What is grammar? Grammar is the rules for the forms of words, phrases, and clauses in a language. Grammar includes morphology and syntax. Morphology is word parts. Syntax is word order. A Form-Function Grammar: Level 1 is the first workbook in the elementary series that builds up to A Form-Function Description of the Grammar of the Modern English Language for Junior High, a textbook and workbook that provides a descriptive grammar that strives to provide an objective description of English as used without value judgements. The goal of Level 1 is to introduce many of the word classes (parts of speech, grammatical forms) of English. Level 1 includes nouns, determiners, pronouns, verbs, adjectives, adverbs, prepositions, coordinating conjunctions, and interjections. Level 1 also introduces noun phrases. In addition to forms, Level 1 also introduces some functions of the English language including subject and predicate. Level 1 is recommended for ages 5 to 7 in kindergarten through first grade. The answers to all the activities are located at the end of the workbook.

*Modern English Structures - Second Edition* Language Science Press

The present volume examines the relationship between second language practice and what is known about the process of second language acquisition, summarising the current state of second language acquisition theory, drawing general conclusions about its application to methods and materials and describing what characteristics effective materials should have. The author concludes that a solution to language teaching lies not so

much in expensive equipment, exotic new methods, or sophisticated language analysis, but rather in the full utilisation of the most important resources - native speakers of the language - in real communication.
