Completely revised and updated throughout, Bryan Peterson's classic guide to creativity helps photographers visualize their work, and the world, in a whole new light by developing their photographic vision. Fully revised with all new photography, this best-selling guide takes a radical approach to creativity by explaining that it is not an inherent ability but a skill that can be learned and applied. Using inventive photos from his own stunning portfolio, author and veteran photographer Bryan Peterson deconstructs creativity for photographers. He details the basic techniques that go into not only taking a particular photo, but also provides insights on how to improve upon it--helping readers avoid the visual pitfalls and technical dead ends that can lead to dull, uninventive photographs. This revised edition features a complete section on color as a design element and all new photographs to illustrate Peterson's points. *Learning to See Creatively* is the definitive reference for any photographer looking for a fresh perspective on their work.

From the popular YouTube channel Mama Natural, this is the first week-by-week natural pregnancy book for soon-to-be moms. For the last half-century, control over childbirth has been in favor of doctors. Many pregnancy guidebooks are conventional, fear-based, and written by male physicians deeply entrenched in the old-school medical model of birth. But change is underway. A

groundswell of women are taking back their pregnancy and childbirth and embracing a natural way. Genevieve Howland, the woman behind the enormously popular Mama Natural blog and YouTube channel, has created an inspiring, fun, and informative guide that demystifies natural pregnancy and walks mom through the process one week at a time. The Mama Natural's Week-by-Week Guide to Pregnancy and Childbirth is the modern (and yet ancient) approach to pregnancy and childbirth. "Natural" recognizes that pregnancy and birth are normal, and that having a baby is a wondrous biological process and rite of passage—not a medical condition. This book draws upon the latest research showing how beneficial and life-changing natural birth is for both babies and moms. Full of weekly advice and tips for a healthy pregnancy, Howland details vital nutrition to take, natural remedies for common and troublesome symptoms, as well as the appropriate (and inappropriate) use of interventions. Peppered throughout are positive birth and pregnancy stories from women of all backgrounds (and all stages of their natural journey) along with advice and insights from a Certified Nurse Midwife (CNM) plus a Registered Nurse (RN), doula, and lactation consultant. Encouraging, well-researched, and fun, *The Mama Natural's Week-by-Week Guide to Pregnancy and Childbirth* will be an essential companion for women everywhere to embrace natural pregnancy and reap all the benefits for both baby and mama.

The miracle of life—for a new generation. The completely revised fifth edition of the beloved classic offers an astonishing glimpse of the world within the womb alongside authoritative advice for expectant parents. Deep inside a woman's body, a miracle

occurs. An egg and sperm meet and a new human being is created. Through the unique photographs of Lennart Nilsson, we see the fascinating process of fertilization unfold and watch as an embryo develops from a tiny cluster of cells into a fetus, growing and maturing day by day until the time comes to meet the world outside the womb. The book also describes pregnancy from a parent's perspective, diving into maternity care, health during pregnancy, prenatal testing, and labor and delivery. First published nearly fifty years ago, *A Child Is Born* broke astonishing new ground, bringing the magic of pregnancy and birth to life. This is the fifth edition of the beloved international classic, which teams Nilsson's classic medical photographs with new documentary photographs by Linda Forsell and a revised text by professor Lars Hamberger and midwife Gudrun Abascal. *Outdoor Action and Adventure Photography* Pearson Education A BuzzFeed "Best Book of June 2021" From sixteen-year-old Dara McAnulty, a globally renowned figure in the youth climate activist movement, comes a memoir about loving the natural world and fighting to save it. *Diary of a Young Naturalist* chronicles the turning of a year in Dara's Northern Ireland home patch. Beginning in spring?when "the sparrows dig the moss from the guttering and the air is as puffed out as the robin's chest?these diary entries about his connection to wildlife and the way he sees the world are vivid, evocative, and moving. As well as Dara's intense connection to the natural world, *Diary of a Young Naturalist* captures his perspective as a teenager juggling exams, friendships, and a life of campaigning. We see his close-knit family, the disruptions of moving and changing schools, and the complexities of living with autism. "In writing this book," writes

Dara, "I have experienced challenges but also felt incredible joy, wonder, curiosity and excitement. In sharing this journey my hope is that people of all generations will not only understand autism a little more but also appreciate a child's eye view on our delicate and changing biosphere." Winner of the Wainwright Prize for UK nature writing and already sold into more than a dozen territories, *Diary of a Young Naturalist* is a triumphant debut from an important new voice.

the Year “Wise and wildly entertaining . . . permeated with light, wit, youth.” —The New York Times Book Review “A classic that we will read for years to come.” —Jenna Bush Hager, Read with Jenna book club “Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope.” —Bill Gates “A real joyride . . . elegantly constructed and compulsively readable.” —NPR The bestselling author of *A Gentleman in Moscow* and *Rules of Civility* and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. “Once again, I was wowed by Towles’s writing—especially because *The Lincoln Highway* is so different from *A Gentleman in Moscow* in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best

storytellers, he has range. He takes inspiration from famous hero's journeys, including The Iliad, The Odyssey, Hamlet, Huckleberry Finn, and Of Mice and Men. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel." - Bill Gates
