Step-By-Step Guide Reveals How To Create Multiple Passive Income Streams And Make Money While You Sleep ...  
Newbie-Friendly... No Prior Online Experience Required! Earning a truly passive income is the end goal of the vast majority of internet marketers and you could very easily consider it to be an absolutely ideal situation in terms of finances and business. What is passive income? Simple: it means that you earn money

without having to work. That doesn't mean you haven't worked for it though – it just means you've sowed your seeds so that you can profit long into the future. In other words, you invest some time and money into setting up a business model that is capable of 'running itself' and from then on, you reap the benefits. You might even continue to work on the business model in your spare time to scale it further, or to keep it going, but the point is that you don't have to

actively trade your time for money any more. Once you have a passive business model, you can literally continue to earn money while you're sleeping. Working online increases your freedom to a great extent because it allows you to choose how and when you work. But if you're providing a service to a client, then that's still not true freedom. At the end of the day, if you take time off, you lose money. And you can still upset your clients and end up losing your means of income. But with passive

income, you really do get to experience true freedom. Now you can choose to take the entire day off, or to refrain from working for the next week even and there will be no repercussions.

Passive income is becoming more popular by the day. However, many people still do not understand how beneficial it is. Believe it or not, making money in your

sleep is not the biggest benefit. This book outlines more important reasons why everyone should seek a passive income stream or be in the process of creating one. I also offer semi passive strategies. Planning for retirement should not be a huge headache—unless you think that you can only

prepare for retirement by saving. If a sudden change in your life or the economy happens, your savings may not be very helpful in retirement. It is no secret that savings are just not enough. You will have unexpected expenses especially in your old age and you are likely to underestimate the amount you should

save. People are living longer nowadays but that should not mean they want to work more years. A passive income stream means that you will have constant cash flow. You will be getting an amount of money regularly, unlike with savings. It will be like getting a paycheck without actively working.
