"This is a bold project recording the lives of a particular group of Southeast Asians. Most of the people whose biographies are included here have settled down in the ten countries that constitute the region. Each of them has either self-identified as Chinese or is comfortable to be known as someone of Chinese ancestry. There are also those who were born in China or elsewhere who came here to work and do business, including seeking help from others who have ethnic Chinese connections. With the political and economic conditions of the region in a great state of flux for the past two centuries, it is impossible to find consistency in the naming process. Confucius had stressed that correct names make for the best relationships. In this case, Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have, in one way or another, made their homes in, or made some difference to, Southeast Asia. I believe that, when he and his colleagues selected the biographies to be included here, they have taken a big step towards the rectification of identities for many leading personalities. In so doing, he has done us all a great service." - Professor Wang Gungwu, National University of Singapore

"As a journalist grief coach and mother who lost a child, (the author) accompanies the mothers with deep compassion. She

journeys with them not only with feeling, but also with a clear understanding of the grieving... This book can serve as a good guide for grieving mothers and their families, and all those who want to help them." — Ma. Lourdes A. Carandang, MD

Postcolonial Configurations Anvil Publishing, Inc.

In *Postcolonial Configurations* Josen Masangkay Diaz examines the making of Filipino America through the dynamics of dictatorship, coloniality, and subjectivity. Diaz explores how the Ferdinand Marcos dictatorship and US policies during the Cold War that supported the regime defined the relationship between "Filipino" and "America" in ways that influenced the creation of a gendered and racialized Filipino American subject. By analyzing Philippine-US state programs for military operations, labor and immigration reform, and development and modernization plans, she shows how anticommunist liberalism and authoritarianism shaped the visibility and recognition of new forms of Filipino subjectivity. Tracing the rise of various social formations that emerged under the Marcos regime and US programs for liberal reform, from transnational Filipino and US culture and the immigrant returnee to the New Filipina woman and the humanitarian English teacher, Diaz positions literature, film, periodicals, and other cultural texts against official state records in ways that reconceptualize the meanings of Filipino America in the Cold War.

Judicial Renaissance Anvil Publishing, Inc.

The Drama of Dictatorship uncovers the role played by rival Communist parties in the conflict that culminated in Ferdinand Marcos's declaration of martial law in 1972. Using the voluminous radical literature of the period, Joseph Scalice reveals how two parties, the PKP and the CPP, torn apart by the Sino-Soviet dispute, subordinated the explosive mass struggles of the time behind rival elite conspirators. The PKP backed Marcos and the CPP, his bourgeois opponents. The absence of an independent mass movement in defense of democracy made dictatorship possible. *The Drama of Dictatorship* argues that the martial law regime was not fundamentally the outcome of Marcos's personal quest to remain in power but rather a consensus of the country's ruling elite, confronted with mounting social unrest, that

authoritarian forms of rule were necessary to preserve their property and privileges. The bourgeois opponents of Marcos did not defend democracy but, like Marcos, plotted against it.

One of the most contentious theatres of the global conflict between capitalism and communism was Southeast Asia. From the 1920s until the end of the Cold War, the region was racked by international and internal wars that claimed the lives of millions and fundamentally altered societies in the region for generations. Most of the 11 countries that compose Southeast Asia were host to the development of sizable communist parties that actively (and sometimes violently) contested for political power. These parties were the object of fierce repression by European colonial powers, post-independence governments and the United States. Southeast Asia communist parties were also the object of a great deal of analysis both during and after these conflicts. This book brings together a host of expert scholars, many of whom are either Southeast Asia-based or from the countries under analysis, to present the most expansive and comprehensive study to date on ideological and practical experiments with Marxism-Leninism in Southeast Asia. The bulk of this edited volume presents the contents of these revolutionary ideologies on their own terms and their transformations in praxis by using primary source materials that are free of the preconceptions and distortions of counterinsurgent narratives. A unifying strength of this work is its focus on using primary sources in the original languages of the insurgents themselves.

