The Austin Family Chronicles Penguin
Fifteen-year-old Charles Wallace and the unicorn Gaudior embark on a journey through time and peril to prevent the destruction of the world by the mad dictator Madog Branzillo. Simultaneous.
Meet the Austins Farrar, Straus and Giroux (BYR)
#1 New York Times Bestseller “THIS.
This is the right book for right now. Yes,

learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In *Think Again*, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I’ve never felt so hopeful about what I don’t know.”
—Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead*
The bestselling author of *Give and Take* and *Originals* examines the critical art of

rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that

our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates

how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. Think Again reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom. The Rise and Fall of an American Myth

A quiet visit with her grandparents turns into a lesson in the fluidity of time for Polly O'Keefe when she meets several strangers from overlapping temporal planes and, with them, plays a key role in a prehistoric confrontation.

A Wind in the Door Farrar, Straus and Giroux (BYR)

Fifty years ago, Madeleine L'Engle introduced the world to A Wrinkle in Time and the wonderful and unforgettable characters Meg and Charles Wallace Murry, and their friend Calvin O'Keefe. Now their first three adventures are together in one volume. In the Newbery Award winner A Wrinkle in Time, the children learn that Mr. Murry has been captured by the Dark Thing,

and they must time travel to Camazotz to save him. Now a major motion picture! In *A Wind in the Door*, Meg, Calvin and Mr. Jenkins (their grade school principal) must travel inside C.W. and battle to save Charles's life—as well as the balance of the universe. And in *A Swiftly Tilting Planet*, Meg's brother Charles Wallace has twenty-four hours to stop the tragedy of nuclear war from occurring. Read the iconic novels that continue to inspire millions of fans around the world. Praise for the *A Wrinkle in Time* Trilogy: “*A Wrinkle in Time* is one of my favorite books of all time. I've read it so often, I know it by heart. Meg Murry was my hero growing up. I wanted glasses and braces and my parents to stick me in an attic bedroom. And I so wanted to save Charles Wallace

from IT.” —Meg Cabot on *A Wrinkle in Time* “A book that every young person should read, a book that provides a road map for seeking knowledge and compassion even at the worst of times, a book to make the world a better place.” —Cory Doctorow on *A Wrinkle in Time* “A suspenseful, life-and-death drama that is of believable cosmic significance. Complex and rich in mystical religious insights, this is breathtaking entertainment.” —School Library Journal, starred review on *A Wind in the Door* “Madeleine L'Engle mixes classical theology, contemporary family life, and futuristic science fiction to make a completely convincing tale that should put under its spell both readers familiar with the Murrys and those meeting them for the first time.” —The New York Times

Book Review on A Wind in the Door “An intricately woven fantasy. . . . Theme is L’Engle’s greatest forte, and once again she proves this with a compelling plot, rich in style that vibrates with provocative thoughts on universal love, individual caring, and the need for the joy in living.” —Booklist, starred review on A Swiftly Tilting Planet Books by Madeleine L’Engle A Wrinkle in Time Quintet A Wrinkle in Time A Wind in the Door A Swiftly Tilting Planet Many Waters An Acceptable Time A Wrinkle in Time: The Graphic Novel by Madeleine L’Engle; adapted & illustrated by Hope Larson: A graphic novel adaptation of Madeleine L’Engle’s ground-breaking science fiction and fantasy classic. Book two in the award-winning young adult Austin Family Chronicles series from Madeleine L’Engle, author of A Wrinkle in Time, Vicky Austin experiences the difficulties and joys of growing up. As if simply being fourteen-years-old weren’t bad enough—what

with the usual teenage angst and uncertainty, Vicky Austin's always comforting and reliable home life is changing completely. Her brother John is going off to college in the fall. Maggy, an orphan taken in by the Austins two years ago, has gone to live with her legal guardian. And the rest of Vicky's family is moving from their quiet house in the country to the heart of New York City. But before the big move, the entire Austin family is taking a meandering trip across the country in their station wagon, stopping to camp along the way, with no set schedule and not a single night of camping experience among them. Wild animal attacks. Life-threatening natural disasters. Cute boys on the prowl. Anything can happen in the great outdoors. Books by Madeleine

