772miles is a story of friendship and love. It defies the myths that boys have all the fun and that to be something in life, one should only study hard and do nothing else. The book takes us on the journey of Kavya's life. Kavya and her three friends are notorious in their student life, but they are girls with strong character, always lively and determined to achieve their goals in life. Kavya has a lot of friends, especially boys. Many boys have liked her, both during her school and engineering days, but she is in search of the one guy whom she can

love for a lifetime. Will Kavya find eternal love? Is love something that you find? Or is love something that finds you?
