The progenitor of "Muslim punk rock" and one of today's freshest spiritual voices pushes back against the common assumption that the historic faiths have no occult or magical tradition in this richly learned historical and personal journey through the practice of magic in Islam. Magic in Islam offers a look at magical and occult technologies throughout Muslim history, starting with Islam's earliest and most canonical sources. In addition to providing a highly accessible introduction to magic as it is defined, practiced, condemned, and defended within Muslim traditions, Magic in Islam challenges common assumptions about organized religion. Michael Muhammad Knight's deeply original book fills a gap within existing literature on the place of magic in Islamic traditions and opens a new window on Islam for general readers and students of religion alike. In doing so, the book counters and complicates widespread perceptions of Islam, as well as of magic as it is practiced outside of European contexts. Magic in Islam also challenges our view of "organized religions" as clearly defined systems that can be reduced to checklists of key doctrines, texts, and rules. As a result, Magic in Islam throws a monkey wrench into the conventions of the "intro to Islam" genre, threatening to flip popular notions of a religion's "center" and "margins." *Lessons on Mindfulness in Medicine* Inner Traditions

The violent partitioning of British India along religious lines and ongoing communalist aggression have compelled Indian citizens to contend with the notion that an exclusive, fixed religious identity is fundamental to selfhood. Even so, Muslim saint shrines known as dargahs attract a religiously diverse range of pilgrims. In this accessible and groundbreaking ethnography, Carla Bellamy traces the long-term healing processes of Muslim and Hindu devotees of a complex of dargahs in northwestern India. Drawing on pilgrims' narratives, ritual and everyday practices, archival documents, and popular publications in Hindi and Urdu, Bellamy considers questions about the nature of religion in general and Indian religion in particular. Grounded in stories from individual lives and experiences, *The Powerful Ephemeral* offers not only a humane, highly readable portrait of dargah culture, but also new insight into notions of selfhood and religious difference in contemporary India.

Sufi Meditation and Contemplation offers fresh translations of three classic Sufi texts from Mughal India: *The Alms Bowl* of Shaykh Kalimullah Shajehanabadi, *The Compass of Truth* by Dara Shikoh, and the *Treatise on the Human Body* attributed to Mu'in al-Din Chishti. These texts elucidate meditation practices and the resulting effects. All three come from the Mughal era in India, which witnessed a flowering of Sufism in innovative personalities, diverse mystical orders and bold literary expressions. "Meditation is the way to instill the values in the heart, to such a depth that the heart itself is transformed. The heart then is not merely an organ in the body, and is not just on its own personal center; when properly activated through meditation, the heart opens up to reveal the very presence of God with one and with all. To find this state of loving intimacy is the advice of

the Qur'an when it says, "So remember me, that I may remember you." And according to Sufi teachings, to meditate and contemplate is the way to draw God down to you and to allow yourself to be lifted up toward God." - from the foreword by Scott Kugle

Sufi Message of Hazrat Inayat Khan Hunter House

The Zen Master Thich Nhat Hanh was asked what we need to do to save our world. "What we most need to do," he replied, "is to hear within us the sound of the earth crying." Our present ecological crisis is the greatest man-made disaster this planet has ever faced—its accelerating climate change, species depletion, pollution and acidification of the oceans. A central but rarely addressed aspect of this crisis is our forgetfulness of the sacred nature of creation, and how this affects our relationship to the environment. There is a pressing need to articulate a spiritual response to this ecological crisis. This is vital and necessary if we are to help bring the world as a living whole back into balance.

Through their work with their clients, their own experiences, and studies in myth, mysticism, and alchemy, the authors have traced the emergence of a new spiritual paradigm in which the divine seeks wholeness through and with us. Many of us are having experiences that bring us in contact with a being who seems to exist independently in the realm beyond the psyche, or what the authors term "the psychoid." This being, the ally, challenges and helps us along our way to individuation. The ally represents our divine counterpart and works with us, if we are willing, to help heal the schism between and within the divine and us. The authors show us how to contact and consciously enter into a relationship with the ally through our dreams and by employing what C. G. Jung termed "active imagination." When we work with the ally to transform ourselves, the divine transforms as well, all three elements co-creating a whole being. The authors explore the ally's parallels in mystical traditions such as Sufism and alchemy, and how the ally differs from angelic beings. They also present an exciting new view of various creation myths, revealing that salvation exists beyond the "vault of heaven" for God and human alike.

