Building User Guide Building User GuideThe Building User Guide provides the end users/occupants of the building with a simple, quick and easy guide to the everyday functions of the building in order to ensure a safe and healthy work environment while complimenting the efficient operation of the building to the full potential provided by the design.building manuals and building user guides - BSRIAThe first thing to think about when producing a Building User Guide (BUG) is the layout. The guide should be kept short and light. The best way of doing this is to use headings, bullet points and pictures/diagrams. It is important to avoid large blocks of text and unnecessary detail.How to write a Building User Guide - Designing Buildings WikiThe building user's guide should be written as if the user knows nothing about the systems being described. The document needs to be kept up

to date to reflect changes in the building and should be made easily accessible so that users can refer to it easily, and new users can learn about the building. Ideally it should be made accessible online.Building user's guide - Designing Buildings WikiThe Building Manual is intended to be an operator's guide to the building and will capture the building's design and operation needs. It is a single document that can be used to capture all future building changes and annual summaries of energy use and maintenance work. The Building User Guide provides the occupants with a simple, quick and ...Building Manuals and Building User Guides - Guidance and ...This Building User Guide aims to provide a simple and quick reference for occupants of the JDB, explaining how the building and its facilities operate on a day-to-day basis and who to contact in case of a problem or emergency.Building User Guide James Dyson BuildingIf you require information about the building's accessibility please speak to the Operations Manager or contact the Disability Advisory Services who are based at: 3 Worcester Street Oxford OX1 2BX