This New York Times bestselling “deep dive into the terms of eight former presidents is chock-full of political hijinks—and *déjà vu*” (Vanity Fair) and provides a fascinating look at the men who came to the office without being elected to it, showing how each affected the nation and world. The strength and prestige of the American presidency has waxed and waned since George Washington. Eight men have succeeded to the presidency when the incumbent died in office. In one way or another they vastly changed our history. Only Theodore Roosevelt would have been elected in his own right. Only TR, Truman, Coolidge, and LBJ were re-elected. John Tyler succeeded William Henry Harrison who died 30 days into his term. He was kicked out of his party and

became the first president threatened with impeachment. Millard Fillmore succeeded esteemed General Zachary Taylor. He immediately sacked the entire cabinet and delayed an inevitable Civil War by standing with Henry Clay’s compromise of 1850. Andrew Johnson, who succeeded our greatest president, sided with remnants of the Confederacy in Reconstruction. Chester Arthur, the embodiment of the spoils system, was so reviled as James Garfield’s successor that he had to defend himself against plotting Garfield’s assassination; but he reformed the civil service. Theodore Roosevelt broke up the trusts. Calvin Coolidge silently cooled down the Harding scandals and preserved the White House for the Republican Herbert Hoover and the Great Depression. Harry

Truman surprised everybody when he succeeded the great FDR and proved an able and accomplished president. Lyndon B. Johnson was named to deliver Texas electorally. He led the nation forward on Civil Rights but failed on Vietnam. *Accidental Presidents* shows that “history unfolds in death as well as in life” (The Wall Street Journal) and adds immeasurably to our understanding of the power and limits of the American presidency in critical times. *A Wind from the Wilderness* Farrar, Straus and Giroux (BYR) Discover stories that inspire a "great capacity for wonder" (New York Times) from the beloved author of *A Wrinkle in Time*: named one of the spring's most anticipated books (Good Housekeeping), this collection transcends generational

divides to highlight the power of hope and joy. This powerful collection of short stories traces an emotional arc inspired by Madeleine L'Engle's early life and career, from her lonely childhood in New York to her life as a mother in small-town Connecticut. In a selection of eighteen stories discovered by one of L'Engle's granddaughters, we see how L'Engle's personal experiences and abiding faith informed the creation of her many cherished works. Some of these stories have never been published; others were refashioned into scenes for her novels and memoirs. Almost all were written in the 1940s and '50s, from Madeleine's college years until just before the publication of *A Wrinkle in Time*. From realism to science-fiction to fantasy, there is something for everyone in this

magical collection. Includes a Reading Group Guide MOST ANTICIPATED by The Millions * Time * Salon * The Lily * BookRiot * PopSugar * Gizmodo * Bustle * Tor * SheReads * Parade * The Christian Science Monitor

The Velveteen Daughter reveals for the first time the true story of two remarkable women: Margery Williams Bianco, the author of one of the most beloved children's books of all time, The Velveteen Rabbit, and her daughter Pamela, a world-renowned child prodigy artist whose fame at one time greatly eclipses her mother's. But celebrity at such an early age exacts a great toll. Pamela's dreams elude her as she struggles with severe depressions, an overbearing father, an obsessive love

affair, and a spectacularly misguided marriage. Throughout, her life raft is her mother. The glamorous art world of Europe and New York in the early 20th century and a supporting cast of luminaries—Eugene O'Neill and his wife Agnes (Margery's niece), Pablo Picasso, Gertrude Vanderbilt Whitney, and Richard Hughes, author of *A High Wind in Jamaica*—provide a vivid backdrop to the Biancos' story. From the opening pages, the novel will captivate readers with its multifaceted and resonates with its multifaceted and illuminating observations on art, family, and the consequences of genius touched by madness.