In this book, Dr. Abdul Ghani has made a comparative study of Reiki & Sufi healing, on the premise that Reiki, being a legacy of the Prophets, is compatible with all the religions and spiritual systems of the world. It has also been observed that with regard to Reiki & Islam, there is a bi-pronged fear: 1. Since Reiki is practiced & promulgated mostly by the Buddhists, Christians, Jews, & also by atheists, there is a fear among the orthodox Muslims that it might be a heresy to practice Reiki. 2. On the other hand, there is an outbreak of Islamo-phobia throughout the world due to an anti-Islamic propaganda, launched by some extremists. Peoples living in the areas where Islam has not been properly introduced, seem to have developed a feeling that it is only a 'might is right' type of religion, with no proper spiritual discipline. The author has kept both these aspects in his mind, and by adopting an unbiased & purely academic approach, he has successfully elucidated that both of these fears are baseless. This book is likely to be a new dawn in the world of spiritual healing and an unprecedented gift to mankind from the blissful world of the Sufi.

Physicians of the Heart: A Sufi View of the 99 Names of Allah Simon and Schuster

Here, Thierry Zarcone and Angela Hobart offer a vigorous and authoritative exploration of the link between Islam and shamanism in contemporary Muslim culture, examining how the old practice of shamanism was combined with elements of Sufism in order to adapt to wider Islamic society. Shamanism and Islam thus surveys shamanic practices in Central Asia, the Middle East, North Africa and the Balkans, to show how the Muslim shaman, like his Siberian counterpart, cultivated personal relations with spirits to help individuals through healing and divination. It explores the complexities and variety of rituals, involving music, dance and, in some regions, epic and bardic poetry, demonstrating the close links between shamanism and the various arts of the Islamic world. This is the first in-depth exploration of 'Islamized shamanism', and is a valuable contribution to the field of Islamic Studies, Religion, Anthropology, and an understanding of the Middle East more widely.

Prayer And Healing In Islam LAP Lambert Academic Publishing

The luminous presence of women who follow the Sufi Way—the mystical path of Islam—is brought to life here through their sacred songs and poetry, their dreams and visions, and stories of their efforts as they witness the Truth in many realms. These writings reflect the honor and respect for the feminine in the Sufi worldview, and they are shared in the spirit of inspiration and hope for the flourishing contributions of women to the spiritual development of humanity. Spanning the centuries, from the time of the Prophet Muhammad to the present day, the selections are by or about an array of Sufi traditions in different parts of the world, from Asia, Africa, and the Middle East to Europe and America—from beloved members of the Prophet's family to the mystic Rabi'a al-Adawiyya to the modern scholar Annemarie Schimmel. Biographical anecdotes and personal memoirs provide a glimpse into the experience of great saints and contemporary practitioners alike, while providing an introduction to the principles and practices of Sufism.

Ancient Wisdom for Living a Divinely-Guided Life Routledge

Divine Names is a unique contribution to understanding life and oneself on a deeper level. It draws on original Arabic literature and on the author's many years of personal practice, teaching, and guiding others on their spiritual paths to healing, to become whole. It focuses on the use of the Divine Names in dhikr, individual meditations, and healing practices. The Sufi tradition centers on the opening of the heart and nothing touches the heart as much as beauty. The author's unique style of writing is coupled with ornamental Arabic calligraphy of each of the 99 Divine Names, making a stunning tribute to this tradition. It will be enjoyed regardless of religious beliefs.

Fazal Inayat-Khan - A Prism of Reflections Indiana University Press

For the Sufis, the healing of the sick is considered to be the most important of all services to humanity. For the first time in the West, the author presents the secret principles and practices of this divine science, based on the 800-year tradition of the Chishti Order. Among the many topics covered are dietary recommendations of the Prophet, the preparation of herbal formulas, healing with essential oils, illnesses arising at various stages of the soul's evolution, fasting and prayer, talismans, and the "infallible remedy."

The colonial encounter between France and Morocco in the late nineteenth century took place not only in the political realm but also in the realm of medicine. Because the body politic and the physical body are intimately linked, French efforts to colonize Morocco took place in and through the body. Starting from this original premise, *Medicine and the Saints* traces a history of colonial embodiment in Morocco through a series of medical encounters between the Islamic sultanate of Morocco and the Republic of France from 1877 to 1956. Drawing on a wealth of primary sources in both French and Arabic, Ellen Amster investigates the positivist ambitions of French colonial doctors, sociologists, philologists, and historians; the social history of the encounters and transformations occasioned by French medical interventions; and the ways in which Moroccan nationalists ultimately appropriated a French model of modernity to invent the independent nation-state. Each chapter of the book addresses a different problem in the history of medicine: international espionage and a doctor's murder; disease and revolt in Moroccan cities; a battle for authority between doctors and Muslim midwives; and the search for national identity in the welfare state. This research reveals how Moroccans ingested and digested French science and used it to create a nationalist movement and Islamist politics, and to understand disease and health. In the colonial encounter, the Muslim body became a seat of subjectivity, the place from which individuals contested and redefined the political.

