Roman Catholicism stands at a crossroads, a classic "best of time, worst of times" moment. On the one hand, the Catholic Church remains by far the largest branch of the worldwide Christian family, and is growing at a remarkable clip. Yet the

Church has also been rocked by a series of scandals related to the sexual abuse of minors by clergy, and, even more devastating, the cover-up by the Church hierarchy. The Church has enormous residual strength and exciting future prospects, but it also faces steep internal and external challenges. The author offers an authoritative and accessible guide to the past, present, and future of the Church.

*A History of Catholic Global Engagement*

Harvard University Press

An invaluable contribution to the history of the Catholic Church during the Second World War, this is a richly detailed eyewitness account of the life and politics of the Vatican by an American who worked there from 1940 to 1944. The question of whether Pius XII and the Vatican must bear blame for failing to act decisively in response to Hitler's Final Solution is as hotly debated today as in the years directly following World War II. *INSIDE THE VATICAN OF PIUS XII* presents for the first time the observations of an American diplomat who spent four years inside the Vatican. This memoir of Harold H. Tittmann, Jr., describes his encounters

with Pius XII and offers details that give a full picture of daily life in the Vatican. Writing of his own activities as a diplomat, Tittmann chronicles his role in assisting and hiding escaped prisoners of war and his experiences navigating the tensions with the representatives of enemy states, with whom he lived side by side. Deftly conveying the beauty and solemnity of events that took place in the dramatic settings of St. Peter's, the Sistine Chapel, and the Pope's private chapel, Tittmann's work will be valued by historians and students of history for generations to come.

*The Restoration of Gregorian Chant*  
Hachette UK

From the centuries-long prejudices against Catholics in America, to the efforts of Fascism, Communism and modern terrorist organizations to "break the cross and spill the wine," this book brings to life the Catholic Church's role in world history, particularly in the realm of diplomacy. Former U.S. ambassador to the Holy See Francis Rooney provides a comprehensive guide to the remarkable path the Vatican has navigated to the present day, and a first-person account of what that path

looks and feels like from an American diplomat whose experience lent him the ultimate insider's perspective. Part memoir, part historical lesson, *The Global Vatican* captures the braided nature of religious and political power and the complexities, battles, and future prospects for the relationship between the Holy See and the United States as both face challenges old and new. Updated now to include a view towards Pope Francis' first trip to the United States, *The Global Vatican* looks forward to the revitalization of the Church in this newest global papacy.

*Inside the Vatican of Pius XII* Rowman & Littlefield

The novel's protagonist is a British Roman Catholic priest, Father Percy Franklin, who looks identical to the mysterious U.S. Senator Julian Felsenburgh of Vermont. The senator appears as a lone and dramatic figure promising world peace in return for blind obedience. No one quite knows who he is or where he comes from, but his voice mesmerizes. Under his leadership, war is abolished. Felsenburgh becomes the President of Europe, then of the world, by popular acclaim. Everyone is

fascinated with him, yet still no one knows much about him. People are both riveted and frightened by the way he demands attention. Most follow without question. Having been a close observer of President Felsenburgh's rise, Father Franklin is called to Rome, a Hong Kong-style enclave ruled by Pope John XXVI and raised to the College of Cardinals. Meanwhile, defections among bishops and priests increase. At Cardinal Franklin's instigation, the pope abolishes the Eastern Catholic Churches and forms a new religious order, the Order of Christ Crucified. All its members, including the Pope, vow to die in the name of the faith.

*The Global Vatican* National Geographic Books

In the corridors of the Vatican on the eve of World War II, American Catholic priest Joseph Patrick Hurley found himself in the midst of secret diplomatic dealings and intense debate. Hurley's deeply felt American patriotism and fixed ideas about confronting Nazism directly led to a mighty clash with Pope Pius XII. It was 1939, the earliest days of Pius's papacy, and controversy within the Vatican over policy toward Nazi Germany was already

heated. This groundbreaking book is both a biography of Joseph Hurley, the first American to achieve the rank of nuncio, or Vatican ambassador, and an insiders view of the alleged silence of the pope on the Holocaust and Nazism. Drawing on Hurleys unpublished archives, the book documents critical debates in Pope Piuss Vatican, secret U.S.-Vatican dealings, the influence of Detroits flamboyant anti-Semitic priest Charles E. Coughlin, and the controversial case of Croatias Cardinal Stepinac. The book also sheds light on the powerful connections between religion and politics in the twentieth century.