Forget the Alamo Farrar, Straus and Giroux (BYR)

In A Wrinkle in Time Quintet book two, Meg Murry, now in college, time travels with her twin brothers, Sandy and Dennys, to a desert oasis that is embroiled in war. Sandy and Dennys have always been the normal, run-of-the-mill ones in the extraordinary Murry family. They garden, make an occasional A in school, and play baseball. Nothing especially interesting has happened to the twins until they accidentally interrupt their father's experiment. Then the two boys are thrown across time and space. They find themselves alone in the desert, where, if they believe in unicorns, they can find unicorns, and whether they believe or not, mammoths and manticores will find them. The twins

are rescued by Japheth, a man from the nearby oasis, but before he can bring them to safety, Dennys gets lost. Each boy is quickly embroiled in the conflicts of this time and place, whose populations includes winged seraphim, a few stray mythic beasts, perilous and beautiful nephilim, and small, long lived humans who consider Sandy and Dennys giants. The boys find they have more to do in the oasis than simply getting themselves home--they have to reunite an estranged father and son, but it won't be easy, especially when the son is named Noah and he's about to start building a boat in the desert. From a writer who's on a roll, fourteen stories that range freely through the historical past and contemporary life,

touching on longing and love, loss and friendship, and a great many passions in between. It's the strongest collection yet from Julian Barnes. From an imperial capital in the eighteenth century to Garibaldi's adventures in the nineteenth, from the vineyards of Italy to the English seaside in our time, Julian Barnes finds the "stages, transitions, arguments" that define us. A newly divorced real estate agent can't resist invading his reticent girlfriend's privacy, but the information he finds reveals only his callously shallow curiosity. A couple comes together through an illicit cigarette and a song shared over the din of a Chinese restaurant. A widower revisiting the Scottish island he'd treasured with his wife learns how difficult it is to purge oneself of grief. And throughout, friends

gather regularly at dinner parties and perfect the art of cerebral, sometimes bawdy banter about the world passing before them. Whether domestic or extraordinary, each story pulses with the resonance, spark and poignant humor for which Barnes is justly heralded.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother

had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist

who disappeared while engaged in secret work for the government on the tesseract problem.

The Time Quartet Farrar, Straus and Giroux (BYR)

In this award-winning young adult series from Madeleine L'Engle, author of *A Wrinkle in Time*, Vicky Austin experiences the difficulties and joys of growing up. The Austins are trying to settle into their new life in New York City, but their once close-knit family is pulling away from each other. Their father spends long hours alone in his study working on the research project that brought the family to the city. John is away at college. Rob is making friends with people in the neighborhood: newspaper vendors, dog walkers, even the local rabbi. Suzy is blossoming into a

vivacious young woman. And Vicky has become closer to Emily Gregory, a blind and brilliant young musician, than to her sister Suzy. With the Austins going in different directions, they don't notice that something sinister is going on in their neighborhood—and it's centered around them. A mysterious genie appears before Rob and Emily. A stranger approaches Vicky in the park and calls her by name. Members of a local gang are following their father. The entire Austin family is in danger. If they don't start telling each other what's going on, someone just might get killed.

