Glencoe's Algebra 1 and Algebra 2 balance sound skill and concept development with applications, connections, problem solving, critical thinking, and technology. Whether your students are getting ready for college or the workplace, this program gives them the skills they need for success. Integration occurs within

and across lessons and exercises at the point of instruction. Continual real-life, practical applications keep students excited about learning. Interdisciplinary connections show your students how mathematics relates to science, history, geography, health, careers, and life. Long-term Investigation projects engage students in interesting and relevant applications of mathematics. Modeling Mathematics empowers students to think mathematically as they use charts, graphs, concrete models, hands-on manipulatives, open-ended questions, and chapter projects to discover mathematical concepts. Graphing Technology lessons makes the focus on modeling and functions attractive and accessible to all students.

Math Connects: Concepts, Skills, and Problem Solving was written
 by the authorship team with the end results in mind. They looked
 at the content needed to be successful in Geometry and Algebra
 and backmapped the development of mathematical content,
 concepts, and procedures to PreK to ensure a solid foundation
 and seamless transition from grade level to grade level. The
 series is organized around the new NCTM Focal Points and is
 designed to meet most state standards. Math Connects focuses
 on three key areas of vocabulary to build mathematical literacy,
 intervention options aligned to RtI, and a comprehensive
 assessment system of diagnostic, formative, and summative
 assessments.
