 Cloud 9 is a two-act play written by British playwright Caryl Churchill. It was workshopped with the Joint Stock Theatre Company in late 1978 and premiered at Dartington College of Arts, Devon, on 14

February 1979. The two acts of the play form a contrapuntal structure. Act I is set in British colonial Africa in the Victorian era, and Act II is set in a London park in 1979. However, between the acts only twenty-five years pass for the characters. Each actor plays one role in Act I and a different role in Act II. Churchill would spend time alone writing from her experiences in the workshop before coming back to the company with a script. Churchill applied this process to her second collaboration with Joint Stock, Cloud 9. Churchill's approach to Cloud nine was not strictly feminist. She began with the more general concept of sexual repression and how any person can feel its effects. For her settings, Churchill selected two different repressive periods in British history.
