volume discuss the rapid transformation of Christianity during late antiquity, giving specific consideration to artistic, social, literary, philosophical, political, inter-religious and cultural aspects. The

volume moves away from simple dichotomies and reductive schematizations (e.g., 'heresy v. orthodoxy') toward an inclusive description of the diverse practices and theories that made up Christianity at this time. Whilst proportional attention is given to the emergence of the Great Church within the Roman Empire, other topics are treated as well - such as the development of Christian

communities outside the empire. *The History of the Christian Religion and Church During the Three First Centuries* Harper Collins

A new narrative history of medieval Christianity, spanning from A.D. 500 to 1500, focuses on the role of women in Christianity; the relationships among Christians, Jews and Muslims; the experience of ordinary parishioners; the adventure of asceticism, devotion and worship; and instruction through drama, architecture and art.

A History of Christianity in Asia, Vol. II B&H Publishing Group

First published in 1976, Paul Johnson's exceptional study of Christianity has been loved and widely hailed for its intensive research, writing, and magnitude—"a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical" (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year AD 49 with his namesake the apostle Paul. Thus beginning an ambitious

quest to paint the centuries since the founding of a little-known 'Jesus Sect', A History of Christianity explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around

the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work. [A Brief History of Christianity](#) Lion Hudson Explores twelve pivotal events in the history of Christianity ranging from the fall of

Jerusalem and the coronation of Charlemagne to the Edinburgh Missionary Conference. **Eerdmans' Handbook to the History of Christianity** Penguin UK Indonesia is the home of the largest single Muslim community of the world. Its Christian community, about 10% of the population, has until now received no overall description in English. Through cooperation of

26 Indonesian and European scholars, Protestants and Catholics, a broad and balanced picture is given of its 24 million Christians. This book sketches the growth of Christianity during the Portuguese period (1511-1605), it presents a fair account of developments under the Dutch colonial administration (1605-1942) and is more elaborate for the period of the Indonesian Republic (since 1945).

It emphasizes the regional differences in this huge country, because most Christians live outside the main island of Java. Muslim-Christian relations, as well as the tensions between foreign missionaries and local theology, receive special attention.

[Introduction to the History of Christianity, Second Edition](#) BRILL This book is a

history of Christianity from its earliest beginnings to the end of the twentieth century. The book provides students with an introduction to the many persons, places, movements, and events necessary for the telling of our story, the story of the Church. This history of Christianity is told in its essentials, simply and straightforwardly for students with little or no experience in

the academic study of religion. It is a story told within the complex contexts of larger world events and world cultures, but defined and simplified by attention to those developments which have proven most influential for the past and present shaping of Church thought and practice. The book is a comprehensive and definitive introduction to the history of Christianity. It provides

students with the necessary outline and description of the broad sweep of movements and periods in this history, but it also pauses at important points to provide details about the lives of Christians as lived at various times and in various locations. This story is told in easy-to-understand prose and with illustrative photographs, maps and charts.

years. Once again readers will benefit from his insights on the United States and Canada in this superb narrative survey of Christian churches, institutions, and cultural engagements from the colonial period through 2018. A Short World History of Christianity, Revised Edition Harper Collins Christianity is in crisis in the West. The Inklings friend of C.S. Lewis and J.R.R. Tolkien, Owen Barfield,

analysed why. He developed an account of our spiritual predicament that is radical and illuminating. Barfield realized that the human experience of life shifts fundamentally over periods of cultural time. Our perception of nature, the cosmos and the divine changes dramatically across history. Mark Vernon uses this startling insight to tell the inner story of 3000 years of Christianity, beginning

from the earliest Biblical times. Drawing, too, on the latest scholarship and spiritual questions of our day, he presents a gripping account of how Christianity constellated a new perception of what it is to be human. For 1500 years, this sense of things informed many lives, though it fell into crisis with the Reformation, scientific revolution and Enlightenment . But the story

does not stop there. Barfield realised that there is meaning in the disenchantment and alienation experienced by many people today. It is part of a process that is remaking our sense of participation in the life of nature, the cosmos and the divine. It's a new stage in the evolution of human consciousness .