One Belt, One Road, and Beyond Henry Holt and Company

With more than four decades of firsthand experience reporting from Vatican City, David Willey explores the religious and personal background of Pope Francis and his ability to fulfill the promises of reform made during the first two years of his papacy. Sex crimes and cover-ups, financial scandal, declining membership, and the unprecedented resignation of its chief executive, Pope Benedict XVI. These were the ingredients of a twenty-first century crisis in the Vatican—a crisis that

might have anticipated the election of a steadily conservative pope, a career bureaucrat, and an insider. An operator. Instead they chose Francis. Using his unparalleled access and knowledge of the inner workings of the Vatican, BBC correspondent David Willey chronicles Francis's first two years as pope and analyzes what could happen in the years to come. He tells the inside story of how this most unlikely man came from "the end of the world" to lead the world's largest corporation into the future, stirring millions to interest and faith again through his frank speeches and benevolent beliefs. In putting this all into context, Willey seeks to further unravel the mysteries and conspiracies that continue to surround the worldwide headquarters of the Roman Catholic Church. The world has never seen the Church in a greater state of flux, as Francis's words and deeds have enchanted, entertained, and sometimes enraged the public. In this comprehensive biography complete with full-color photography, David Willey explores the religious and personal background of the inspirational Pope Francis, his stunning impact on the Catholic Church, the hopes

he has raised, and the legacy he will leave behind.

Vatican Diplomacy at the United Nations Simon and Schuster

To young Christians of the world, Pope Francis has a message for you: "Christ is alive, and he wants you to be alive!" In his fourth apostolic exhortation, *Christus Vivit*, Pope Francis encapsulates the work of the 2018 synod of bishops on "Young People, The Faith, and Vocational Discernment." Pope Francis has always had a special relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment *Christus Vivit* is written for and to young people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people

inspires us all. "May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet reached, have the patience to wait for us."

Did you know that the Vatican is a country--the smallest in the world? Find out the amazing history of the headquarters of the Catholic Church. It's time to elect a new pope. Hundreds of thousands of people gather in front of St. Peter's Basilica to learn who will be the next leader of the Catholic Church. A white puff of smoke from a chimney signals the cardinals--the "princes" of the church--have elected one of their own who will continue to be the leader of the faith that has been around for more than two thousand years. Author Megan Stine charts the beginning of Christianity and its hold on members of the faith as well as

the countless struggles for power (one pope was poisoned by his own men!), the building of the Vatican and creation of the Sistine Chapel, and the Secret Archives that hold papers the church has accumulated over the centuries.

*2013 TAN Books*

From a bestselling author with unprecedented access to Pope Francis, an investigative look at the recent financial scandals at the highest levels of the Vatican. A veritable war is waging in the Church: on one side, there is Pope Francis's strong message for one church of the poor and all; on the other, there is the old Curia with its endless enemies, and the old and new lobbies struggling to preserve their not-so-Christian privileges. The old guard do not back down, they are ready to use all means necessary to stay in control and continue the immoral way they conduct their business. They resist reforms sought by Pope Francis and seek to delegitimize their opponents, to isolate those who want to eliminate corruption. It's a war that will determine the future of the church. And if he loses the battle against secular interests and blackmail, Pope Francis could resign, much like his

predecessor. Based on confidential information—including top secret documents from inside the Vatican, and actual transcripts of Pope Francis's admonishments to the papal court about the lack of financial oversight and responsibility—*Merchants in the Temple* illustrates all the undercover work conducted by the Pope since his election and shows the reader who his real enemies are. It reveals the instruments Francis is using to reform the Vatican and rid it, once and for all, of the overwhelming corruption traditionally encrusted in the Roman Catholic Church. *Merchants in the Temple* is a startling book that will shock every reader. It's a story worthy of a Dan Brown novel, with its electrifying details of the trickery and scheming against the papacy—except that it is real.

