Tamil Cinema in the Twenty-First Century explores the current state of Tamil cinema, one of India's largest film industries. Since its inception a century ago, Tamil cinema has undergone major transformations, and today it stands as a foremost cultural institution that profoundly shapes Tamil culture and identity. This book investigates the structural, ideological, and societal cleavages that continue to be reproduced,

new ideas, modes of representation and narratives that are being created, and the impact of new technologies on Tamil cinema. It advances a critical interdisciplinary approach that challenges the narratives of Tamil cinema to reveal the social forces at work.

 The Wild East bridges political economy and anthropology to examine a variety of il/legal economic sectors and businesses such as red sanders, coal, fire, oil, sand, air spectrum, land, water, real estate,

procurement and industrial labour. The 11 case studies, based across India, Pakistan and Bangladesh, explore how state regulative law is often ignored and/or selectively manipulated. The emerging collective narrative shows the workings of regulated criminal economic systems where criminal formations, politicians, police, judges and bureaucrats are deeply intertwined. By pioneering the field-study of the politicisation of economic crime, and disrupting the wider literature on South Asia's informal economy, *The Wild East* aims to influence future research agendas through its case for the study of mafia-enterprises and their engagement with governance in South Asia and outside. Its empirical and theoretical contribution to debates about economic crimes in democratic regimes will be of critical value to researchers in Economics, Anthropology, Sociology, Comparative Politics, Political Science and International Relations, Criminologists and Development Studies, as well as to those inside and outside academia interested in current affairs and the relationship between crime, politics and mafia enterprises.

In 1957, intense caste violence broke out in south-eastern Tamil Nadu between the regionally dominant caste of Thevars, and Devendrakula Vellalars (Pallars), a Dalit community. The violence was triggered by the legislative assembly by-election, following U. Muthuramalinga Thevar's resignation. In the peace conference organized by the local administration, Muthuramalinga Thevar objected to the presence of Immanuel Sekaran as a Dalit representative. The following day Immanuel was killed. In the police search following the murder five Thevars were shot, leading to a cycle of violence. Etched in popular memory as the Mudukulathur Riots, the event is invoked both by Thevars and Pallars. While Thevars remember it for the state violence, Pallars not only recollect it for the upper-caste violence, but also as an instance of their brave resistance. In the years following the riots both communities have used the memory of Mudukulathur for political mobilisation, and the event continues to have strong resonance in contemporary politics. Murder in Mudukulathur is the first extended study of this watershed moment. Drawing on a vast amount of primary sources, the author narrates the sequence of events leading to the caste conflagration of 1957, and its political and social fallout. He also provides a historical road map to the caste-laced discourse of politics in contemporary Tamil Nadu.

The Komagata Maru incident has become central to ongoing debates on Canadian racism, immigration, multiculturalism, citizenship and Indian nationalist resistance. The chapters presented in this book, written by established and emerging historians and scholars in literary, cultural, religious, immigration and diaspora studies, revisit the ship's ill-fated journey to throw new light on its impact on South Asian migration and surveillance, ethnic and race relations, anticolonial and postcolonial resistance, and citizenship. The book draws on archival resources to offer the first multidisciplinary study of the historic event that views it through imperial, regional, national and transnational lenses and positions the journey both temporally and spatially within micro and macro histories of several regions in the British Empire. This volume contributes to the emerging literature on migration, mobilities, borders and surveillance, regionalism and transnationalism. Apart from its interest to

scholars of diaspora and nationalism, this book will deeply resonate with those interested in imperialism, migration, transnationalism, Punjab and Sikh studies. This book was originally published as a special issue of the journal *South Asian Diaspora*.

From Haryana to Gujarat to Maharashtra, numerous Indian states have been witness to protests by backward classes pressing for quotas and reservations. In stark contrast is the exemplary case of Tamil Nadu, which has managed to effectively integrate economic and development agenda for the backward classes into state policy. In the fifty years of rule between them, M. Karunanidhi, MGR, and J. Jayalalithaa—the iconic leaders of Tamil Nadu politics—managed to effectively transform institutions and structures to deliver a social welfare agenda in the state. Was it pure charisma on part of these leaders that gave us the unusual story of politicians and bureaucrats working hand in hand to implement a social agenda? Written by S. Narayan, who as part of the administration was both a witness to and a participant in these developments, this book is an intimate narrative on the Dravidian years of Tamil Nadu. At an important juncture of Tamil Nadu politics, it also makes us wonder: With no charismatic leader in the horizon, who can take the state forward?

This book provides new insights and research studies on how developing countries come to terms with the nationalisation policies of Gulf economies that provide employment for their nationals. Focusing on regions and countries that have traditionally been overlooked, it includes studies on labour

migration from Egypt to the Middle East and from the Philippines to Lebanon, migrant experiences and policy prospects in Saudi Arabia and Lebanon, and Indian migration to the Gulf. The book fills a critical gap in migration research by studying migration from various Indian states, such as Tamil Nadu, Telugu-speaking states (Telangana and Andhra Pradesh), Rajasthan and Uttar Pradesh. It also explores the unexpected phenomenon of demographic windows of economic opportunity (not documented in demographic literature) observed in a few Arab countries due to older migrant expatriates returning to their home country; the impact of international out-migration on intergenerational educational mobility among children in migrant-sending households in Kerala; and forced migration of Kerala Muslims to the Gulf.

This handbook marks a key intervention in refugee studies in India—home to diverse groups of refugees, including an entire government in exile. It unravels the

various socio-economic, political, and cultural dimensions of refugee issues in India. The volume examines the various legal, political, and policy frameworks for accommodating refugees or asylum seekers in India, including the Citizenship Amendment Act and the National Registry of Citizens. It evaluates the lack of uniformity in the Indian legal and political framework to deal with its refugee population and analyzes the grounds of inclusion or exclusion for different groups. Drawing from the experiences of Jewish, Tibetan, Pakistani, Bangladeshi, Sri Lankan, Afghan, and Rohingya refugees in India, it analyzes debates around marginalization, citizenship, and refugee rights. It also explores the spatial and gendered dimensions of forced migration and the cultural and social lives of displaced communities, including their quest for decent work, education, and health. The volume will be an indispensable reference for scholars, lawyers, researchers, and students of refugee studies, migration and diaspora studies, public policy, social policy and development studies.

The Immoral Traffic (Prevention) Act, 1956 ABC-CLIO

The present book focuses on various

issues and threats pertaining to internal security, the various factors and non-state actors creating the threat, the initiatives by the police to strengthen internal security by involving community and how the community participation can strengthen those initiatives by enhancing the community policing measures. The study is focussed on Hyderabad. There are multiple manifestations of internal security which are both implicit and explicit. 'Communalism' has been identified as one of the principal threats to internal security with specific reference to Hyderabad. In this background it is highly desirable and

required to strengthen 'community' to face any eventualities and encourage working and functional partnership with security and law enforcement agencies especially the police forces. Police or community alone cannot manage security concerns. In these globalized times strong partnership between community and police is mandatory. The book based on primary research tries to establish that community policing can be a significant factor in addressing the internal security threats.