Moving and romantic, this coming-of-age story was written during the 1940s. As revealed in an introduction by the author's granddaughter Léna Roy, the protagonist Elizabeth is close to an

autobiographical portrait of L'Engle herself as a young woman—"vibrant, vulnerable, and yearning for love and all that life has to offer." During the summer of 1946, twenty-year-old Elizabeth is doing what she has dreamed of since she was a little girl: working in the theatre. Elizabeth is passionate about her work and determined to learn all she can at the summer theatre company on the sea where she is an apprentice actress. She's never felt so alive. And soon she finds another passion: Kurt Canitz, the dashing young director of the company, and the first man Elizabeth's ever kissed who has really meant something to her. Then Elizabeth's perfect summer is profoundly shaken when Kurt turns out not to be the kind of man she thought he was. Books

The Arm of the Starfish Turtleback

"An unusual and beautiful book," the
first novel by the bestselling author of A
Wrinkle in Time explores the life of a
young artist (Los Angeles Times). At only
ten years old, Katherine Forrester has
already experienced her fair share of
upheaval. It has been three years since
she last saw her mother, a concert
pianist whose career was cut short by a
terrible accident. After a brief reunion,
tragedy strikes once more, forcing
Katherine from the familiarity of New
York City to a foreign Swiss boarding
school. Far from home, she struggles

with the challenges of growing up. Stifled by her daily routine and the pettiness of her classmates, Katherine's piano lessons with a gifted young teacher provide an anchor in the storm. After graduation, she follows in her mother's footsteps, pursuing a career as a pianist in Greenwich Village. There, she must learn to reconcile her blossoming relationship with her fiancé with the one consistent and dominant force in her life: music. Inspired by the author's time living among artists, *The Small Rain* follows Katherine's journey from a distraught girl to an exuberant and talented woman with the breadth and poignancy that defines Madeleine L'Engle's signature style. This ebook features an illustrated biography of Madeleine L'Engle including rare images

from the author's estate.

Think Again Farrar, Straus and Giroux (BYR)

The acclaimed, poignant story of a boy with Williams syndrome, a condition that makes people biologically incapable of distrust, a "well-researched, perceptive exploration of a rare genetic disorder seen through the eyes of a mother and son" (Kirkus Reviews). What would it be like to see everyone as a friend? Twelve-year-old Eli D'Angelo has a genetic disorder that obliterates social inhibitions, making him irrepressibly friendly, indiscriminately trusting, and unconditionally loving toward everyone he meets. It also makes him enormously vulnerable. On the cusp of adolescence, Eli lacks the innate skepticism that will help him navigate coming-of-age more

safely—and vastly more successfully. In “a thorough overview of Williams syndrome and its thought-provoking paradox” (The New York Times), journalist Jennifer Latson follows Eli over three critical years of his life, as his mother, Gayle, must decide whether to shield Eli from the world or give him the freedom to find his own way and become his own person. Watching Eli’s artless attempts to forge connections, Gayle worries that he might never make a real friend—the one thing he wants most in life. “As the book’s perspective deliberately pans out to include teachers, counselors, family, friends, and, finally, Eli’s entire eighth-grade class, Latson delivers some unforgettable lessons about inclusion and parenthood,” (Publishers Weekly).

The Boy Who Loved Too Much explores the way a tiny twist in a DNA strand can strip away the skepticism most of us wear as armor, and how this condition magnifies some of the risks we all face in opening our hearts to others. More than a case study of a rare disorder, The Boy Who Loved Too Much “is fresh and engaging...leavened with humor” (Houston Chronicle) and a universal tale about the joys and struggles of raising a child, of growing up, and of being different.

The Austin Family Chronicles ASCD

By the author of *A Wrinkle in Time*, the follow-up to *The Arm of the Starfish* has Simon and the O'Keefes trying to find a stolen painting and a murderer, all while trapped aboard a ship. Thirteen-year-old Simon Renier has no idea when he

boards the M.S. Orion with his cousin Forsyth Phair that their journey to Venezuela will be a dangerous one. His original plan—to return a family heirloom, a portrait of Simon Bolivar, to its rightful place—is sidetracked when cousin Forsyth is found murdered. When the portrait is stolen, all passengers and crew are suspects. Simon's newfound friends, Poly and Charles O'Keefe, and their scientist father help Simon try to find his painting, and his cousin's murderer. But will they succeed before they land? Or will the murderer and thief escape into the jungles of Venezuela?