Reveals the secret spiritual exercises of the Bektashi Order of Sufis • Shows how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry • Explains how to transform the soul into the alchemical Magnum Opus by combining Masonic grips and the abbreviated letters of the Qur’an • Includes a detailed biography of Baron von Sebottendorff Originally published in Germany in 1924, this rare book by Baron Rudolf von Sebottendorff reveals the secret spiritual exercises of the Bektashi Order of Sufis as well as how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry. Sebottendorff explains how the mysterious abbreviated letters found in the Qur’an represent formulas for perfecting the spirit of the individual. When combined with Masonic hand signs and grips and conducted accordingly to a precise schedule, these formulas incorporate spiritual power into the body and transform the soul from its base state into a noble, godlike state: the Magnum Opus of the medieval alchemists. Laying out the complete program of spiritual exercises, Sebottendorff explains each abbreviated word-formula in the Qur’an, the hand gestures that go with them, and the exact order and duration for each exercise. Including a detailed biography of Sebottendorff and an examination of alchemy’s Islamic heritage, this book shows how the traditions of Oriental Freemasonry can ennoble the self and lead to higher knowledge.

Ambient Sufism Tughra Books

Sufism is typically thought of as the mystical side of Islam. In recent years, it has been held up as a supposedly peaceful alternative to the spread of forms of Islam associated with violence, an embodiment of democratic ideals of tolerance and pluralism. Are Sufis in fact as otherworldly and apolitical as this stereotype suggests? Modern Sufis and the State brings together a range of scholars, including anthropologists, historians, and religious-studies specialists, to challenge common assumptions that are made about Sufism today. Focusing on India and Pakistan within a broader global context, this book provides locally grounded accounts of how Sufis in South Asia have engaged in politics from the colonial period to the present. Contributors foreground the effects and unintended consequences of efforts to link Sufism with the spread of democracy and consider what roles scholars and governments have played in the making of twenty-first-century Sufism. They critique the belief that Salafism and Sufism are antithetical, offering nuanced analyses of the diversity, multivalence, and local embeddedness of Sufi political engagements and self-representations in Pakistan and India. Essays question the portrayal of Sufi shrines as sites of toleration, peace, and harmony, exploring cases of tension and conflict. A wide-ranging interdisciplinary collection, *Modern Sufis and the State* is a timely call to think critically about the role of public discourse in shaping perceptions of Sufism.

A Drop in the Ocean of Love is a collection of personal stories we hope will inspire you, open your heart to greater love, and transform your life. The stories offer a glimpse into struggles that brought about profound transformation for the authors. All seekers committed to the Sufi path of Divine love and healing through purification of the heart, each author shares how the ancient wisdom of the Sufi spiritual teachings brought about life lessons that our souls have come into physical form to learn. If you can relate to any of these struggles, we pray these stories help you to know you are not alone. We pray they help you to know yourself more completely and to know God through your own heart. If you are called to dive into the depths of the Ocean, we hope you may find yourself as a drop containing the entire ocean within you, knowing that you have never been separate, and that you are and always have been one with The Ocean of Love. The authors are all faculty and staff of The University of Spiritual Healing and Sufism and students of Sidi Shaykh Muhammad al-Jamal, who was head of the Higher Sufi Council in Jerusalem and the Holy Land, guide of the Shadhiliyya Sufi Order, and guide of the University of Spiritual Healing and Sufism. Our mission is to spread a message of Peace, Love, Mercy, Justice and Freedom

throughout the world.

"[I]t is extremely salubrious to see the ways Islam works in the lives of ordinary people who are not politicized in their religious lives.... No other book on South Asia has material like this." —Ann Grodzins Gold In *Amma's Healing Room* is a compelling study of the life and thought of a female Muslim spiritual healer in Hyderabad, South India. Joyce Burkhalter Flueckiger describes Amma's practice as a form of vernacular Islam arising in a particular locality, one in which the boundaries between Islam, Hinduism, and Christianity are fluid. In the "healing room," Amma meets a diverse clientele that includes men and women, Muslim, Hindu, and Christian, of varied social backgrounds, who bring a wide range of physical, social, and psychological afflictions. Flueckiger collaborated closely with Amma and relates to her at different moments as daughter, disciple, and researcher. The result is a work of insight and compassion that challenges widely held views of religion and gender in India and reveals the creativity of a tradition often portrayed by Muslims and non-Muslims alike as singular and monolithic.
