 This series provides an ideal platform to study chess openings. By continually challenging the reader to answer probing questions throughout the book, the Move by Move format greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of opening knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to study any chess opening and at the same time improve your general chess skills and knowledge. The Nimzo-Larsen Attack is an ideal opening choice for players keen to avoid

mainline theory but still wanting to set their opponents problems from the outset. In the Nimzo-Larsen, White begins 1 b3 and then develops in hypermodern fashion - planning to undermine any central structures Black dares to erect. A key attraction of the Nimzo-Larsen is that White can steer the game into either sharp play or elaborate strategic battles. In this book, International Master Cyrus Lakdawala invites you to join him in examining the many different variations of the Nimzo-Larsen. Lakdawala studies the typical plans and tactics for both sides, offers repertoire options for White, provides answers to all the key questions and tells you everything you need to know about playing the Nimzo-Larsen Attack. Essential guidance and training in the Nimzo-Larsen Attack Presents a repertoire for White with 1 b3 Utilizes an ideal approach to chess study

Perfect Your Chess Everyman Chess The first volume of the extremely popular series "Opening for White According to Kramnik" was published in 2000. Now 14th world champion Alexander Khalifman presents the audience with two entirely new books.Volume 1a covers the Old Indian Defence, Anti-Gruenfeld, and less popular lines of the King's Indian Defence. The first part of the book analyses 1.Nf3 Nf6 2.c4 d6 3.d4, where Black delays the development of his bishop to g7, or prepares it for another deployment altogether, for example after e7-e5 and Bf8-e7. These opening set-ups have long had the reputation of being solid, but with not so good prospects for Black. The second part deals with 1.Nf3 Nf6 2.c4 g6 3.Nc3 where Black follows up with 3...d5. Thus he emphasizes that he does not intend to play the KID and he invites his opponent to enter the main lines of the Gruenfeld Defence. White counters however with 4.Qa4+!? facing the opponent with difficult problems while turning the Gruenfeld out of question. In the third part of this book Khalifman begins to analyze the King's Indian Defence, starting with some currently offbeat lines. Its main and most fashionable variations are so complex and strategically independent that Khalifman singled them out in the separate volume 1b.
