Designed exclusively for the MCSE exams, TCP/IP MCSE Study Guide focuses on the exam objectives without losing track of the overall context you need to master TCP/IP. Detailed chapter-opening cross-references and end-of-chapter summaries, review questions, and labs point you directly to the information you need to pass the TCP/IP exam. Learn directly from the experts
Benefit from the real-world experience, product knowledge, and training expertise of Greg Bulette — a Microsoft-certified expert who knows TCP/IP inside out and has helped hundreds of students attain their certification goals. Practice, Practice, Practice The MCSE exams assess more than what you know — they test how well you can apply what you know. Our two-tiered approach will help you assess your practical skills: Instant Assessment: multiple choice, true/false, and short-answer questions to reinforce your basic understanding of the exam objectives
Critical Thinking and Hands-On Labs: multiple-step exercises with questions that mirror the performance-based style of the exam
The MCSE Challenge Your company has been assigned a Class B network address. Your network is currently subdivided into 10 subnets. You plan to add 25 new subnets over the next two years. You want to be able to support as many as 500 host computers on each subnet. Which subnet mask should you assign to support this configuration? Check the "Subdividing a Network" section in Chapter 4 for a complete answer.