Subversive Action presents cases that explore the use of extralegal action undertaken in pursuit of human rights and social justice, and locate that action with reference to the boundaries of social work. Definitions of social work often include goals of social change, social justice, empowerment, and the liberation of

people, but social work texts make little mention of extralegal actions. Mainstream conceptions of social work usually consider it to fall within the framework of particular legal and societal contexts. As such, it is presented with boundaries for legitimate action even as it espouses principles that may require it to challenge these boundaries. How does one do social work in legal and societal contexts that challenge these principles with institutional and state-mandated exclusion and discrimination? Should social workers simply act within the bounds of the law in line with their professional sanction and mandate? Do their actions qualify as social work if they are beyond the limits of the law? The essays in this volume, by authors from around the world, raise these questions by providing a basis for reflection about the claims we make in social work embodied in discourses on social justice and human rights.

This is a convenient and travel-sized English to Tagalog Dictionary. Over ten million Filipinos speak Tagalog, the official language of the Philippines. This dictionary addresses the growing need for a concise, reliable, and inexpensive English-Tagalog dictionary. It is ideal for teachers, students, businesspeople, travelers, and others who are interested in studying Tagalog. The key to understanding the Tagalog language is a thorough familiarity with the stresses, glottal vowels, and basic vocabulary of the language, all of which are treated in this book. Pronunciation guidelines were determined by the Institute of National Language, which based its preference on standard Manila dialect. Used in conjunction with *Tagalog for Beginners or Elementary Tagalog*, also published by Tuttle Publishing, this dictionary is an indispensable tool to those learning Tagalog or

traveling to the Philippines. Over 6,000 practical entries. Perfect for learning everyday vocabulary. Uses pronunciation guidelines from the Institute of National Language in the Philippines. Ideal for teachers, students and travelers.

A Journey of Struggle & Hope SAGE Publications

Filipino Americans are one of the three largest Asian American groups in the United States and the second largest immigrant population in the country. Yet within the field of Asian American Studies, Filipino American history and culture have received comparatively less attention than have other ethnic groups. Over the past twenty years, however, Filipino American scholars across various disciplines have published numerous books and research articles, as a way of addressing their unique concerns and experiences as an ethnic group. The *SAGE Encyclopedia of Filipina/x/o American Studies*, the first on the topic of Filipino American Studies, offers a comprehensive survey of an emerging field, focusing on the Filipino diaspora in the United States as well as highlighting issues facing immigrant groups in general. It covers a broad range of topics and disciplines including activism and education, arts and humanities, health, history and historical figures, immigration, psychology, regional trends, and sociology and social issues.

From the 1960s to the 1990s, seven members of the Quimpo family dedicated themselves to the anti-Marcos resistance in the Philippines, sometimes at profound personal cost. In this unprecedented memoir, eight siblings (plus one by marriage) tell their remarkable stories in individually authored chapters that comprise a family saga of revolution, persistence, and, ultimately, vindication, even as easy resolution eluded their struggles.

Subversive Lives tells of attempts to smuggle weapons for the New People's Army (the armed branch of the Communist Party of the Philippines); of heady times organizing uprisings and strikes; of the cruel discovery of one brother's death and the inexplicable disappearance of another (now believed to be dead); and of imprisonment and torture by the military. These stories show the sacrifices and daily heroism of those in the movement. But they also reveal its messy legacies: sons alienated from their father; daughters abused by the military; friends betrayed; and revolutionary affection soured by intractable ideological differences. The rich and distinctive contributions span the martial law years of Ferdinand Marcos's rule. *Subversive Lives* is a riveting and accessible primer for those unfamiliar with the era, and a resonant history for those with a personal connection to what it meant to be Filipino at that time, or for anyone who has fought political repression.

This book was how Nemesio E. Prudente came to be known from 1962, when Pres. Diosdado Macapagal appointed him president of Philippine College of Commerce, a school so obscure he did not know where it was. The 35-year-old Doc said PIC had been "treated like a street child" neglected and poor.