Inside the World's Major East Asian Collections examines the rise of the "LAM," an acronym that stands for

libraries, archives and museums. In doing so, this book profiles leading experts—librarians, archivists and museum curators—who specialise in East Asian collections from across the world. In examining the dynamically shifting role of the cultural institution in the context of managing information and collections, this book provides important themes offered by these cultural experts in understanding the necessary professional skills, knowledge and personalities that are required for working in such environments of varying size, scope and composition in LAMs. As galleries, LAMs manage preservation and access of history and culture, and their missions and goals as cultural institutions continue to converge. As collecting institutions, LAMs share the common mandate to preserve and make accessible primary resources valuable for researchers and professionals, as well as the public. LAMs are mostly publicly funded, publicly accountable institutions collecting cultural heritage materials. Another aim of this book is to enhance the visibility and recognise the efforts of the LAM professionals as cultural institution leaders, since much of their great

contributions in the respective fields to preserving our cultural and documentary heritages have gone unnoticed outside their parent institutions. Examines the roles and goals of cultural institutions Brings collections to life through interviews with LAM experts Presents LAMs with a focus on East Asia Serves as a platform for LAM professionals to share and exchange experiences and insights  
**The Global Vatican** University of Notre Dame Press  
A deeply reported, New York Times bestselling exposé of the money and the clerics-turned-financiers at the heart of the Vatican—the world's biggest, most powerful religious institution—from an acclaimed journalist with "exhaustive research techniques" (The New York Times). From a master chronicler of legal and financial misconduct, a magnificent investigation nine years in the making, God's Bankers traces the political intrigue of the Catholic Church in "a meticulous work that cracks wide open the Vatican's legendary, enabling secrecy" (Kirkus Reviews). Decidedly not about faith, belief in God, or religious doctrine, this book is about the church's accumulation of wealth

and its byzantine financial entanglements across the world. Told through 200 years of prelates, bishops, cardinals, and the Popes who oversee it all, Gerald Posner uncovers an eyebrow-raising account of money and power in one of the world's most influential organizations. God's Bankers has it all: a revelatory and astounding saga marked by poisoned business titans, murdered prosecutors, and mysterious deaths written off as suicides; a carnival of characters from Popes and cardinals, financiers and mobsters, kings and prime ministers; and a set of moral and political circumstances that clarify not only the church's aims and ambitions, but reflect the larger tensions of more recent history. And Posner even looks to the future to surmise if Pope Francis can succeed where all his predecessors failed: to overcome the

resistance to change in the Vatican's Machiavellian inner court and to rein in the excesses of its seemingly uncontrollable financial quagmire. "As exciting as a mystery thriller" (Providence Journal), this book reveals with extraordinary precision how the Vatican has evolved from a foundation of faith to a corporation of extreme wealth and power.

**Pope Francis, Vatican Diplomacy, and America's Armageddon** Penguin

This comprehensive collection offers a concise introduction to the institutional framework of the Holy See, conceptualizing papal agency and positions from a range of international theory perspectives. The authors – international scholars from political science, history, and religious studies – explore multiple fields of papal and

Vatican influence, ranging from spy networks and inter-religious dialogue to social doctrine and religious freedom. This book demonstrates that, contrary to secularization theory, the papacy is not in decline in world politics. Since World War II, the Holy See has played a steadily increasing role in international relations. Globalization supports the role of the Catholic Church as a transnational actor not only in the advanced industrial societies of the West but also increasingly across the Global South. In this volume, the authors document the legacies of John Paul II and Benedict XVI as well as the current pontificate of Pope Francis from a range of contemporary perspectives. This book comprises research articles and commentary essays on the papacy in world politics originally published in *The Review of Faith & International Affairs*.
